Murdering the President Fred Rosen, 2016 Shortly after being elected president of the United States James Garfield was shot by Charles Guiteau But contrary to what is written in most history books Garfield didn t linger and die He survived Alexander Graham Bell raced against time to invent the world s first metal detector to locate the bullet in Garfield s body so

that doctors could safely operate Despite Bell s efforts to save Garfield however and as never before fully revealed the interventions of Garfield s friend and doctor Dr D W Bliss brought about the demise of the nation s twentieth president But why would a medical doctor engage in such monstrous behavior Did politics petty jealousy or failed aspirations spark the fire inside Bliss that led him down the path of homicide Rosen proves how depraved indifference to human life second degree murder rather than ineptitude led to Garfield s drawn out and painful death Now more than one hundred years later historian and homicide investigator Fred Rosen reveals through newly accessed documents and Bell s own correspondence the long list of Bliss s criminal acts and malevolent motives that led to his murder of the president *The Thirteen Colonies* Louis B. Wright,2014-10-01 If the origin of the colonial period was accidental the ending was not The representatives of the thirteen colonies who approved the Declaration of Independence in 1776 charted a collision course aware of the obstacles in their path and the risks they were taking The events that led to their decision took place over a period of nearly 300 years Looking back the wonder is that it culminated so quickly For a century after its discovery the New World was little more than a lode to be mined by adventurers seeking profits It wasn t until the end of the sixteenth century that serious efforts were made to establish permanent colonies Even then the perils of the journey and threats of starvation inhibited settlement But settlers gradually came spurred in part by the fear of religious persecution but above all drawn by the hope of owning land They were a mixed lot English Separatists from Leiden French Huguenots Dutch burghers Mennonite peasants from the Rhine Valley and a few gentleman Anglicans But they shared a quality of toughness Here is their story from award winning historian Louis B Wright **Crucial Maps in the Early Cartography and Place-Nomenclature of the Atlantic Coast of Canada**

William F. Ganong,1964-12-15 The Transactions of the Royal Society of Canada for the years from 1929 to 1937 included a series in nine parts of important papers on Crucial Maps which have been a frequent source of reference ever since for students of the history of discovery and of early cartography Their author William Francis Ganong had a life long interest in the natural and human history of his native province New Brunswick Although he was primarily a botanist with four full length books and an amazing number of articles to his credit it was through his series of monographs in the Transactions of the Royal Society of Canada that the breadth of his interests became known For over fifty years he contributed almost annually to the Transactions the results of his systematic investigations into New Brunswick s physiography aborigines early explorations wars and settlements Crucial Maps which concluded in 1937 was the last series of articles Ganong was the first investigator to employ a critical classification of maps based upon groupings by period and type although the cartography of Canada s east coast had earlier been introduced by Baron Alexander von Humboldt Ganong s contributions to cartography are enormous for example his reconstruction of Cabot s voyages while all may not agree with it is a masterpiece of inductive analysis which will remain a model in historical research his chapters on Gomez Verrazzano and Fagundes are still the chief secondary sources on these discoverers There have been notable additions to the bibliography of discovery and maps since

Ganong wrote recently published works as well as the complete file of Ganong's correspondence with his fellow cartographer G R F Prowse were consulted by Theodore E Layng Map Division Public Archives of Canada in preparing the commentaries which accompany this edition of Crucial Maps These commentaries with Mr Layng's introduction also provide an interesting sketch of Dr Ganong and his work Another important feature of this edition is the index prepared by William Morley of the John Carter Brown Library In much of his work Ganong was a pioneer and while subsequent studies have reached different conclusions on some points many of his results have seldom been challenged Students of the present and future will still use and quote from Crucial Maps Royal Society of Canada Special Publications No 7 **Life of Christopher Columbus** Sir Clements Robert Markham, 1892 **Biographia Britannica Or the Lives of the Most Eminent Persons** Kippis, 1784
