Nature's Return Mark Kinzer, 2017-06-15 From exploitation to preservation the complex history of one of the Southeast's most important natural areas and South Carolina's only national park Located at the confluence of the Congaree and Wateree Rivers in central South Carolina Congaree National Park protects the nation's largest intact expanse of old growth bottomland hardwood forest Modern visitors to the park enjoy a pristine landscape that seems ancient and untouched by human hands but in truth its history is far different In *Nature's Return* Mark Kinzer examines the successive waves of inhabitants visitors and landowners of this region by synthesizing information from property and census records studies of forest succession tree ring analyses slave narratives and historical news accounts Established in 1976 Congaree National Park contains within its boundaries nearly twenty seven thousand acres of protected uplands floodplains and swamps Once exploited by humans for farming cattle grazing plantation agriculture and logging the park area is now used gently for recreation and conservation Although the impact of farming grazing and logging in the park was far less extensive than in other river swamps across the Southeast it is still evident to

those who know where to look Cultivated in corn and cotton during the nineteenth century the land became the site of extensive logging operations soon after the Civil War a practice that continued intermittently into the late twentieth century From burning canebrakes to clearing fields and logging trees inhabitants of the lower Congaree valley have modified the floodplain environment both to ensure their survival and over time to generate wealth In this they behaved no differently than people living along other major rivers in the South Atlantic Coastal Plain Today Congaree National Park is a forest of vast flats and winding sloughs where champion trees dot the landscape Indeed its history of human use and conservation make it a valuable laboratory for the study not only of flora and fauna but also of anthropology and modern history As the impact of human disturbance fades the Congaree's stature as one of the most important natural areas in the eastern United States only continues to grow

Rice to Ruin Roy Williams III, Alexander Lucas Lofton, 2018-03-26 The saga of the precipitous rise and ultimate fall of the Jonathan Lucas family's rice mill dynasty In the 1780s Jonathan Lucas on a journey from his native England shipwrecked near the Santee Delta of South Carolina about forty miles north of Charleston Lucas the son of English mill owners and builders found himself fortuitously near vast acres of swamp and marshland devoted to rice cultivation When the labor intensive milling process could not keep pace with high crop yields Lucas was asked by planters to build a machine to speed the process In 1787 he introduced the first highly

successful water pounding rice mill creating the foundation of an international rice mill dynasty In *Rice to Ruin* Roy Williams III and Alexander Lucas Lofton recount the saga of the precipitous rise and ultimate fall of that empire Lucas s invention did for rice South Carolina s first great agricultural staple what Eli Whitney did for cotton with his cotton gin With his sons Jonathan Lucas II and William Lucas Lucas built rice mills throughout the lowcountry Eventually the rice kingdom extended to India Egypt and Europe after the younger Jonathan Lucas moved to London to be at the center of the international rice trade Their lives were grand until the American Civil War and its aftermath The end of slave labor changed the family s fortunes The capital tied up in slaves evaporated the plantations and town houses had to be sold off one by one and the rice fields once described as the gold mines of South Carolina often failed or were no longer planted Disease and debt took its toll on the Lucas clan and in the decades that followed efforts to regain the lost fortune proved futile In the end the once glorious Carolina gold rice fields that had brought riches left the family in ruin *National Genealogical Society Quarterly* National Genealogical Society,1996 **Midwest Historical and Genealogical Register** ,1993 *South Carolina* Walter B. Edgar,1998 This is a chronicle of South Carolina describing in human terms 475 years of recorded history in the Palmetto State Recounting the period from the first Spanish exploration to the end of the Civil War the author charts South Carolina s rising national and international importance Genealogical & Local History Books in Print ,1997 **New Arrivals in American Local History and Genealogy, Quarterly List** Sutro Library,1995 **Stalkin' Kin in Old West Texas** ,1995 **America, History and Life** ,1997 Article abstracts and citations of reviews and dissertations covering the United States and Canada **GNR** ,2006 Everton's Genealogical Helper ,1996
