Population Diversity and the U.S. Army, *U.S. Army Historical Directory* Center of Military History, **Military Review**, 2017 **The Army Modernization Imperative** Andrew Hunter, Rhys McCormick, 2017-06-16 The U S Army currently faces a difficult truth without changes to its modernization strategy the Army risks losing qualitative tactical overmatch A lost procurement decade and recent significant modernization funding declines have resulted in an Army inventory that remains heavily leveraged on the Big Five programs originally procured in the 1970s and 1980s Meanwhile technology proliferation has made potential state and nonstate adversaries increasingly capable shrinking the U S overmatch advantage and in some cases surpassing it While current and projected future Army modernization funding is below historical averages necessitating increased modernization funding to ensure continued U S qualitative tactical overmatch the Army s modernization problem cannot be fixed only by increasing modernization funding Additional funds also need to be accompanied by an updated Army modernization strategy that presents a compelling case for modernization funding and sets clear priorities for fulfilling future operational requirements **Military Intelligence Professional Bulletin**, 2002

Conley, Lisa Sawyer Samp, Anthony Bell, 2016-07-30 This report offers an examination of U S Army force posture in Europe amid heightened tensions between the United States and Russia The report explores the necessary components of a sustainable and credible deterrence posture in Europe and highlights key challenges from the strategic down to the tactical level It offers recommendations for how to best recalibrate U S defense and deterrence posture in Europe over the next decade Special Bibliography - US Army Military History Research Collection US Army Military History Research Collection, 1970 *Language Dictionaries with an Emphasis on Military Dictionaries* US Army Military History Research Collection, Barbara Wrinkle, 1971 **Foundations of Russian Military Flight, 1885-1925** James K Libbey, 2019-05-15 Foundations of Russian Military Flight focuses on the early use of balloons and aircraft by the Russian military The best early Russian aircraft included flying boats designed by Dimitrii Grigorovich and large reconnaissance bombers created by Igor Sikorsky As World War I began the Imperial Russian Navy made use of aircraft more quickly than the army Indeed the navy established a precursor to the aircraft carrier The Imperial Russian Army came to respect over time the work of aircraft that evolved from reconnaissance and bomber to fighter planes Over 250 army pilots during the war received awards of high distinction for their wartime flights After the 1917 revolution both the new Bolshevik government and the reactionary White forces created air arms to combat each other In the 1920s the Soviet Union and Germany negotiated agreements that allowed Germany to violate the Treaty of Versailles by building military aircraft and training German military pilots in the USSR This provided the Soviet Union access to the latest aviation technology and prevented them from falling too far behind the West in this crucial sphere *Civil-Military*

The Russian Invasion of Ukraine, February - December 2022 John S Harrel, 2024-01-30 For the Military Enthusiast an intriguing view of the war through the eyes of a contemporary Western Military Officer ARGunners.com On 24 February 2022 Russian forces invaded Ukraine intending to overthrow the Zelensky government and bring the former Soviet republic back into the Russian sphere of control Vladimir Putin clearly expected a quick victory and many in the West also predicted that Kiev would fall in a few days But they hadn't counted on the skilled courageous and determined resistance of the Ukrainian armed forces nor the degree to which Russian military might had been overestimated The initial Russian dash for Kiev was thrown back and their advances in the east and south also slowed by a combination of fierce resistance and their own unpreparedness inadequate logistical planning and incompetent command While the Russians ground their way forward in the east and south of the country devastating towns and cities they paid a heavy price in casualties and equipment losses A carefully planned Ukrainian counteroffensive in the summer forced the invaders into a

series of humiliating retreats As winter approached the Russians still held considerable territory but the initiative and strategic momentum had clearly swung to the defenders The illusion of Russian invincibility was shattered forever US Major General retired John S Harrel a graduate of the US Army War College trained with the Ukrainian army in the 1990s and in 2006 and commanded Ukrainian troops as part of the NATO force in Kosovo in 2005 His military expertise and detailed knowledge of the combatants informs this clear narrative and analysis of the course of the first 10 months of the war He gives the reasons for the failure of the Russian invasion and conversely explains how the Ukrainian defense exceeded expectations while acknowledging that strategic mistakes were made on both sides *Building Alaska with the U.S. Army, 1867-1962* United States.
