Making Of The Modern Self Identity And Culture In Eighteenth Century:

The Making of the Modern Self Dror Wahrman, 2004-01-01 Both the Bible and the Constitution have the status of Great Code but each of these important texts is controversial as well as enigmatic They are asked to speak to situations that their authors could not have anticipated on their own In this book one of our greatest religious historians brings his vast knowledge of the history of biblical interpretation to bear on the question of constitutional interpretation Jaroslav Pelikan compares the methods by which the official interpreters of the Bible and the Constitution the Christian Church and the Supreme Court respectively have approached the necessity of interpreting and reinterpreting their important texts In spite of obvious differences both texts require close word by word exegesis an awareness of opinions that have gone before and a willingness to ask new questions of old codes Pelikan observes He probes for answers to the question of what makes something authentically constitutional or biblical and he demonstrates how an understanding of either biblical interpretation or constitutional interpretation can illuminate the other in important ways

The Power of Objects in Eighteenth-Century British America Jennifer Van Horn, 2017-02-23 Over the course of the eighteenth century Anglo Americans purchased an unprecedented number and array of goods The Power of Objects in Eighteenth Century British America investigates these diverse artifacts from portraits and city views to gravestones dressing furniture and prosthetic devices to explore how elite American consumers assembled objects to form a new civil society on the margins of the British Empire In this interdisciplinary transatlantic study artifacts emerge as key players in the formation of Anglo American communities and eventually of American citizenship Deftly interweaving analysis of images with furniture architecture clothing and literary works Van Horn reconstructs the networks of goods that bound together consumers in Boston New York Philadelphia and Charleston Moving beyond emulation and the desire for social status as the primary motivators for consumption Van Horn shows that Anglo Americans material choices were intimately bound up with their efforts to distance themselves from Native Americans and African Americans She also traces women's contested place in forging provincial culture As encountered through a woman's application of makeup at her dressing table or an amputee's donning of a wooden leg after the Revolutionary War material artifacts were far from passive markers of rank or political identification They made Anglo American society

In the Looking Glass Rebecca K. Shrum, 2017-08-30 An utterly fascinating reading of the multiple uses and meanings of mirrors among European Americans African Americans and Native Americans Journal of Social History What did it mean Rebecca K Shrum asks for people long accustomed to associating reflective surfaces with ritual and magic to become

as familiar with how they looked as they were with the appearance of other people Fragmentary histories tantalize us with how early Americans people of Native European and African descent interacted with mirrors Shrum argues that mirrors became objects through which white men asserted their claims to modernity emphasizing mirrors as fulcrums of truth that enabled them to know and master themselves and their world In claiming that mirrors revealed and substantiated their own enlightenment and rationality white men sought to differentiate how they used mirrors from not only white women but also from Native Americans and African Americans who had long claimed ownership of and the right to determine the meaning of mirrors for themselves Mirrors thus played an important role in the construction of early American racial and gender hierarchies Drawing from archival research as well as archaeological studies probate inventories trade records and visual sources Shrum also assesses extant mirrors in museum collections through a material culture lens Focusing on how mirrors were acquired in America and by whom as well as the profound influence mirrors had both individually and collectively on the groups that embraced them In the Looking Glass is a piece of innovative textual and visual scholarship A superb reflection of the many meanings held by an object usually taken for granted Highly recommended Choice [The Early Modern Subject](#) Udo Thiel,2011-09-29 Udo Thiel presents a critical evaluation of the understanding of self consciousness and personal identity in early modern philosophy He explores over a century of European philosophical debate from Descartes to Hume and argues that our interest in human subjectivity remains strongly influenced by the conceptual framework of early modern thought *Shakespeare and the Eighteenth-Century Novel* Kate Rumbold,2016-03-08 Explores the significant presence of Shakespeare in major novels of the eighteenth and early nineteenth centuries **Writing through Boyhood in the Long Eighteenth Century** Chantel Lavoie,2023-11-10 Writing through Boyhood in the Long Eighteenth Century explores how boyhood was constructed in different creative spaces that reflected the lived experience of young boys through the long eighteenth century not simply in children s literature but in novels poetry medical advice criminal broadsides and automaton exhibitions The chapters encompass such rituals as breeching learning to read and write and going to school They also consider the lives of boys such as chimney sweeps and convicted criminals whose bodily labor was considered their only value and who often did not live beyond boyhood Defined by a variety of tasks expectations and objectifications boys real imagined and sometimes both were subject to the control of their elders and were used as tools in the cause of civil society commerce and empire This book argues that boys in the long eighteenth century constituted a particular kind of currency both valuable and expendable valuable because of gender expendable because of youth **Letters and the Body, 1700-1830** Sarah Goldsmith,Sheryllynne Haggerty,Karen Harvey,2023-07-04 This collection explores the multifaceted relationship between letters and bodies in the long eighteenth century featuring a broad selection of women s and men s letters written from and to Britain North America Europe India and the Caribbean from the labouring poor to the landed elite In eleven chapters scholars from various disciplines draw on different methodological approaches that include close readings

of single letters social historical analyses of large corpora and a material culture approach to the object of the letter This research includes personal letters exchanged among family and friends formal correspondence and letters that were incorporated into published forewords and appendices journals and memoirs Part I explores the letter as a substitute for the absent body the imagined physical encounters and performances envisaged by letter writers and the means through which these imagined sensations were conveyed Part II examines the letter as a material object that served as a conduit for descriptions of the material body and as an instrument for embodied encounters Part III focuses on how correspondents purposefully used their bodies in letters as a means to create intimacy to generate social networks and build a body politic This interdisciplinary volume centred around letters will be of interest to scholars and students in a variety of fields including eighteenth century studies cultural history and literature

The Papist Represented Jeremy Carnes,2017-08-14 Most eighteenth century literary scholarship implicitly or explicitly associates the major developments in English literature and culture during the rise of modernity with a triumphant and increasingly tolerant Protestantism while assuming that the English Catholic community was culturally moribund and disengaged from Protestant society and culture However recent work by historians has shown that the English Catholic community was a dynamic and adaptive religious minority its leaders among the aristocracy cosmopolitan its intellectuals increasingly attracted to Enlightenment ideals of liberty and skepticism and its membership growing among the middle and working classes This community had an impact on the history of the English nation out of all proportion with its size and yet its own history is glimpsed only dimly if at all in most modern accounts of the period The Papist Represented reincorporates the history of the English Catholic community into the field of eighteenth century literary studies It examines the intersections of literary religious and cultural history as they pertain to the slow acceptance by both

Protestants and Catholics of the latter group's permanent minority status. By focusing on the Catholic community's perspectives and activities it deepens and complicates our understanding of the cultural processes that contributed to the significant progress of the Catholic emancipation movement over the course of the century. At the same time it reveals that this community's anxieties and desires and the anxieties and desires it provoked in Protestants fuel some of the most popular and experimental literary works of the century in forms and modes including closet drama, elegy, the novel and the Gothic. By returning the Catholic community to eighteenth century literary history *The Papist Represented* challenges the assumption that eighteenth century literature was a fundamentally Protestant enterprise. Published by University of Delaware Press. Distributed worldwide by Rutgers University Press.

A Cultural History of Hair in the Age of Enlightenment Margaret K. Powell, Joseph Roach, 2020-12-10. Hair or lack of it is one of the most significant identifiers of individuals in any society. In Antiquity the power of hair to send a series of social messages was no different. This volume covers nearly a thousand years of history from Archaic Greece to the end of the Roman Empire, concentrating on what is now Europe, North Africa and the Near East. Among the key issues identified by its authors is the recognition that in any given society male and female hair tend to be opposites: when male hair is generally short, women's is long; that hair is a marker of age and stage of life; children and young people have longer, less confined hairstyles; adult hair is far more controlled; hair can be used to identify the other in terms of race and ethnicity but also those who stand outside social norms such as witches and mad women. The chapters in *A Cultural History of Hair in Antiquity* cover the following topics: religion and ritualized belief; self and society; fashion and adornment; production and practice; health and hygiene; gender and sexuality; race and ethnicity; class and social status; and cultural representations.

Henry Redhead Yorke, Colonial Radical Amanda Goodrich, 2019-02-07. This is a political, cultural and intellectual biography of the neglected but important figure Henry Redhead Yorke. A West Indian of African-British descent, born into a slave society but educated in Georgian England, he developed a complex identity to which politics was key. The most revolutionary radical in Britain between 1793-5, Yorke then recanted his radicalism and died a loyalist gentleman. This book raises important issues about the impact of outsider politics in England and the complexities of politicization and identity construction in the Atlantic World. It restores a forgotten black writer to his due place in history.

Necessary Luxuries Matt Erlin, 2014-06-12. The consumer revolution of the eighteenth century brought new and exotic commodities to Europe from abroad: coffee, tea, spices and new textiles to name a few. Yet one of the most widely distributed luxury commodities in the period was not new at all and was produced locally: the book. In *Necessary Luxuries* Matt Erlin considers books and the culture around books during this period, focusing specifically on Germany where literature and the fine arts in general were the subject of soul-searching debates over the legitimacy of luxury in the modern world. Building on recent work done in the fields of consumption studies as well as the New Economic Criticism, Erlin combines intellectual historical chapters on luxury as a concept, luxury editions and concerns about addictive reading with contextualized close readings of

novels by Campe Wieland Moritz Novalis and Goethe As he demonstrates artists in this period were deeply concerned with their status as luxury producers The rhetorical strategies they developed to justify their activities evolved in dialogue with more general discussions regarding new forms of discretionary consumption By emphasizing the fragile legitimacy of the fine arts in the period Necessary Luxuries offers a fresh perspective on the broader trajectory of German literature in the late eighteenth and early nineteenth century recasting the entire period in terms of a dynamic unity rather than simply as a series of literary trends and countertrends

Britain and its internal others, 1750-1800 Dana Y. Rabin, 2017-10-01 The rule of law an ideology of equality and universality that justified Britain s eighteenth century imperial claims was the product not of abstract principles but imperial contact As the Empire expanded encompassing greater religious ethnic and racial diversity the law paradoxically contained and maintained these very differences This book revisits six notorious incidents that occasioned vigorous debate in London s courtrooms streets and presses the Jewish Naturalization Act and the Elizabeth Canning case 1753 54 the Somerset Case 1771 72 the Gordon Riots 1780 the mutinies of 1797 and Union with Ireland 1800 Each of these cases adjudicated the presence of outsiders in London from Jews and Gypsies to Africans and Catholics The demands of these internal others to equality before the law drew them into the legal system challenging longstanding notions of English identity and exposing contradictions in the rule of law
