Historic Cities Dennis Rodwell, 2008-04-15 Conservation and Sustainability in Historic Cities examines how the two key issues of urban conservation and sustainability relate to each other in the context of historic cities and how they can be brought together in a common philosophy and practice that is mutually supportive It sets out the theoretical and practical background to architectural conservation and how its perceived relevance and level of attainment can be extended when harnessed to wider agendas of sustainability and cultural identity It tests the achievement of urban conservation through examples from across Europe and further afield and relates them to the sustainability agenda The British Aristocracy and

the Modern World Professor Miles Taylor, Christopher Ridgway, 2025-07-02 In the thirty five years since the publication of David Cannadine's *Decline and Fall of the British Aristocracy* 1990 the power of Britain's landed elite declined but they remain far from extinct One third of Britain's land still belongs to the aristocracy Moreover partly inspired by Cannadine's book we now know much more about the ways in which the aristocracy established their hold on modernity and how they have lasted so long Many key questions remain How much was this a distinctively British story to what extent were things different in Scotland Wales and Ireland Does decline and fall accurately describe what happened to landed elites in other countries particularly in western Europe or amongst assimilated elites such as Jews Was the soft power of the aristocracy their role in the arts philanthropy and higher education as significant as their political and economic sway How dependent on the colonies and also the USA were the British aristocracy for their wealth in the first place and how did their role overseas change their profile at home This volume brings together a wide ranging group of scholars to explore *The Decline and Fall* developing its themes in new ways and investigating other aspects for the first time The Lost Houses of Wales Thomas

About Britain Tim Cole, 2021-06-10 A captivating glimpse of Britain then and now seen from behind the steering wheel In 1951 the Festival of Britain commissioned a series of short guides they dubbed handbooks for the explorer Their aim was to encourage readers to venture out beyond the capital and on to the roads and the by roads to see Britain as a living country

Yet these thirteen guides did more than celebrate the rural splendour of this island nation they also made much of Britain's industrial power and mid century ambition her thirst for new technologies pride in manufacturing and passion for exciting new ways to travel by road air and sea Armed with these About Britain guides historian Tim Cole takes to the roads to find out what has changed and what has remained the same over the 70 years since they were first published From Oban to Torquay Caernarvon to Cambridge he explores the visible changes to our landscape and the more subtle social and cultural shifts that lie beneath In a starkly different era where travel has been transformed by the pandemic and many are journeying closer to home About Britain is a warm and timely meditation on our changing relationship with the landscape industry and transport As he looks out on vineyards and apple orchards power stations and slate mines vast greenhouses and fulfilment centres for online goods Cole provides an enchanting look at twentieth and early twenty first century Britain *The Country House Revealed* Dan Cruickshank, 2012-07-31 Spanning the architectural history of the country house from the disarming Elizabethan charm of South Wraxall the classical rigour of Kinross in Scotland the majesty and ingenuity of Hawksmoor's Easton Neston the Palladian sweep of Wentworth Woodhouse with over 300 rooms and frontage of 600 feet the imperial exuberance of Clarendon through to the ebullient vitality of Luttrell's Marshcourt the stories of these houses tell the story of our nation All are the buildings of the greatest architectural interest each with a fascinating human story to tell and all remain private homes that are closed to the public But their owners have opened their doors and allowed Dan Cruickshank to roam the corridors and rummage in the cellars as he teases out the story of each house who built them the generations who lived in them and the families who lost them Along the way he has uncovered tales of excess and profligacy tragedy comedy power and ambition And as these intriguing narratives take shape Dan shows how the story of each house is inseparable from the social and economic history of Britain Each one is built as a wave of economic development crests or crumbles Each one's architecture and design is thus expressive of the aims strengths and frailties of those who built them Together they plot the psychological economic and social route map of our country's ruling class in a rich new telling of our island story

Private Life in Britain's Stately Homes Michael Paterson, 2012-09-06 The Victorian and Edwardian eras in the run up to 1914 marked the golden age of the English country house when opulence and formality attained a level that would never be matched again The ease of these perfect settings for flirtation and relaxation was maintained by a large and well trained staff of servants Although those in service worked very long hours and had little personal freedom many were proud of their positions and grateful for the relative security these gave Indeed the strictly hierarchical world below stairs could be more snobbish than that of a house s owners Michael Paterson skilfully and entertainingly explores the myths and realities of this vanished world both upstairs and down

Sir John Soane? Influence on Architecture from 1791 Oliver

Bradbury, 2017-07-05 Sir John Soane s Influence on Architecture from 1791 A Continuing Legacy is the first in depth study of this eighteenth century British architect s impact on the work of others extending globally and still indeed the case over 200 years later Author Oliver Bradbury presents a compelling argument that the influence of Soane 1753 1837 has persevered through the centuries rather than waning around the time of his death Through examinations of internationally renowned architects from Benjamin Henry Latrobe to Philip Johnson as well as a number of not so well known Soanean disciples Bradbury posits that Soane is perhaps second only to Palladio in terms of the longevity of his influence on architecture through the course of more than two centuries from the early 1790s to today concluding with the recent return to pure revivalism Previous investigations have been limited to focusing on Soane s late Georgian and then post modern influence this is the first in depth study of his impact over the course of two centuries Through this survey Bradbury demonstrates that Soane s influence has been truly international in the pre modern era reaching throughout the British Isles and beyond to North America and even colonial Australia Through his inclusion of select detailed case studies Bradbury contends that Soane s is a continuing not negated legacy in architecture

A Passion for Castles Janet Brennan-Inglis, 2022-10-06 In the 1880s two Edinburgh architects began to survey measure and sketch the castles of Scotland travelling the length and breadth of the country on trains bicycles and on foot Together they produced the five magnificent volumes of The Castellated

and Domestic Architecture of Scotland an unrivalled work of research that surveys more than 700 of Scotland's castellated buildings ranging from great medieval fortresses to small lairds houses with pepper pot turrets and is illustrated with thousands of sketches and plans The first part of A Passion for Castles tells the life stories of David MacGibbon and Thomas Ross and their work as Edinburgh architects before they embarked on their magisterial survey revealing interesting and previously unknown details about the two men The second part of the book sets their enormously ambitious castles project in its historical context and describes how MacGibbon and Ross managed to achieve their pioneering systematic and comprehensive survey The final part of the book provides a regional overview of the current status of all the castles surveyed by MacGibbon and Ross followed by a thematic exploration of those that have been lost those that have been transformed and those at risk of collapse before posing questions about what the future holds for the castles of Scotland

Britain's Flirtation with the Socialist Imaginary Chris Wilkes, 2024-05-09 In 1945 Winston Churchill fresh from winning World War Two for Britain called an election Within days he was thrown out and a completely new form of government took hold What followed was a revolutionary period in British history in which centuries of tradition were questioned Socialism appeared to be waiting in the wings This book traces the origins of this transformation in the long history of British democracy It examines the ideas and actions which began in the 1930s that enabled this revolution and the new society that emerged beyond its origins and into the 21st Century The problems that this revolution sought to solve remain to this day as the British government in 2024 wrestles with strikes social disorder and massive economic headwinds Understanding the history of the present dilemmas is essential if we are to grapple successfully with the enduring problems Britain still faces to this day
