Geoffrey Holmes, D. Szechi

Lordship To Patronage Scotland 1603 1745:

Integration, Enlightenment, and Industrialization Bruce Lenman, Rosalind Mitchison, 1981 *Britain in the First Age of Party, 1687-1750* Clyve Jones, 1986-07-01 The 70 years of late Stuart and early Hanoverian Britain following 1680 were a crucial period in British politics and society seeing the growth both of political parties and of stability This collection of original essays provides a coherent account of Britain in the First Age of Party *Where Men No More May Reap or Sow* Richard D. Oram, 2024-06-06 Drawing together the evidence of archaeology palaeoecology climate history and the historical record this first environmental history of Scotland explores the interaction of human populations with the land waters forests and wildlife This volume spans 450 years that saw profound transformation in Scotland's environment It begins in the fifteenth century when the Golden Age of the early 1200s was but a fading folk memory in a land gripped by the gathering grimness of a little ice age Colder wetter stormier weather became the new normal interspersed with brief episodes of warmer but still moist conditions all of which brought huge challenges to a society on the knife edge of subsistence Viewing the religious and political upheavals of the sixteenth and seventeenth centuries against the cycles of disease and dearth that were ever present into the later 1700s the book explores the slow adoption and application of the ideas of Improvement and the radical disruption of Scotland's environment that ensued Reformation revolution and rebellion were the background noise to efforts to subsist and succeed through a hostile age in which Scotland's environment was an adversary to be tamed mastered and made polite As the last bitter decades of the little ice age were ground out in foreign wars forced clearances and potato famines Scotland prepared itself to embrace the Industrial Age **Reforming the Scottish Parish** John McCallum, 2016-04-08 The Protestant Reformation of 1560 is widely acknowledged as being a watershed moment in Scottish history However whilst the antecedents of the reform movement have been widely explored the actual process of establishing a reformed church in the parishes in the decades following 1560 has been largely ignored This book helps remedy the situation by examining the foundation of the reformed church and the impact of Protestant discipline in the parishes of Fife In early modern Scotland Fife was both a distinct and important region containing a preponderance of coastal burghs as well as St Andrews the ecclesiastical capital of medieval Scotland It also contained many rural and inland parishes making it an ideal case study for analysing the course of religious reform in diverse communities Nevertheless the focus is on the Reformation rather than on the county and the book consistently places Fife's experience in the wider Scottish British and European context Based on a wide range of under utilised sources especially kirk session minutes the study's focus is on the grass roots religious life of the parish rather than the more familiar themes of church politics and theology It evaluates the success of the reformers in affecting both institutional and ideological change and provides a detailed account of the workings of the reformed church and its impact on ordinary people In so doing it addresses important questions regarding the timescale and geographical patterns of reform and how such dramatic religious change succeeded and endured without

violence or indeed widespread opposition [A Reference Guide for English Studies](#) Michael J. Marcuse,2023-11-15 [The Oxford Handbook of the English Revolution](#) Michael J. Braddick,2015-03-05 This Handbook brings together leading historians of the events surrounding the English revolution exploring how the events of the revolution grew out of and resonated in the politics and interactions of the each of the Three Kingdoms England Scotland and Ireland It captures a shared British and Irish history comparing the significance of events and outcomes across the Three Kingdoms In doing so the Handbook offers a broader context for the history of the Scottish Covenanters the Irish Rising of 1641 and the government of Confederate Ireland as well as the British and Irish perspective on the English civil wars the English revolution the Regicide and Cromwellian period The Oxford Handbook of the English Revolution explores the significance of these events on a much broader front than conventional studies The events are approached not simply as political economic and social crises but as challenges to the predominant forms of religious and political thought social relations and standard forms of cultural expression The contributors provide up to date analysis of the political happenings considering the structures of social and political life that shaped and were re shaped by the crisis The Handbook goes on to explore the long term legacies of the crisis in the Three Kingdoms and their impact in a wider European context **Weep Not for Me** Deborah A. Symonds,2010-11-01 **Reader's Guide to British History** David Loades,2020-12-17 The Reader sGuide to British History is the essential source to secondary material on British history This resource contains over 1 000 A Z entries on the history of Britain from ancient and Roman Britain to the present day Each entry lists 6 12 of the best known books on the subject then discusses those works in an essay of 800 to 1 000 words prepared by an expert in the field The essays provide advice on the range and depth of coverage as well as the emphasis and point of view espoused in each publication **The British Country House in the Eighteenth Century** Christopher Christie,2000 This work explores the British country house between 1700 1830 and looks at the lives of the noblemen and the servants who inhabited them Reference is made to the whole of the British Isles and there is a discussion of their political significance [The Age of Oligarchy](#) Geoffrey Holmes,D. Szechi,2014-07-16 The second volume on early and mid Georgian Britain shows how the country used its expanding wealth its new found social cohesion at home and its international influence abroad to become not only a European but an imperial power As with the first volume every aspect of the period is covered [Scottish Soldiers in France in the Reign of the Sun King](#) Matthew Glozier,2004-05-01 This volume examines the role and significance of Scottish soldiers in France in the age of the Sun King Louis XIV The study examines the complex relationship of expatriate Scottish soldiers to their homeland and native sovereign within the context of a changing environment for military employment The amity of the so called auld alliance meant little in an age of rapid development in the relationship between armies and the states they served Caught in the middle were a number of Scots attempting to perpetuate traditional modes of employment abroad They found themselves the target of increasing pressures to commit wholeheartedly to one employer or another The book surveys the history of

Scottish soldiers' service on the continent generally and in France in particular by examining the specific conditions of military service there in the Sun King's reign with a special focus on the soldiers of the regiment of George Douglas Earl of Dumbarton

Blasphemies of Thomas Aikenhead Michael F. Graham, 2013-08-20 This is the first modern book-length study of the case of Thomas Aikenhead, the sometime University of Edinburgh student who in 1697 earned the unfortunate distinction of being the last person executed for blasphemy in Britain

Longman Handbook to Modern British History 1714 - 2001 Chris Cook, John Stevenson, 2014-07-10 This compact and accessible reference work provides all the essential facts and figures about major aspects of modern British history from the death of Queen Anne to the end of the 1990s. The Longman Handbook of Modern British History has been extended to include a fully revised bibliography reflecting the wealth of newly published material in recent years, the new statistics on social and economic history, and an expanded glossary of terms. The political chronologies have been revised to include the electoral defeat of John Major and the record of New Labour in office. Designed for the student and general reader, this highly successful handbook provides a wealth of varied data within the confines of a single volume

Restoration and Revolution in Britain Gary S. De Krey, 2017-09-16 Charles II was restored to the rule of England, Scotland, and Ireland in 1660, less than twelve years after the execution of his father, Charles I, and the ensuing republican experiment in government. Popular at first, the Restoration nevertheless failed to provide lasting settlement in any of the British kingdoms. *Restoration and Revolution in Britain* examines the political history of these kingdoms from the Interregnum through Britain's eighteenth-century rise to power. Written especially for students approaching the Restoration for the first time, this essential introduction assesses the reasons for the failure of settlement in the reigns of Charles and of his brother James II. It integrates the histories of Charles's different realms, examines the many connections between politics and Protestant religious disagreements, provides helpful historical context for understanding a range of contemporary authors such as Bunyan, Locke, and Milton, and concludes with an examination of the Glorious Revolution of 1688-89 and explains why settlement was finally achieved through revolution rather than through restoration

Glencoe and the End of the Highland War Paul Hopkins, 2001-01-01 Paul Hopkins, an authority on early Jacobitism, sets the Massacre of Glencoe in its true context. The book describes the tensions in the Highlands between the Restoration and the End of the Revolution and the influence on the Highlands of national politics. Besides filling a blank in our knowledge of the Highlands in the decade following the Massacre, the book transforms our perspective on lowland politics by showing that the Inquiry was part of a secret patriotic campaign to break the aristocracy's political stranglehold and increase the Scottish parliament's powers

Orthodoxy and Enlightenment Jeffrey M. Suderman, 2001-10-16 George Campbell (1719-1796) has long been regarded as a seminal figure in the development of modern theories of persuasion, but modern students of rhetoric seldom look beyond his *Philosophy of Rhetoric* to his equally important religious writings. Campbell is portrayed as a secular figure, and his contributions to eighteenth-century Christian apologetics have been largely forgotten. In his own time, however, Campbell

had an international reputation as a champion of the Gospel miracles against the sceptical assaults of the philosopher David Hume and as a respected biblical scholar and authority on Church history Orthodoxy and Enlightenment is the first study to deal with the entire range of Campbell's interests and publications Suderman sets Campbell firmly in his eighteenth century context reconstructing his life and times from contemporary and manuscript sources He argues that while Campbell's wide ranging scholarly and scientific interests made him as much a man of the Enlightenment as his better known contemporaries Voltaire and Hume he used the critical tools of the Enlightenment to defend a sincere and orthodox Christian faith The detailed reconstruction of Campbell's apologetic system will be of interest to students of history philosophy literary criticism rhetoric and religious thought as well as to general readers interested in the eighteenth century **The Oxford Handbook of Modern Scottish History** T. M. Devine, Jenny Wormald, 2012-01-26 Over the last three decades major advances in research and scholarship have transformed understanding of the Scottish past In this landmark study some of the most eminent writers on the subject together with emerging new talents have combined to produce a large scale volume which reconsiders in fresh and illuminating ways the classic themes of the nation's history since the sixteenth century as well as a number of new topics which are only now receiving detailed attention Such major themes as the Reformation the Union of 1707 the Scottish Enlightenment clearances industrialisation empire emigration and the Great War are approached from novel and fascinating perspectives but so too are such issues as the Scottish environment myth family criminality the literary tradition and Scotland's contemporary history All chapters contain expert syntheses of current knowledge but their authors also stand back and reflect critically on the questions which still remain unanswered the issues which generate dispute and controversy and sketch out where appropriate the agenda for future research The Handbook also places the Scottish experience firmly into an international historical perspective with a considerable focus on the age old emigration of the Scottish people the impact of successive waves of immigrants to Scotland and the nation's key role within the British Empire The overall result is a vibrant and stimulating review of modern Scottish history essential reading for students and scholars alike The Jacobites Daniel Szechi, 1994-05-15 This work provides a pan European survey of the Jacobite phenomenon It examines Jacobitism in all three kingdoms and offers an interpretation of the impact of the Jacobites on the history of Britain and Europe This book also provides a survey of the debates that still surround the subject and acquaints the student with the most recent writing and research Szechi explains what Jacobitism was and what it did He then goes on to examine who the Jacobites were particularly focusing on their socio economic status social networks and religious affiliations He also looks in detail at the ideology of Jacobitism and the rediscovered voice of popular Jacobitism Additionally such areas as the Irish dimension and the Jacobite diaspora are explored This textbook aims to lead students clearly and thoroughly through one of the most complex subjects in 18th century history *Scottish Society, 1500-1800* Robert Allen Houston, Ian D. Whyte, 2005-04-18 The volume covers many of the most significant themes in pre industrial Scottish society **Reformed**

and Evangelical across Four Centuries Nathan Feldmeth, S. Donald Fortson, Garth M. Rosell, Kenneth J.

Stewart, 2022-01-13 Choice Outstanding Academic Title 2022 A definitive history of evangelical Presbyterianism in America Reformed and Evangelical across Four Centuries tells the story of the Presbyterian church in the United States beginning with its British foundations and extending to its present day expression in multiple American Presbyterian denominations This account emphasizes the role of the evangelical movement in shaping various Presbyterian bodies in America especially in the twentieth century amid increasing departures from traditional Calvinism historic orthodoxy and a focus on biblical authority Particular attention is also given to crucial elements of diversity in the Presbyterian story with increasing numbers of African American Latino and Korean American Presbyterians among others in the twenty first century Overall this book will be a bountiful resource to anyone curious about what it means to be Presbyterian in the multidimensional American context as well as to anyone looking to understand this piece of the larger history of Christianity in the United States
