Lost Art Of Drawing The Line How Fairness Went Too Far:

The Lost Art of Drawing the Line Philip K. Howard, 2001-06-12 The Lost Art of Drawing the Line will appall and irritate and entertain readers every bit as much as Philip Howard's first book Why is it that no one can fix the schools Why do ordinary judgements fill doctors with fear Why are seesaws disappearing from playgrounds Why has a wave of selfish people overtaken America In our effort to protect the individual against unfair decisions we have created a society where no one is in charge of anything Silly lawsuits strike fear in our hearts because judges don't think they have the authority to dismiss them Inner city schools are filthy and mired in a cycle of incompetence because no one has the authority to decide who's doing the job and who's not When no one is in charge we all lose our link to the common good When principals lack authority over schools of what use are the parents' views When no one can judge right and wrong why not be as selfish as you can be Philip Howard traces our well meaning effort to protect individuals through the twentieth century with the unintended result that we have lost much of our individual freedom Buttressed with scores of stories that make you want to collar the next self centered jerk or hapless bureaucrat The Lost Art of Drawing the Line demonstrates once again that Philip Howard is trying to drive us all sane

Drawing the Line Carrol Clarkson, 2013-11-11 Drawing the Line examines the ways in which cultural political and legal lines are imagined drawn crossed erased and redrawn in post apartheid South Africa through literary texts artworks and other forms of cultural production Under the rubric of a philosophy of the limit and with reference to a range of signifying acts and events this book asks what it takes to recalibrate a sociopolitical scene shifting perceptions of what counts and what matters of what can be seen and heard of what can be valued or regarded as meaningful The book thus argues for an aesthetics of transitional justice and makes an appeal for a postapartheid aesthetic inquiry as opposed to simply a political or a legal one Each chapter brings a South African artwork text speech building or social encounter into conversation with debates in critical theory and continental philosophy asking What challenge do these South African acts of signification and resignification pose to current literary philosophical debates

Evolution Versus Revolution Melvyn L. Fein, 2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the

midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future *Beyond Rationality* Kenneth R. Hammond,2007-01-04 With *Beyond Rationality* Kenneth R Hammond one of the most respected and experienced experts in judgment and decision making sums up his life s work and persuasively argues that decisions should be based on balance and pragmatism rather than rigid ideologies Hammond has long focused on the dichotomy between theories of correspondence whereby arguments correspond with reality and coherence whereby arguments strive to be internally consistent He has persistently proposed a middle approach that draws from both of these modes of thought and so avoids the blunders of either extreme In this volume Hammond shows how particular ways of thinking that are common in the political process have led to the mistaken judgments that created our current political crisis He illustrates this argument by analyzing penetrating case studies emphasizing the political consequences that arise when decision makers consciously or unconsciously ignore their adversaries particular mode of thought These analyses range from why Kennedy and Khrushchev misunderstood each other to why Colin Powell erred in his judgments over the presence of weapons of mass destruction in Iraq For anyone concerned about the current state of politics in the U S and where it will lead us *Beyond Rationality* is required reading **Show Me the Money!** ,2002 **Publicize Your Book (Updated)** Jacqueline Deval,2008-07-01 For first time authors or the seasoned pro this is the absolutely essential how to for getting publicity totally updated and expanded This indispensable guide from a book publicity insider offers everything authors must know to assist their publishers in publicizing marketing and promoting their books including Effective networking Defining a target readership Creating pitches for talk shows Getting media coverage Utilizing the Internet and other outlets Preparing for interviews and tours Hiring an independent publicist With totally revised and updated information advice and resources the insiders all agree Read this book Ellen Levine editorial director Hearst Magazines *Law and Society* Steven Vago,2015-07-14 For one semester undergraduate courses in Law and Society Sociology of Law Introduction to Law and a variety of criminal justice courses offered in departments of Sociology Criminal Justice and Political Science Examines the interplay between law and society *Law and Society* 10e provides an informative balanced and comprehensive analysis of the interplay between law and society This text presents an overview of the most advanced interdisciplinary and international research theoretical advances ongoing debates and controversies It raises new levels of awareness on the structure and functions of law and legal systems and the principal players in the legal arena and their impact on our lives In addition it looks at the legal system in the context of race class and gender and considers multicultural and cross cultural issues in a contemporary and interdisciplinary context **The Sociology of Community Connections** John G. Bruhn,2011-07-18 Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western

world particularly in the United States Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century Nonetheless people exist in groups and connections are vital to their existence and in the daily performance of activities The second edition of the Sociology of Community Connections will identify and help students understand community connectedness in the present and future

Trust and the Health of Organizations John G. Bruhn, 2012-12-06 Leaders are usually held responsible for the trust health and success of an organization but it is the culture of organizations that provides the true foundation for these important factors The leader's personality and skills influence how a trustful environment and working relationship is created but the organization has a culture tradition and experience of its own which influences the leader's success The level of trust in an organization's culture will ultimately determine whether or not it is trustful healthy and successful Based on the interview of current and former chief executive officers from profit and non profit organizations to record their experiences in creating trust in their environment and their perceptions of the health of their organizations The collected data reveals The qualities of a trusted leader How they created trust or How trust was destroyed in organizations How leaders worked in distrustful environments How to create a more healthy organization This timely work will be of interest to organizations and occupational sociologists human resource workers social psychologists and students of management courses

Ethics, Law, and Aging Review, Volume 11 Marshall B. Kapp, 2005-09-01 We are now engaged in a movement that de-emphasizes the reliance on institutional forms of long term care for disabled persons needing ongoing daily living assistance and converges on the use of non institutional service providers and residential settings In this latest edition of Ethics Law and Aging Review Kapp and ten expert contributors help us examine the forces and potential for changing the long term care industry both positively and negatively and address this paradigm shift from the impersonal public psychiatric institutions of the 1960s and 1970s to the present day assisted living environments that have been fueled by economic social political and legal forces Most important ly this volume identifies obstacles to change and enlighten service providers advocates and key policy makers to the pitfalls that can largely interfere with positive outcomes as a result of long term care deinstitutionalization Topics explored include Community based alternatives for older adults with serious mental illness Failing consumer directed alternatives to nursing homes Ethics of Medicare privatization
