Explaining Russian-German code-mixing Nikolay Hakimov, 2021 The study of grammatical variation in language mixing has been at the core of research into bilingual language practices Although various motivations have been proposed in the literature to account for possible mixing patterns some of them are either controversial or remain untested Little is still known about whether and how frequency of use of linguistic elements can contribute to the patterning of bilingual talk This book is the first to systematically explore the factor usage frequency in a corpus of bilingual speech The two aims are i to describe and analyze the variation in mixing patterns in the speech of Russia German adolescents and young adults in Germany and ii to propose and test usage based explanations of variation in mixing patterns in three morphosyntactic contexts the adjective modified noun phrase the prepositional phrase and the plural marking of German noun insertions in bilingual sentences In these contexts German noun insertions combine with either Russian or German words and grammatical markers thus yielding mixed bilingual and German monolingual constituents in otherwise Russian sentences the latter also labelled as embedded language islands The results suggest that the frequency with which words are used together mediates the distribution of mixing patterns in each of the examined contexts The differing impacts of co occurrence frequency are attributed to the distributional and semantic specifics of the analyzed morphosyntactic configurations Lexical frequency has been found to be another important determinant in this variation Other factors include recency or lexical priming in discourse in the case of prepositional phrases and phonological and structural similarities and differences in the inflectional systems of the contact languages in the case of plural marking *The Translator's Handbook* Morry Sofer, 2006 Since 1997 this translator's guide has been the worldwide leader in its field and has elicited high praise from some of the

world's best translators It has been fully updated in the 2006 edition *English-Latvian Lexicographic Tradition* Laura Karpinska, 2015-10-16 Since 1987 when the first English explanatory dictionary fully based on corpus evidence was published considerable changes related to the choice of lexicographic evidence have affected the field of lexicography On this background even though the volume of the lexicographic material is ample the English Latvian lexicographic tradition looks rather traditional and even somewhat stagnant Thus there is an urgent need for a detailed analytical inventory of English Latvian dictionaries in order to facilitate new dictionary projects This book provides a comprehensive survey of the development of the English Latvian lexicographic tradition considering the various extra linguistic factors which have influenced it It studies the typical features of English Latvian dictionaries traced throughout the tradition at the levels of their mega macro and microstructure pinpoints the problematic aspects of English Latvian lexicography and offers theoretically grounded solutions for improving the quality of future English Latvian dictionaries The History of Russian Literature Friedrich Otto, 1839 **Auction catalogues of books** Puttick and Simpson (messrs.), 1846 *The History of Russian Literature* Friedrich Otto, George Cox, 2025-08-04 Reprint of the original first published in 1839 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage U.S. Naval Training Bulletin , 1949
