Native Liberty, Crown Sovereignty Bruce A. Clark, 1990 Thirteen essays explore some 500 years of literacy campaigns in vastly different societies Reformation Germany early modern Sweden and Scotland 19th century US 19th 20th century Russia and the Soviet Union pre revolutionary and revolutionary China and a variety of Third World countries The 1763 Royal Proclamation forbade non natives under British authority to molest or disturb any tribe or tribal territory in British North America Clark a lawyer specializing in aboriginal rights contends that this Proclamation had legislative force and that since imperial law on this matter has never been repealed the right to self government continues to exist for Canadian natives He also explores the difficulties of aboriginal self government in the constitution and offers some advice to government and aboriginal negotiators Annotation copyrighted by Book News Inc Portland OR Native Liberty, Crown Sovereignty Bruce Clark, 1990-10-01 The cornerstone of Clark s argument is the 1763 Royal Proclamation which forbade non natives under British authority to molest or disturb any tribe or tribal territory in British North America Clark contends that this proclamation had legislative force and that since imperial law on this matter has never been repealed the right to self government continues to exist for Canadian natives **Indigenous Rights** Anthony J. Connolly, 2017-05-15 Throughout the world indigenous rights have become increasingly prominent and controversial The recent adoption by the United Nations General Assembly of the Declaration on the Rights of Indigenous Peoples is the latest in a series of significant developments in the recognition of such rights across a range of jurisdictions The papers in this collection address the most important philosophical and practical issues informing the discussion of indigenous rights over the past decade or so at both the international and national levels Its contributing authors comprise some of the most interesting and influential indigenous and non indigenous thinkers presently writing on the topic **A Social Geography of Canada** Guy M. Robinson, 2013-12-30 This collection of essays focus on subjects which formed the basis of his life s work the changing character of Canadian landscape and society and the urbanization of that society including aspects of its historical evolution its present spacial forms and current social issues **Let Right Be Done** Hamar Foster, Heather Raven, Jeremy Webber, 2011-11-01 In the early 1970s many questioned whether Aboriginal title existed in Canada and rejected the notion that Aboriginal peoples should have rights different from those of other citizens But in 1973 the Supreme Court of Canada issued a landmark decision in the Calder case confirming that Aboriginal title constituted a right within Canadian law Let Right Be Done examines the doctrine of Aboriginal title thirty years later and puts the Calder case in its legal historical and political context both nationally and internationally With its innovative blend of scholarly analysis and input from many of those intimately involved in the case this book should be essential reading for anyone interested in Aboriginal law treaty negotiations and the history of the BC Indian land question *Popular Justice and Community Regeneration* Kayleen M. Hazlehurst, 1995-06-13 Formal justice systems have not served the human rights of native and aboriginal groups well and

have led to growing natural and international pressure for equal treatment and increased political and legal autonomy Indigenous activities in areas of community healing have created a fervor of interest as native peoples have shared experiences with programs that reduce addiction family violence child abuse and sociocultural disintegration of traditional communities Through ethnographic and indigenous contributions this volume penetrates the psychosocial aspects of the indigenous movement in the United States Canada Australia and New Zealand It analyzes community based reforms and shows how years of experience in adversity peacemaking and community preservation have equipped native peoples with skills they now wish to share for spiritual world healing

No Place for Fairness David T. McNab, 2009-10-01 Aboriginal policy and claims

negotiation in Canada is seen to be a murky and perplexing world that has become an important public issue and has significant policy implications for government spending Aboriginal land policy in Canada began as an Aboriginal initiative In No Place for Fairness David McNab a long time advisor on land and treaty rights for both government and First Nations groups looks at the Bear Island Indigenous rights case initiated by the Teme Augama Anishinabe to explore why governments fail to deal effectively with Aboriginal land claims The book divided into two sections includes a survey of the historical background of the Bear Island claim followed by a more personal series of reflections about what happened as the claim encountered decades of policy hurdles court cases public protests and above all resistance by the Temagami First Nation McNab provides details of how ministers and their senior officials resisted real efforts to resolve problems as well as examples of field staff resisting government attempts at resolution He also shows that government entities such as the Indian Commission of Ontario and the Native Affairs Directorate were largely used as mailboxes where successive federal and provincial governments sent things they wanted to bury No Place for Fairness is the story of what happens when Aboriginal peoples political rights are crammed into the Euro Canadian legal system McNab makes a clear case that a legalistic approach to these problems is wholly inadequate and that more important things like fairness must be recognized as paramount if a just and lasting Aboriginal land policy is to be created

The perception of Europeans of the world and of the peoples beyond Europe has become in recent years the subject of intense scholarly interest and heated debate both in and outside the academy So too has the concern with how it was that those peoples who were variously discovered and then as often as not colonised understood the strangers in their midst This volume attempts to cover both these topics as well as to provide a number of crucial articles on the difficulties faced by modern historians in understanding the complex relationship between them and us Inevitably such relationships not only changed over time they also varied greatly from culture to culture The articles therefore cover most of the areas with which the European world came into contact from the earliest Portuguese incursions into Africa in the mid fifteenth century until the explorations of Cook and Bougainville in the Pacific in the late eighteenth It ranges too from Brazil to Russia from Tahiti to China
