Lords Of Things The Fashioning Of The Siamese Monarchys Modern Image:

Lords of Things Maurizio Peleggi, 2002-07-31 *Lords of Things* offers a fascinating interpretation of modernity in late nineteenth and early twentieth century Siam by focusing on the novel material possessions and social practices adopted by the royal elite to refashion its self and public image in the early stages of globalization. It examines the westernized modes of consumption and self presentation, the residential and representational architecture and the public spectacles appropriated by the Bangkok court not as byproducts of institutional reformation initiated by modernizing sovereigns but as practices and objects constitutive of the very identity of the royalty as a civilized and civilizing class. Bringing a wealth of new source material into a theoretically informed discussion, *Lords of Things* will be required reading for historians of Thailand and Southeast Asia scholars generally. It represents a welcome change from previous studies of Siamese modernization that are almost exclusively concerned with the institutional and economic dimensions of the process or with foreign relations and will appeal greatly to those interested in transnational cultural flows, the culture of colonialism, the invention of tradition and the relationship between consumption and identity formation in the modern era. *The Cambridge Global History of Fashion: Volume 2* Christopher Breward, Beverly Lemire, Giorgio Riello, 2023-08-17 Examines the challenges of fashion from the nineteenth century to the present day from decolonisation to sustainability.

Love and Death of King Ananda Mahidol of Thailand Pavin Chachavalpongpun, 2021-12-01 This book examines two aspects of the abbreviated reign of King Ananda Mahidol 1935-1946, or King Rama VIII of the current Chakri dynasty of Thailand. First, it discusses the royal family's plot to thwart a romantic relationship between the young king Ananda and his Swiss girlfriend Marileine Ferrari, a daughter of a famous pastor of Lausanne, Switzerland. Interracial marriage, particularly with Westerners, has been strictly forbidden for Thai kings or heirs apparent. The restriction stems from the interwoven connection between sexual relationship and the security of the throne. The second part investigates the mysterious death of King Ananda, a long-held taboo topic in Thailand. Although the two events were not specially related, both in their own way served to unavoidably shake the position of the monarchy and hence threaten its existence. The palace's reactions to these events demonstrated its continuous search to maintain its power and ultimately to warrant its survival. Ghosts of the New City Andrew Alan Johnson, 2014-07-31 Chiang Mai, literally a new city, suffered badly in the 1997 Asian financial crisis as the Northern Thai real estate bubble collapsed along with the Thai baht, crushing dreams of a renaissance of Northern prosperity. Years later, the ruins of the excesses of the 1990s still stain the skyline. In *Ghosts of the New City*, Andrew Alan Johnson shows how the trauma of the crash brought back vividly by the political crisis of 2006 haunts efforts to remake the city. For many Chiang Mai residents, new developments harbor the seeds of the crash which manifest themselves in anxious stories of ghosts and criminals who conceal themselves behind the city's progressive veneer. Hopes for rebirth and fears of decline have their roots in Thai conceptions of progress which draw from Buddhist and animist ideas of power and sacrality. Cities, Johnson argues, were centers where the charismatic power of

kings and animist spirits were grounded these entities assured progress by imbuing the space with sacred power that would avert disaster Johnson traces such magico religious conceptions of potency and space from historical records through present day popular religious practice and draws parallels between these and secular attempts at urban revitalization Through a detailed ethnography of the contested ways in which academics urban activists spirit mediums and architects seek to revitalize the flagging economy and infrastructure of Chiang Mai Johnson finds that alongside the hope for progress there exists a discourse about urban ghosts deadly construction sites and the lurking anxiety of another possible crash a discourse that calls into question history s upward trajectory In this way *Ghosts of the New City* draws new connections between urban history and popular religion that have implications far beyond Southeast Asia

Envisioning the Empress: The Lives and Images of Japanese Imperial Women, 1868-1952 Alison J. Miller, 2024-12-02 *Envisioning the Empress* illuminates dynamic and powerful empresses who impacted not only women in their own time but whose influence extended to later generations of royalty creating a greater role for imperial women and elevating the status of women s roles at a crucial juncture in Japanese history The central focus of this book is visual monarchy exploring how the empress biographies were primarily expressed in visual culture and how their images worked in support of Japan s imperial policies in the late nineteenth and early twentieth centuries The book begins with a brief overview of premodern and modern imperial women to orient the reader In each chapter different media audiences and distribution channels for constructing the narrative of feminine imperial power in Japan are addressed alongside biographical information It is argued that the ultimate purpose of all of these images was to elevate the empress and promote her image as a conventional role model for modern women but one with enough celebrity cache to maintain popularity The images of the modern empresses as distributed by the Imperial Household Agency strike a balance between propaganda and popular media noble philanthropist and upper middle class role model celebrity and mother of the nation The modern empress image was crafted to be both exalted and approachable and worked to establish individual biographies while simultaneously establishing the position of the empress as timeless in the public eye *Envisioning the Empress* introduces students of royal studies as well as modern Japanese history and art history to this fascinating element of the history of monarchy and women s history more broadly

Eschewing issues of dating style and iconography historian Maurizio Peleggi addresses distinct types of artifacts and artworks as both the products and vehicles of cultural memory From the temples of Chiangmai to the Emerald Buddha from the National Museum of Bangkok to the prehistoric culture of Northeast Thailand and from the civic monuments of the 1930s to the political artworks of the late twentieth century even well known artworks and monuments reveal new meanings when approached from this perspective Part I Sacred Geographies focuses on the premodern era when religious credence informed the cultural alteration of landscape and devotional sites and artifacts including visual representation of the Buddhist cosmology were created Part II Antiquities Museums and National History covers the 1830s through the 1970s when antiquarianism and eventually archaeology emerged and developed in the kingdom partly the result of a shift in the elites worldview and partly a response to colonial and neocolonial projects of knowledge Part III Discordant Mnemoscapes deals with civic monuments and artworks that anchor memory of twentieth century political events and provide stages for both their commemoration and counter commemoration by evoking the country s embattled political present Monastery Monument Museum shows us how cultural memory represents a kind of palimpsest the result of multiple inscriptions reworkings and manipulations over time The book will be a rewarding read for historians art historians anthropologists and Buddhism scholars working on Thailand and Southeast Asia generally as well as for academic and general readers with an interest in memory and material culture
