The Royal Highland Fusiliers Trevor Royle, 2011-07-15 The Royal Highland Fusiliers came into being in 1959 as a result of the amalgamation of two regiments both of which had strong connections with Glasgow and the west of Scotland The Royal Scots Fusiliers founded in 1678 by Charles Erskine fifth Earl of Mar and The Highland Light Infantry or HLI created in 1881 as a result of the amalgamation of the 71st Highlanders and the 74th Highlanders Two distinctive infantry traditions can be found in the names of these regiments which have helped to form the line infantry regiments of the British Army Fusiliers were armed with the flintlock fusil instead of the more common matchlock musket and light infantry came into being during the Napoleonic Wars to provide the army with a corps of skirmishing sharpshooters similar to Austrian and German Jäger troops Amongst those who have served as fusiliers or light infantrymen are Hugh Trenchard who became Air Chief Marshal of the Royal Air Force Winston Churchill and David Niven who joined the HLI from Sandhurst in the inter war years All these traditions and personalities went into the making of a regiment whose name lives on in the 2nd battalion of The Royal Regiment of Scotland which was formed in 2006 as a result of the restructuring of the infantry regiments of the

British Army *Veteran MPs and Conservative Politics in the Aftermath of the Great War* Richard Carr, 2016-03-03 Between 1918 and 1939 448 men who performed uniformed service in the First World War became Conservative MPs This relatively high profile cohort have been under explored as a distinct body yet a study of their experiences of the war and the ways in which they and the Conservative Party represented those experiences to the voting public reveals much about the political culture of Interwar Britain and the use of the Great War as political capital Radicalised ex servicemen have thus far been considered a rather continental phenomenon historiographically And whilst attitudes to Hitler and Mussolini form part of this analysis the study also explores why there were fewer such types in Britain The Conservative Party it will be shown played a crucial part in such a process with British politics serving as a contested space for survivors interpretations of what the war should mean Wales since 1939 Martin Johnes, 2013-01-18 The period since 1939 saw more rapid and significant change than any other time in Welsh history Wales developed a more assertive identity of its own and some of the apparatus of a nation state Yet its economy floundered between boom and bust its traditional communities were transformed and the Welsh language and other aspects of its distinctiveness were undermined by a globalizing world Wales was also deeply divided by class language ethnicity gender religion and region Its people grew wealthier healthier and more educated but they were not always happier This ground breaking book examines the story of Wales since 1939 giving voice to ordinary people and the variety of experiences within the nation This is a history of not just a nation but of its residents hopes and fears their struggles and pleasures and their views of where they lived and the wider world **The Argyll and Sutherland**

Highlanders Trevor Royle, 2011-07-15 The Argyll and Sutherland Highlanders is one of the best known regiments in the British Army In a previous incarnation as the 93rd Highlanders its soldiers were famed for being the thin red line that repulsed the Russian heavy cavalry at the Battle of Balaklava during the Crimean War When the regiment was ordered to disband in 1968 as part of wide ranging defence cuts a popular Save the Argylls campaign was successful in keeping the regiment in being In 2006 it became the 5th battalion of the new Royal Regiment of Scotland Formed by two earlier regiments The Argylls have a stirring history of service to the British Crown They served all over the empire taking part in the Indian Mutiny and the Boer War and fought in both World Wars In the post war period the Argylls captured the public imagination in 1967 when they reoccupied the Crater district of Aden following a period of riots Recruiting mainly from the west of Scotland the regiment has a unique character and throughout its history has retained a fierce regimental pride which is summed up by its motto *sans peur* meaning without fear The Argyll and Sutherland Highlanders puts its story into the context of British military history and makes use of personal testimony to reveal the life of the regiment *The World Reshaped* Richard Cobbold, 2016-07-27 Half a century ago much of Asia lay in ruins shattered by the long years of total war Fifty years later much of the region has been transformed Asia today is an economic powerhouse generating wealth and prosperity on an enormous scale An increasing number of Asian countries have embraced a market economy and adapted

their political structures to accommodate the resulting economic and social changes The so called Asian Dragons are roaring ahead Japan then Singapore Hong Kong Taiwan and South Korea led the way followed more recently by countries such as Malaysia Indonesia and Thailand and now Vietnam and the Philippines are set to join the dragon family Economic revolution in China combined with the steady liberalization of the Indian economy will spur future economic growth not just in Asia but in the world This volume investigates the economic military and political aspects of the remarkable developments in this part of the world over the past fifty years It also looks tentatively into the future to hazard a guess at what the next fifty years may hold

Class, Politics, and the Decline of Deference in England, 1968-2000 Florence Sutcliffe-Braithwaite, 2018-03-01 In late twentieth century England inequality was rocketing yet some have suggested that the politics of class was declining in significance while others argue that class identities lost little power Neither interpretation is satisfactory class remained important to ordinary people's narratives about social change and their own identities throughout the period 1968-2000 but in changing ways Using self narratives drawn from a wide range of sources the raw materials of sociological studies transcripts from oral history projects Mass Observation and autobiography the book examines class identities and narratives of social change between 1968 and 2000 showing that by the end of the period class was often seen as an historical identity related to background and heritage and that many felt strict class boundaries had blurred quite profoundly since 1945 Class snobberies went underground as many people from all backgrounds began to assert that what was important was authenticity individuality and ordinariness In fact Sutcliffe Braithwaite argues that it is more useful to understand the cultural changes of these years through the lens of the decline of deference which transformed

people's attitudes towards class and towards politics The study also examines the claim that Thatcher and New Labour wrote class out of politics arguing that this simple and highly political narrative misses important points Thatcher was driven by political ideology and necessity to try to dismiss the importance of class while the New Labour project was good at listening to voters particularly swing voters in marginal seats and echoing back what they were increasingly saying about the blurring of class lines and the importance of ordinariness But this did not add up to an abandonment of a majoritarian project as New Labour reoriented their political project to emphasize using the state to empower the individual

Monetary Policy and Financial Repression in Britain, 1951 - 59 W. Allen, 2014-08-03 British monetary policy was reactivated in 1951 when short term interest rates were increased for the first time in two decades The book explores the politics of formulating monetary policy in the 1950s and the techniques of implementing it and discusses the parallels between the present monetary situation and that of 1951

The Tragedy of Great Power Politics John J. Mearsheimer, 2001 A decade after the cold war ended policy makers and academics foresaw a new era of peace and prosperity an era in which democracy and open trade would herald the end of history

A Necessary Fantasy? Dudley Jones, Tony Watkins, 2021-10-28 This book addresses a variety of issues through the examination of heroic figures in children's popular literature comics film and television

Scott Lithgow Lewis Johnman, Hugh Murphy, 2017-10-18 This work studies the history of two major Scottish shipbuilding firms based on the River Clyde Scotts Shipbuilding and Engineering Company and Lithgows Limited It traces each firm's origin success decline and collapse and places the events into the historical context of maritime Britain The aim is to enhance the academic understanding of the cause and effect of the decline of the British shipbuilding industry delving beyond the factors of poor industrial relations international market conditions and entrepreneurial failure in search of further answers As a private company Lithgows Limited provides useful insights into company management outside of state control The authors base their analysis on the catalogued volumes of Scotts and Lithgows records though due to the large number of gaps in the data they also conducted interviews with major players in each company from the post war period Public business and banking records also provide supplementary material The book is separated into eight chapters plus a concluding ninth an appendix listing ships built by Scott Lithgow Limited between 1970 1987 and a select bibliography
