Lost Stories:

After Postmodernism Christopher K. Coffman, Theophilus Savvas, 2020-12-18 Several of American literature's most prominent authors and many of their most perceptive critics and reviewers argue that fiction of the last quarter century has turned away from the tendencies of postmodernist writing. Yet the nature of that turn and the defining qualities of American fiction after postmodernism remain less than clear. This volume identifies four prominent trends of the contemporary scene: the recovery of the real, a rethinking of historical engagement, a preoccupation with materiality, and a turn to the planetary. Readings of works by various leading figures including Dave Eggers, Jonathan Franzen, A. M. Homes, Lance Olsen, Richard Powers, William T. Vollmann, and David Foster Wallace support a variety of arguments about this recent revitalization of American literature. The chapters in this book were originally published as a special issue of the journal *Textual Practice*.

LeBron Jeff Benedict, 2023-04-11 The first definitive biography of basketball legend LeBron James by the acclaimed author of *Tiger Woods*. LeBron is unquestionably the greatest basketball player of the 21st century. Off the court, LeBron's political activism, outspoken stance on racism and social injustice, have helped build a social media presence that includes 117 million followers on Instagram and 51 million followers on Twitter. He is an international brand worth billions of dollars. He doesn't just have huge endorsement deals with some of the biggest corporations in the world; LeBron sits on boards of directors and has an equity stake in the companies he sponsors. He has forged a close friendship with President Barack Obama and clashed publicly with President Donald Trump. As a child, LeBron was a lost little boy living in a public housing project in Akron, Ohio. His mother, who had LeBron when she was just sixteen, would disappear for days at a time. Scared and alone, LeBron rarely attended school. He was dirt poor and fatherless. And he had never played organized basketball. Yet he would become the most successful and most popular athlete that the United States has produced this century, bringing success to the Cleveland Cavaliers, Miami Heat, and Los Angeles Lakers. To tell this epic story, Benedict has done exhaustive research, digging through thousands of pages of primary source documents, articles, books, and hundreds of hours of video footage. He's also conducted hundreds of interviews with the people who were intimately involved with LeBron from the beginning of his life to the present. He shows the initial slow rise of a star that suddenly transformed into a speeding comet during his senior year of high school. It is a unique and unmissable insight into one of the world's greatest athletes. *The Search for Smilin' Ed* Kim Deitch, 2010-01-01 Launched on his latest investigation by a remark from his brother about a shared childhood favorite, Y know, I heard that when Smilin' Ed died, his body was never found. Deitch begins to uncover some truly amazing things about the kiddie show host and his malevolent sidekick Froggy the Gremlin. Meanwhile, Deitch's muse and nemesis Waldo the Cat abandons Deitch to hang out with some demon buddies, and soon both Waldo and Deitch are closing in on the mysteries of Smilin' Ed and Froggy. Ranging across the entire twentieth century, replete with flashbacks, stories within stories, and guest appearances from other Deitch regulars, *The Search for Smilin' Ed* is a narrative whirligig that

shows Deitch at his wildest and woolliest For those whose heads have started to spin at the complexity of Deitch world Deitch scholar Bill Kartalopoulos offers a lengthy essay on the ins and outs of this ever evolving ever expanding world where fantasy reality and satire combine clash and are sometimes downright indistinguishable p p1 margin 0 0px 0 0px 0 0px font 13 9px Arial color 424242 The Lost Stories of Louisa May Alcott Louisa May Alcott,1995 From the author of anonymous and pseudonymous tales comes a collection on nine newly discovered stories uncovered by tireless literary detective work

Depending on Strangers David P Levine, 2021-03-01 We live in a world where our livelihood depends on our ability to relate to strangers The central quality that defines strangers is that they are unknown Because strangers are unknown they represent in the world outside the unknown self within The unknown self is the core of the personality considered as a potential to become something yet to be determined To be already known is to be determined prior to and independently of our presence in our lives At the outset of the process of taking form the individual is in a sense a stranger to self and to others The more this is the case the greater the openness of the process of self formation and the more marked the role of freedom from predetermination in that process Freedom from predetermination exists along three dimensions the free movement of thoughts and ideas or inner freedom the freedom to relate which is also the freedom not to relate and freedom in relating which is the possibility of maintaining secure self boundaries in relations with others In exploring freedom understood in this way Professor Levine considers such topics as the nature of inner freedom and its relationship to deliberation and choice stranger anxiety and its connection to group dynamics and social connection the internal factors that enable us to make the decisions that shape our lives and through our actions realize the ends embedded in our decisions how our memories shape our thought processes and therefore the choices we make and the lives we lead that result from them what makes it possible for us to live comfortably with and depend on people we do not know concern for the welfare of strangers and how our welfare can be secure in a world where we do not care about others and they do not care about us
