Russian and Eurasian Politics Mark A. Cichock, 2003-01 *Russian and Eurasian Politics* Mark A. Cichock, 2003 This new text on Russian politics includes unique comprehensive coverage of other former Soviet countries giving students an important understanding of the region as a whole With unique attention to the successor states of the former Soviet Union Cichock's book is perfect for those instructors who want their students to study and understand the entire Eurasian region and not just Russia in isolation More than a decade after the end of the Soviet Union Russia and Eurasian states remain closely connected to one another and an analysis of the entire region comparing and contrasting these states yields valuable insights into modern Russian politics and the Soviet legacy Unlike other books dealing with post Soviet Russia *Russian and Eurasian Politics* does not emphasize history Instead it boldly tries to evaluate politics in five states in the most up to date fashion possible emphasizing political culture and economic development as the primary forces of change The book focuses on institutional constraints and state building constitutions and the volatile nature of inter ethnic conflict to describe political systems taking shape before the eyes of the world *Russian Politics Today* Susanne A. Wengle, 2022-10-27 An accessible and nuanced introduction to contemporary Russian politics using the theme of stability versus fragility as its overarching framework This innovative textbook explores core themes as well as path breaking insights into the politics of race class gender sexuality and the environment *The Russian Empire 1450-1801* Nancy Shields Kollmann, 2017 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today *The Russian Empire 1450-1801* surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation *The Russian Empire 1450-1801* explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures

American Book Publishing Record ,2003 Russia's Regions and Comparative Subnational Politics William Mark Reisinger,2013 Subnational political units are growing in influence in national and international affairs drawing increasing scholarly attention to politics beyond national capitals In this book leading Russian and Western political scientists contribute to debates in comparative politics by examining Russia s subnational politics Beginning with a chapter that reviews major debates in theory and method this book continues to examine Russia s 83 regions exploring a wide range of topics including the nature and stability of authoritarian regimes federal politics political parties ethnic conflict governance and inequality in a comparative perspective Providing both qualitative and quantitative data from 20 years of original research the book draws on elite interaction public opinion and the role of institutions regionally in the post Soviet years The regions vary on a number of theoretically interesting dimensions while their federal membership provides control for other dimensions that are challenging for globally comparative studies The authors demonstrate the utility of subnational analyses and show how regional research can help answer a variety of political questions providing evidence from Russia that can be used by specialists on other large countries or world regions in cross national scholarship Situated within broader theoretical and methodological political science debates this book will be of interest to students and scholars of Russian politics comparative politics regionalism and subnational politics *Russian Notions of Power and State in a European Perspective, 1462-1725* Endre Sashalmi,2022-10-25 Winner of the 2023 Marc Raeff Book Prize A 2023 REFORC Book Award Longlist Title This book highlights the main features and trends of Russian political thought in an era when sovereignty state and politics as understood in Western Christendom were non existent in Russia or were only beginning to be articulated It concentrates on enigmatic authors and sources that shaped official perception of rulership or marked certain changes of importance of this perception Special emphasis is given to those written and visual sources that point towards depersonalization and secularization of rulership in Russia A comparison with Western Christendom frames the argument throughout the book both in terms of ideas and the practical aspects of state building allowing the reader to ponder Russia s differentia specifica

Parliaments in the Late Russian Empire, Revolutionary Russia, and the Soviet Union Ivan Sablin,2024-02-12 This book examines the meanings that were attached to the terms parliament and parliamentarism in the different historical and discursive contexts of the late Russian Empire revolutionary and Soviet Russia and the Soviet Union It discusses those institutions referred to as parliaments by contemporaries gives special attention to their functions and traces the broader debates on parliamentarism within Russia and the Soviet Union in Russian migr circles and among foreign observers It highlights that only the late imperial and perestroika assemblies can be considered legislative institutions that expressed dissensus but argues that other assemblies often referred to as rubber stamp parliaments due to their lack of legislative competence and influence over other authorities should not be dismissed The Supreme Soviet for instance provided an integrative function binding society and elites in a top down manner while its deputies engaged in information acquisition

and state micromanagement through interactions with their constituents It also played an important role in interparliamentary relations and as one of the first institutions of nominal parliamentarism in an autocratic single party regime of which there were many in the twentieth century served as a model for numerous state socialist regimes By addressing the role of parliaments in reassembling imperial spaces through political representation and the functions of nominal legislative institutions the book explores the contribution of Russian and Soviet assemblies to global political modernity

Planting Parliaments in Eurasia, 1850-1950 Ivan Sablin, Egas Moniz Bandeira, 2021-05-30 Parliaments are often seen as Western European and North American institutions and their establishment in other parts of the world as a derivative and mostly defective process This book challenges such Eurocentric visions by retracing the evolution of modern institutions of collective decision making in Eurasia Breaching the divide between different area studies the book provides nine case studies covering the area between the eastern edge of Asia and Eastern Europe including the former Russian Ottoman Qing and Japanese Empires as well as their successor states In particular it explores the appeals to concepts of parliamentarism deliberative decision making and constitutionalism historical practices related to parliamentarism and political mythologies across Eurasia It focuses on the historical and reestablished institutions of decision making which consciously hark back to indigenous traditions and adapt them to the changing circumstances in imperial and postimperial contexts Thereby the book explains how representative institutions were needed for the establishment of modernized empires or postimperial states but at the same time offered a connection to the past The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780367691271> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 licence

National Pasts is the first truly cross national and comparative study of popular national histories their representations the

meanings given to them and their uses which expands outside the confines of Western Europe and the US. It draws a picture of popular histories which is European in the full sense of this term. One of its fortes is the inclusion of Eastern Europe. The cross national angle of *Popularizing National Pasts* is apparent in the scope of its comparative project as well as that of the *longue durée* it covers. Apart from essays on Britain, France and Germany, the collection includes studies of popular histories in Scandinavia, Eastern and Southern Europe, notably Romania, Bulgaria, Croatia, Armenia, Russia, and the Ukraine, as well as considering the US and Argentina. Cross national comparison is also a central concern of the thirteen case studies in the volume, which are each devoted to comparing between two or more national historical cultures. Thus temporality, both continuities and breaks in popular notions of the past, its interpretations and consumption, is examined in the long continuum. The volume makes available to English readers, probably for the first time, the cutting edge of Eastern European scholarship on popular histories, nationalism and culture.

Loyalty and Citizenship Gözde Yazıcı Cörüt, 2021-12-06 Gözde Yazıcı Cörüt unfolds the details of everyday life and represents the local people as active agents, active moreover in relation both to the changing nature and effectiveness of the Ottoman state's assertion of territorial authority and also to the differences between policies and practices of the Russian and Ottoman Empires. Overall she focuses on the end of empire, border politics and the issue of Ottoman citizenship, not only from the perspective of macro level political developments and central state power but also in terms of the peripheral specificities of administration and the movements and subjecthood choices of people inhabiting the Russo-Ottoman borderland. The author presents a new type of multi-faceted account of borderland development in which ethno-religious considerations came to inform a somewhat messy production of sovereignty in the context of the modernizing transition between empire and nation state.

Russian/Soviet Studies in the United States, Amerikanistika in Russia Ivan Kurilla, Victoria I. Zhuravleva, 2015-12-09 The contributors in this interdisciplinary collection address the problem of interconnection between the study of the Other, either Russian or American, and the shaping of national identities in the two countries at different stages of US-Russian relations. The focus of research interests were typically determined by the political and social debates in scholars' native countries. In this book, leading Russian and American scholars analyze the problems arising from these intersections of academic, political and sociocultural contexts and the implicit biases they entail. The book is divided into two parts, the first being a historical overview of past configurations of the interrelationship between fields and agendas and the second covering the role of institutionalized area studies in the twentieth and early twenty-first centuries. In both parts, the role of the human factor in the study of mutual representations is elucidating.

From Empire to Eurasia Sergey Glebov, 2017-05-15 The Eurasianist movement was launched in the 1920s by a group of young Russian migr s who had recently emerged from years of fighting and destruction Drawing on the cultural fermentation of Russian modernism in the arts and literature as well as in politics and scholarship the movement sought to reimagine the former imperial space in the wake of Europe s Great War The Eurasianists argued that as an heir to the nomadic empires of the steppes Russia should follow a non European path of development In the context of rising Nazi and Soviet powers the Eurasianists rejected liberal democracy and sought alternatives to Communism and capitalism Deeply connected to the Russian cultural and scholarly milieus Eurasianism played a role in the articulation of the structuralist paradigm in interwar Europe However the movement was not as homogenous as its name may suggest Its founders disagreed on a range of issues and argued bitterly about what weight should be accorded to one or another idea in their overall conception of Eurasia In this first English language history of the Eurasianist movement based on extensive archival research Sergey Glebov offers a historically grounded critique of the concept of Eurasia by interrogating the context in which it was first used to describe the former Russian Empire This definitive study will appeal to students and scholars of Russian and European history and culture
