Adapted from Cline's acclaimed book *Three Stones Make a Wall*, this lively little volume is brimming with insights and practical advice about how archaeology really works. Whether you are an armchair archaeologist or embarking on your first excavation, *Digging Deeper* is an essential primer on the art of the dig. **Three Stones Make a Wall** Eric H. Cline, 2018-11-06

From the bestselling author of *1177 B.C.*, a comprehensive history of archaeology from its amateur beginnings to the cutting-edge science it is today. In 1922, Howard Carter peered into Tutankhamun's tomb for the first time; the only light coming from the candle in his outstretched hand. Urged to tell what he was seeing through the small opening he had cut in the door to the tomb, the Egyptologist famously replied, "I see wonderful things." Carter's fabulous discovery is just one of the many spellbinding stories told in *Three Stones Make a Wall*. Written by Eric Cline, an archaeologist with more than thirty seasons of excavation experience, this book traces the history of archaeology from an amateur pursuit to the cutting-edge science it is today by taking the reader on a tour of major archaeological sites and discoveries. Along the way, it addresses the questions archaeologists are asked most often: How do you know where to dig? How are excavations
