Congress of Soviet Writers in 1934 folklore like literature became an instrument of the political propagandist Folklorists began to produce works of pseudofolklore that often featured Joseph Stalin in the hero's role This study includes synopses of some of these works

*Folk Heroes and Heroines around the World* Graham Seal, Kim Kennedy White, 2016-03-14 This comprehensive collection of folk hero tales builds on the success of the first edition by providing readers with expanded contextual information on story characters from the Americas to Zanzibar Despite the tremendous differences between cultures and ethnicities across the world all of them have folk heroes and heroines real and imagined that have been represented in tales legends songs and verse These stories persist through time and space over generations even through migrations to new countries and languages This encyclopedia is a one stop source for broad coverage of the world's folk hero tales Geared toward high school and early college readers the book opens with an overview of folk heroes and heroines that provides invaluable context and then presents a chronology The book is divided into two main sections the first provides entries on the major types and themes the second addresses specific folk tale characters organized by continent with folk hero entries organized alphabetically Each entry provides cross references as well as a list of further readings Continent sections include a bibliography for additional research The book concludes with an alphabetical list of heroes and an index of hero types

*Varlam Shalamov's Kolyma Tales* Nathaniel Golden, 2021-11-01 This book analyses eleven of Varlam Shalamov's Kolyma Tales from a neo Formalist perspective The tales are a testament to Shalamov's seventeen years in Stalin's Gulags and were written in an attempt to draw attention to this period in Soviet history Nathaniel Golden has primarily utilised L M O Toole's work *Structure Style and Interpretation in the Russian Short Story* as the major basis for analysis but has incorporated many other Formalist and indeed Structuralist methods The tales in each chapter are analysed by means of five major Formalist categories Narrative Structure Point of View Fabula and Sujet Characterisation and Setting This process highlights many of Shalamov's ideas and motifs in the tales He frequently uses techniques of estrangement and paradox to augment camp experience reflecting his belief that there is no moral emotional or spiritual gain in suffering He habitually employs a focaliser to tell the tale from a near death perspective and in consequence distances the author from events His literary background is prominent within the tales where he occasionally alludes to earlier Russian authors and their works to indicate the recurring nature of Man's fallibility against the Gulag background His characters are often simply portrayed yet representative of flawed heroes and the baseness of human beings subjected to an existence in extremis His settings are minimal yet form a major part of his message Man is compared to nature but nature is powerful and able to regenerate itself whereas Man's existence is temporary and futile This book therefore shows that the Formalist approach is indeed still valid as a literary tool of analysis as well as showing that upon the 50th year of Stalin's death Varlam Shalamov's time has arrived
