Russian And Soviet Economic Performance And Structure:

Russian and Soviet Economic Performance and Structure Paul R. Gregory, Robert C. Stuart, 2001 The Seventh Edition of Russian and Soviet Economic Performance and Structure offers students a balanced perspective in understanding the Soviet past and Russia's present and future With thorough coverage of the Soviet legacy the transition and the contemporary Russian economy the text allows instruction from either a historical or contemporary perspective NEW A major update of the critical economic issues in contemporary Russia at the dawn of the twenty first century NEW Increased coverage of the critical energy and agriculture sectors of key issues such as privatization where more and better evidence is now available NEW An assessment of a full ten years of Russian economic performance under transition including increased emphasis on the basic issues in transition and the important differences between Russia and other transition economies NEW Updated terminology for easier reference by students Allows flexible teaching choices New contemporary focus still allows instructors the flexibility to teach the course from a historical perspective Authors are established active scholars who are widely known and well respected in the field of comparative economic systems *Soviet Economic Structure and Performance* Paul R. Gregory, Robert C. Stuart, 1986 *Russian and Soviet Economic Performance and Structure* Paul R. Gregory, Robert C. Stuart, 1998 This study in transition economics covers Russian and Soviet economic performance and looks at the origins of the Soviet economy the administrative command economy and its decline and contemporary Russia *Soviet and Post-Soviet Economic Structure and Performance* Paul R. Gregory, Robert C. Stuart, 1994 This text has been updated to focus on the radical changes which the former Soviet Union has recently experienced its reorganization and its transition from a planned to market economy examining the history of the Soviet Union more succinctly than in previous editions **The Oxford Handbook of the Russian Economy** Michael Alexeev, Shlomo Weber, 2013-07-18 This Handbook is the most comprehensive up to date study of the Russian economy available Russian and western authors analyze the current economic situation trace the impact of Soviet legacies and of post Soviet transition policies examine the main social challenges and propose directions for reforms **Oil and the Economy of Russia** Nat Moser, 2017-10-20 This book examines the development of the Russian economy from tsarist times to the present through the lens of the oil industry It considers the role of the state business state relations foreign participation enterprise performance and technology Besides providing much rich detail on the changing nature of the oil industry the book also puts forward important conclusions including the fact that in the late nineteenth century private enterprise rather than the state was the principal driver of economic development and that after the collapse of the Soviet Union incumbent managers were more effective in running their companies than financier entrants whose main concern was short term gain **A History Of Russia Volume 2** Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which

now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

Geography of Russia and Its Neighbors Mikhail S. Blinnikov, 2021-01-22 Authoritative yet accessible the definitive undergraduate text on Russian geography and culture has now been thoroughly revised with current data and timely topics such as the annexation of Crimea and Sevastopol and other background for understanding Russia's 2022 invasion of Ukraine Thematic chapters provide up to date coverage of Russia's physical political cultural and economic geography Regional chapters focus on the country's major regions and the other 14 former Soviet republics Written in a lucid conversational style by a Russian born international expert the concise chapters interweave vivid descriptions of urban and rural landscapes examinations of Soviet and post Soviet life deep knowledge of environmental and conservation issues geopolitical insights engaging anecdotes and rigorous empirical data Over 200 original maps photographs and other figures are also available as PowerPoint slides at the companion website many in color New to This Edition Separate chapter on Ukraine and Crimea covering events through 2019 Timely topics the political crisis in Ukraine and annexation of Crimea and Sevastopol the return of Putin as president climate change and environmental degradation economic slowdown political shifts in the republics the role of Russian backed forces in Syria Libya and Central African Republic changes in Russia United States relations and more Thoroughly updated population economic and political data 80 new or updated figures tables and maps Pedagogical Features End of chapter review questions suggested assignments and in class exercises Within chapter vignettes about Russian places culture and history End of chapter internet resources and suggestions for further reading Companion website with all figures and maps from the book many in full color

Alternative Capitalisms Robert Gwynne, Denis Shaw, Thomas Klak, 2014-05-12 This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions These are Latin America and the Caribbean East Central Europe and the former Soviet Union and East Asia This book breaks new ground in three areas First of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory Secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century Thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus This is a unique approach in terms of books published in both geography and the social sciences Within the context of the three world regions the book combines historical and contemporary analysis of the evolving world system In these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving The authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical

of the capitalist West or core economies of North America and Western Europe

The Economic History of Central, East and South-East Europe Matthias Morys, 2020-12-29 The collapse of communism in Central East and South East Europe CESEE led to great hopes for the region and for Europe A quarter of a century on the picture is mixed in many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies

The World Economy and National Economies in the Interwar Slump T. Balderston, 2002-12-13 The functioning of the gold standard has recently been at the heart of explanations of the interwar depression particularly as a result of the research of Professors Barry Eichengreen and Peter Temin In The World Economy and National Economies in the Interwar Slump the interaction between the gold standard and the Great Depression in seven countries is examined by an international team of economists and economic historians The editor s introduction critically evaluates the Eichengreen Temin thesis and Eichengreen and Temin themselves contribute an Afterword

Property to the People: The Struggle for Radical Economic Reform in Russia Julie Nelson, Irina Y. Kuzes, 2021-01-31 This text sets Russia s current economic transformation in the context of economic and political change and provides an overview of issues central to the economic reform debate in Russia It also highlights the human dimension of large scale economic change through case studies and interviews

Politics and Public Policy Barbara Wejnert, 2012-12-17 This volume highlights the ways in which scholarly analysis has contributed to a rich understanding of the links between spreading democracy gender equality and environmental protection It includes cutting edge debates on the meaning of democracy and its development as well as the response of democracies to environmental and gender concerns

Historical Dictionary of the Russian Federation Robert A. Saunders, 2019-09-20 Straddling Europe and Asia the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats Over the past 40 years Russia has experienced the most dramatic transformation of any modern state The second edition of Historical Dictionary of the Russian Federation provides insight into this rapidly developing country This volume includes coverage of pivotal movements events and persons in the late Soviet Union 1985 1991 and contemporary Russia 1991 present This second edition of Historical Dictionary of the Russian Federation contains a chronology an introduction and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more

about Russia Institutional Change in Transition Economies Michael Cuddy, 2019-01-15 This title was first published in 2002 The importance of institutions for transition economies has so far been overlooked Michael Cuddy and Ruvin Gekker bring together leading experts in the field to fill this crucial void in the literature The contributors concentrate on an ongoing tension between informal constraints and mechanisms and the new formal rules and mechanisms that have gradually evolved through the transition period Experiences are primarily drawn from Russia The book consists of three parts the first comprising an analysis synthesis and generalizations of the institutional adaptations as a market economy slowly emerges from a fog of shifting rules and varying interpretations This is followed by the study of business and taxation authorities behavior as they try to minimize or maximize the taxation take The volume also analyzes the challenges facing central and regional governments in delivering equitable levels of public services across regions of vastly different development levels while at the same time trying to stimulate regional economic growth The Political Economy of Independent Ukraine H. van Zon, 2000-11-30 The Political Economy of Independent Ukraine analyses the reasons for the abysmal economic performance of Ukraine during the 1990s The main thesis is that economic development was blocked by a set of parasitic mechanisms at all levels of the economy that prevented the development of value added economic activities These parasitic mechanisms already developed under Soviet rule beating the system by redistributing goods and services while disregarding formal rules became a widespread practice Global Perspectives on Corporate Governance and CSR Güler Aras, 2016-04-22 Good governance is good PR it is important in every sphere of society whether it be the corporate environment the political or wider society When resources are too limited to meet the minimum expectations of the people it is a good governance level that can help to promote the welfare of society Enlightened companies recognise that there is a clear link between governance and corporate social responsibility and make efforts to link the two Unfortunately this is too often no more than making a claim that good governance is a part of their CSR policy as well as a part of their relationship with shareholders Corporate Governance and CSR are significant issues in all parts of the world huge amounts of time and energy are devoted to its global interpretation Most analysis however is too simplistic to be helpful as it normally resolves itself into simple dualities rules based v principles based or Anglo Saxon v Continental The editors of this book argue that this is not helpful that the reality is far more complex They show that Corporate Governance and CSR cannot be understood without taking geographical cultural and historical factors into account It is necessary they say to understand the concerns of people in different parts of the world Therefore by using a wealth of case studies theoretical models and drawing on the knowledge and perspective of experts from around the world the editors have produced this valuable book Global Perspectives on Corporate Governance and CSR discusses issues such as regional and cultural similarities and differences the contexts of differing legal frameworks and governance codes differences between large companies and SMEs governance in new environments companies and economies versus stable environments and the changing environment affecting

corporate social responsibility around the world The editors then synthesise this in a way that will be helpful to business people as well as to academics

The Political Economy of Stalinism Paul R. Gregory, 2004 This book uses the formerly secret Soviet state and Communist Party archives to describe the creation and operations of the Soviet administrative command system It concludes that the system failed not because of the jockey i e Stalin and later leaders but because of the horse the economic system Although Stalin was the system s prime architect the system was managed by thousands of Stalins in a nested dictatorship The core values of the Bolshevik Party dictated the choice of the administrative command system and the system dictated the political victory of a Stalin like figure This study pinpoints the reasons for the failure of the system poor planning unreliable supplies the preferential treatment of indigenous enterprises the lack of knowledge of planners etc but also focuses on the basic principal agent conflict between planners and producers which created a sixty year reform stalemate

Comparative Economics in a Transforming World Economy John Barkley Rosser, 2004 The second edition of an innovative undergraduate textbook in Comparative Economic Systems that goes beyond the traditional dichotomies

The CIS Handbook Patrick Heenan, Monique Lamontagne, 2013-11-26 The Regional Handbooks of Economic Development series provides accessible overviews of countries within their larger domestic and international contexts focusing on the relations among regions as they meet the challenges of the twenty first century The series allows the non specialist student to explore a wide range of complex factors social and political as well as economic that affect the growth of developing regions in Asia Europe and South America Each Handbook provides an overview chapter discussing the region s economic conditions within an historical and political context as well as 20 or more chapter length essays written by recognized experts which analyze the key issues affecting a region s economy its population natural resources foreign trade labor problems and economic inequalities and other vital factors In addition the volumes offer useful support materials including a series of appendices that include a detailed chronology of events in the region a glossary of terms biographical entries on key personalities an annotated bibliography of further reading and a comprehensive analytical index
