Searching For God Campus Faith:

Belovedness James Franklin, Becky Zartman, 2020-06-17 This thought provoking book for college students and those who minister with them deals with issues of faith identity sex success failure and more through the concept of belovedness Every college student's story is different but they all have the same questions in common Who am I How do I make good choices What does it mean to be successful How do I navigate changing relationships with my family my peers my significant other And how do I do all of this faithfully This book approaches these topics through a fundamental inquiry What if I really truly believed that I was beloved beyond all measure and how would that influence what I do Along with the editors eight campus ministers from across several denominations contributed to this volume to help students navigate questions of life and faith in the world of high pressure college campuses Telling it like it is with wit and wisdom drawn from scripture tradition and life experience this book offers profound and practical reminders of what it is to be beloved **Finding God at Harvard** Kelly

K. Monroe, 1997-09-18 Kelly Monroe presents forty two compelling testimonies from faculty members former students and orators at Harvard University whose reflections explode the myth that Christian faith cannot survive a rigorous intellectual environment **God on Campus** Trent Sheppard, 2010-01-04 Trent Sheppard explores historical turning points as they've

intersected college students in prayer From the establishment of early American campuses during the Great Awakening to the parachurch movement in the mid twentieth century to the Campus America initiative to establish vital praying communities on every campus in the United States Sheppard shows that students can participate in remarkable movements of God simply by being open to being moved Seeking & Finding God (B) Dave Hunt, 2021-04-02 It is astonishing how

many millions of otherwise seemingly intelligent people are willing to risk their eternal destiny upon less evidence than they would require for buying a car or even a low carb food item yet the belief of so many particularly in the area of religion has no rational or factual foundation With well researched arguments and compelling proof this book demonstrates that the issue of where one will spend eternity is not a matter of preference like joining the Elks instead of the Lions In fact there is overwhelming evidence that we are eternal beings who will spend eternity somewhere But where will it be And how can we know There is no more important question to be faced and answered **Our Connectional Church** Gradye

Parsons, 2018-06-05 Presbyterian leader Gradye Parsons takes the reader on a tour of the current Presbyterian Church U S A After reflecting on the importance of being nourished in a local congregation and being relevant witnesses in the community he walks us through four churches big and small showing the types of ministry being done by Presbyterians today Our Connectional Church explores the risks being taken by congregations and reflects on the future of the denomination

Encountering Faith in the Classroom Miriam R. Diamond, 2023-07-03 When faculty unexpectedly encounter students religious ideologies in the classroom they may respond with apprehension frustration dread or concern Instructors may view this exchange as a confrontation that threatens the very heart of empirical study and worry that this will lead to a dead end in the learning process The purpose of this book is to explore what happens and what can happen in the higher education and even secondary school classroom when course content meets or collides with students religious beliefs It also considers the impact on learning in an environment where students may feel threatened angry misunderstood or in which they feel their convictions are being discredited This is a resource that offers ways of conceptualizing engaging with and responding to student beliefs This book is divided into three sections student views on the role of religion in the classroom general guidelines for responding to or actively engaging religious beliefs in courses such as legal and diversity considerations and specific examples from a number of disciplines including the sciences social sciences humanities and professional education Professors from public private and religious institutions share their findings and insights The resounding lessons of this book are the importance of creating a learning space in which students can express their beliefs dissonance and emotions constructively without fear of retribution and of establishing ground rules of respectful discussion

for this process to be valuable and productive This is an inspirational and practical guide for faculty navigating the controversial sensitive yet illuminating lessons that can be learned when religion takes a seat in the classroom Already Compromised Dr. Greg Hall, Steve Ham, Todd Hillard, 2011-05-01 Will a Christian college build a student's faith or tear it down Parents and students sacrifice large sums of money for a Christian college education Why They are purchasing a guarantee their child's faith in God and the Bible will be guarded and developed But is the Bible being taught Will they graduate believing in the inerrancy of Scripture the Flood of Noah's Day and a literal six day creation Apologetics powerhouse Ken Ham and Dr Greg Hall reveal an eye opening assessment of 200 Christian colleges and universities In an unprecedented 2010 study by America Research Group college presidents religion and science department heads were polled on critical areas of Scripture and core faith questions Ken Ham is an accomplished author of some of the most popular and effective apologetics research on the market He is the founder of Answers in Genesis U S and the president of the Creation Museum I have no doubt that the average church member would be shocked and outraged to discover how many supposedly evangelical colleges and universities have more or less given up their commitment to biblical inerrancy and the authority of Scripture especially when dealing with the early chapters of Genesis I'm grateful for this important work by Ken Ham and Greg Hall documenting the many compromises that have ravaged the Christian academy Already Compromised is a much needed wake up call and a summons to arms for faithful courageous Bible believers We need to stand up declare our faith and defend the truth of Scripture courageously The stakes are high and the battle may be more fierce than ever but God will bless those who honor His Word May He bless us with clear unwavering voices John MacArthur **Finding God in the Rubble of Numbers** Ruth M. Penksa, 2013-02-28 As I thought of writing a second book my mind drifted toward a theme to draw out my thoughts I don't know when numbers became the tool the angle I'd use to tell my stories Perhaps it was my frequent trips down Hertel Avenue that suggested the use of numbers I would glance to the left at a small shop and memories of my dad and his watch repair shop would quickly emerge Vivid pictures flashed in my mind's eye dad bent over his work bench or standing in front of the shop near a window marked Jewelry Repair Today my eye rests on the number 638 the same number the address of the shop of my memories The first episode I wrote thus emerged 638 The Watchmakers Shop It was a deciding moment I would reach into my life to tell the stories based on the numbers that would be associated with each Thus I began to seek out those numbers They might refer to dates years months addresses age room numbers school numbers grades in school a count of items or people and on and on The point each provoked a story to tell However the real story the story intended for the reader is hidden in the scriptural reflection that follows each episode Here the reader is exposed to the Word of God Here the reader will find the place for his story and is able to find God in the rubble of his own life and numbers if he but listen Although each episode is related to a number they were written randomly The reader will read them in numerical order beginning with 1 and ending with Something came to my attention as I was well

into writing I received an email that asked the question Do you know why 1 is one 2 is two 3 is three 4 is four I enjoyed the logic that traced them 1 9 that attached number with its numeral The answer is There are angles Very interesting is 0 For a peek at numbers from this angle for your information be it fact or fiction I have included pictures and internet info showing the primitive forms of numbers known as Arabic algorithms rather than roman algorithms However the queen of internet encyclopedias Wikipedia debunks the theory as urban myth For me myth or not as I reflected on my writing I realized that I had been doing just that checking out the angles associated with each number that told a story and finding God in the rubble of those numbers

A Case for the Existence of God Dean L. Overman,2009 In A Case for the Existence of God Dean L Overman examines the latest theories about the origins of the universe and explains why even the most sophisticated science can take us only so far Ultimately we must make a leap of faith to understand the world and Overman argues that a leap into theism provides the most satisfying conclusions Overman explores fundamental questions about why our world exists and how it functions using principles of logic physics and theology In a time when religion and science are often portrayed as diametrically opposed A Case for the Existence of God presents a refreshing view of the interplay between science and religion and makes a compelling case for the existence of God and His role in our world BOOK JACKET

Spirit-empowered Christianity in the Twenty-first Century Vinson Synan,2011 What does a re vision of the Charismatic Pentecostal Spirit empowered movement look like in the coming years of this millennium The first century of this revival seems to attest that the Lord raised up the holiness and Pentecostal movements not only to be custodians of these distinctive truths but the perpetuators of them as well If any generation ceases to accentuate this emphasis the movement likely will forfeit the right to be recognized as such When the Pentecostal message is preached published and proclaimed through triumphant song an atmosphere is sustained for people to experience anew and again the reality of salvation holiness charismata wholeness and hope Such a revival will be biblically based rationally sound traditionally accurate and experientially real Spirit Empowered Christianity in the 21st Century is an authoritative compilation of the presentations from thirty leaders in the Charismatic Pentecostal movement given at the Empowered 21 Conference in Tulsa OK in April 2010 These chapters share emerging insights on how the next generation will handle the profound issues facing Christians within the Charismatic Pentecostal movement in the 21st century For example one portion covers the topic of the 21st century renewal while another discusses how we can protect our Charismatic distinctive Another portion will highlight Charismatic adaptations for reaching this present age discussing issues of social and economic justice prosperity and suffering challenges to urban ministry the future of the next generation Oneness Pentecostalism and missiological aims in North America

A Student's Search for Meaning Melissa Carter,James Fraser,Chelsea Garbell,Amy Wilson,2023-11-25 This edited volume brings together reflections on how students pursue the search for meaning and purpose in the context of higher education It offers perspectives from humanities professors college chaplains of multiple faiths and observers of the

changing shape of the American university as each considers the needs and expectations of today's students. The collection addresses three key lines of inquiry: what the student search for meaning looks like in the context of higher education; how do presenters understand the dimensions of the search for meaning itself; and how do or don't humanities faculty and religious life leaders talk to each other around the common student concerns addressed in both course work and the extracurricular world of religious life programs. Together the conversation suggests that students pursue a search for meaning in the context of university life and the academic curriculum but the particular dimensions of this search are yet undefined. This is often a contested pursuit because it conflicts with the other purposes of the university which some see as primary. A key audience for this book is university administrators who work in the field of chaplaincy and faith-based programming as well as department chairs and faculty in the liberal arts who are directly involved in building humanities curriculum.
