The World Is Always Coming to an End Carlo Rotella, 2019-04-26 An urban neighborhood remakes itself every day and unmakes itself too Houses and stores and streets define it in one way But it's also people the people who make it their home some eagerly others grudgingly A neighborhood can thrive or it can decline and neighbors move in and move out Sometimes they stay but withdraw behind fences and burglar alarms If a neighborhood becomes no longer a place of sociability and street life but of privacy indoors and fearful distrust outdoors is it still a neighborhood In the late 1960s and 1970s Carlo Rotella grew up in Chicago's South Shore neighborhood a place of neat bungalow blocks and desolate commercial strips and sharp sometimes painful social contrasts In the decades since the hollowing out of the middle class has left residents confronting or avoiding each other across an expanding gap that makes it ever harder for them to recognize each other as

neighbors Rotella tells the stories that reveal how that happened stories of deindustrialization and street life stories of gorgeous apartments with vistas onto Lake Michigan and of Section 8 housing vouchers held by the poor At every turn South Shore is a study in contrasts shaped and reshaped over the past half century by individual stories and larger waves of change that make it an exemplar of many American urban neighborhoods Talking with current and former residents and looking carefully at the interactions of race and class persistence and change Rotella explores the tension between residents deep investment of feeling and resources in the physical landscape of South Shore and their hesitation to make a similar commitment to the community of neighbors living there Blending journalism memoir and archival research *The World Is Always Coming to an End* uses the story of one American neighborhood to challenge our assumptions about what neighborhoods are and to think anew about what they might be if we can bridge gaps and commit anew to the people who share them with us Tomorrow is another ending

Over a thousand ditties of love and despair Lake of Dragons Mike Reynolds,2005-06-09 On Ouloos a planet very similar to our own there lives a young lad who has been trained as a warrior since he was big enough to lift a sword The lad is Maelich and he is the star of a prophecy that he doesn't understand On his twelfth birthday he and his mentor Ymitoth are attacked by a pack of amatilazo and his life is changed forever He is abandoned and must find his path on his own Maelich embarks on a journey to find truth What he discovers is that his training is not complete and he must journey on to one greater than the man he called father He learns that his natural father was not a man but a lake the Lake of Dragons the origin of all evil He learns of the prophecy and his role He is taught the art of controlling dragons fire and sent on his path to kill the last dragon and fulfill the prophecy Along the way however he encounters many that would challenge his beliefs and the true nature of his role on Ouloos Maelich battles his way to the dragon By the time he reaches his destination he is completely unsure of his path What is truth Everyone he has encountered has told him to trust his heart but there is too much in his head for his heart to be heard Still he must choose One path leads to salvation for Ouloos the other oblivion Lake of Dragons is a fast paced adventure fantasy packed with thrills and surprises that will keep you guessing until the end Fasten your seat belt before you open this book *Tragic Pleasures* Elizabeth S. Belfiore,2014-07-14 Elizabeth Belfiore offers a striking new interpretation of Aristotle's Poetics by situating the work within the Aristotelian corpus and in the context of Greek culture in general In Aristotle's Rhetoric the Politics and the ethical psychological logical physical and biological works Belfiore finds extremely important but largely neglected sources for understanding the elliptical statements in the Poetics The author argues that these Aristotelian texts and those of other ancient writers call into question the traditional view that katharsis in the Poetics is a homeopathic process one in which pity and fear affect emotions like themselves She maintains instead that Aristotle considered katharsis to be an allopathic process in which pity and fear purge the soul of shameless antisocial and aggressive emotions While exploring katharsis Tragic Pleasures analyzes the closely related question of how the Poetics treats the issue of plot structure In fact Belfiore's wide ranging work eventually discusses every central concept in the Poetics including imitation pity and fear necessity and probability character and kinship relations Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 The Earth Is Evil Steven Swarbrick,2025-10 The Earth Is Evil examines the connection between subjectivity and lack arguing for a destituent ecology that sees lack as the universalist core of social political and environmental struggles Steven Swarbrick maintains that psychoanalysis does not simply help us integrate our desires into a

constituency of multispecies actors Instead psychoanalysis destitutes our fantasies of ecological and psychic wholeness That destitution he argues is the unconscious source of our enjoyment Exploring films by Lars von Trier Kelly Reichardt Daniel Kwan and Daniel Scheinert among others and intervening in trenchant debates about negativity and desire Swarbrick urges a return to the existentialist subject of lack against the flattening of subjectivity by ecocriticism The Earth Is Evil is a vigorous attempt to construct a leftist environmental movement in dialogue with the most radical currents of critical theory
