A. Halikowski Smith, 2011-05-25 The Indian Ocean World was an idea borne out by researchers in economic history and trade in the 1980s in response to the compartmentalization of specific area studies within the wider rubric of Asian civilisations and culture Professor Kirti N Chaudhuri s books *Trading World of Asia and the English East India Company* 1978 and then *Trade and Civilization in the Indian Ocean* 1985 figured amongst the forefront of this new movement in historical thinking undertaking detailed historical analysis first of the English East India Company and then a comparative cultural history of Asian material life and civilisation Today historians continue to hold on to the idea of an Indian Ocean world although studies now follow a number of different threads from themes like linguistics and creolization to the seeds of national consciousness By presenting a number of studies here gathered into the themes of Intermixing The World of Trade and Colonial Paths it is hoped we can render tribute to one of the outstanding historians in this field and reflect the plenitude of current research in this subject area
