National movements and national identity among the Crimean Tatars Hakan Kırımlı, 1996 This study is the first and only scholarly attempt to cover the process of the formation of the modern national identity among the Crimean Tatars during the

first decades of this century It also illuminates similar processes among the other Turkic peoples of the Russian Empire **A History of Russia, Central Asia and Mongolia, Volume II** David Christian, 2018-03-12 Provides an all encompassing look at the history of Russia Central Asia and Mongolia Beginning with the breakup of the Mongol Empire in the mid thirteenth century Volume II of this comprehensive work covers the remarkable history of Inner Eurasia from 1260 up to modern times completing the story begun in Volume I Volume II describes how agriculture spread through Inner Eurasia providing the foundations for new agricultural states including the Russian Empire It focuses on the idea of mobilization the distinctive ways in which elite groups mobilized resources from their populations and how those methods were shaped by the region s distinctive ecology which differed greatly from that of Outer Eurasia the southern half of Eurasia and the part of Eurasia most studied by historians This work also examines how fossil fuels created a bonanza of energy that helped shape the history of the Communist world during much of the twentieth century Filled with figures maps and tables to help give readers a fuller understanding of what has transpired over 750 years in this distinctive world region A History of Russia Central Asia and Mongolia Volume II Inner Eurasia from the Mongol Empire to Today 1260 2000 is a magisterial but accessible account of this area s past that will offer readers new insights into the history of an often misunderstood part of the world Situates the histories of Russia Central Asia and Mongolia within the larger narrative of world history Concentrates on the idea of Inner Eurasia as a coherent ecological and geographical zone Focuses on the powerful ways in which the region s geography shaped its history Places great emphasis on how mobilization played a major part in the development of the regions Offers a distinctive interpretation of modernity that highlights the importance of fossil fuels Offers new ways of understanding the Soviet era A History of Russia Central Asia and Mongolia Volume II is an ideal book for general audiences and for use in undergraduate and graduate courses in world history The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production **Palmers' Index to the Times Newspaper** ,1885 **Publications Combined: Russia's Regular And Special Forces In The Regional And Global War On Terror** , Over 2 400 total pages Russian outrage following the September 2004 hostage disaster at North Ossetia s Beslan Middle School No 1 was reflected in many ways throughout the country The 52 hour debacle resulted in the death of some 344 civilians including more than 170 children in addition to unprecedented losses of elite Russian security forces and the dispatch of most Chechen allied

hostage takers themselves It quickly became clear as well that Russian authorities had been less than candid about the number of hostages held and the extent to which they were prepared to deal with the situation Amid grief calls for retaliation and demands for reform one of the more telling reactions in terms of hardening public perspectives appeared in a national poll taken several days after the event Some 54% of citizens polled specifically judged the Russian security forces and the police to be corrupt and thus complicit in the failure to deal adequately with terrorism while 44% thought that no lessons for the future would be learned from the tragedy This pessimism was the consequence not just of the Beslan terrorism but the accumulation of years of often spectacular failures by Russian special operations forces SOF in the apt US military acronym A series of Russian SOF counterterrorism mishaps misjudgments and failures in the 1990s and continuing to the present have made the Kremlin s special operations establishment in 2005 appear much like Russia s old Mir space station wired together unpredictable and subject to sudden startling failures But Russia continued to maintain and expand a large variegated special operations establishment which had borne the brunt of combat actions in Afghanistan Chechnya and other trouble spots and was expected to serve as the nation s principal shield against terrorism in all its forms Known since Soviet days for tough personnel personal bravery demanding training and a certain rough or brutal competence that not infrequently violated international human rights norms it was supposed that Russian special operations forces steeped in their world of threats to the state and associated with once dreaded military and national intelligence services could make valuable contributions to countering terrorism The now widely perceived link between corrupt special forces on the one hand and counterterrorism failures on the other reflected the further erosion of Russia s national security infrastructure in the eyes of both Russian citizens and international observers There have been other more ambiguous but equally unsettling dimensions of Russian SOF activity as well that have strong internal and external political aspects These constitute the continuing assertions from Russian media the judicial system and other Federal agencies and officials that past and current members of the SOF establishment have organized to pursue interests other than those publicly declared by the state or allowed under law This includes especially the alleged intent to punish by assassination those individuals and groups that they believe have betrayed Russia The murky nature of these alleged activities has formed a backdrop to other problems in the special units

**The Image of Peter the Great and Frederick the Great in the Eighteenth Century Ottoman History Sources (Yeditepe Yayinevi)** Cengiz Çalık,2020-12-01 The Eighteenth Century has been a century in which changes were experienced in every field in the world and especially in Europe and the balance of power began to change Military social and economic changes in Europe caused the emergence of new empires and the weakening of the powerful empires of the period that could not adapt to this change The subject of our book Peter the Great who founded the Great Russian Empire that marked this period and Frederick the Great who is referred to as the founder of the Prussian state made their countries competitive with other European states in every field and set an example for many countries In this study The

Eighteenth Century In order to understand how the Ottoman Empire which is still one of the strongest empires of the century followed the developments taking place around it we tried to examine how the reforms of these two great leaders in their countries found their place in the contemporary Ottoman sources of the period John Cassell's illustrated history of England. The text, to the reign of Edward i by J.F. Smith; and from that period by W. Howitt Cassell, Ltd, 1875 **The Light Cavalry Brigade in the Crimea** Lord George Paget, 1881 The Crimean Tatars Brian Williams, 2021-11-22 Taking as its starting point the ethnogenesis of this ethnic group during the Mongol period 13th century this volume traces their history through Islam the Ottoman and the Russian Empires 15th and 17th century The author discusses how Islam Russian colonial policies and indigenous national movements shaped the collective identity of this victimized ethnic group Part two deals with the role of forced migration during the Russian colonial period Soviet nation building policies and ethnic cleansing in shaping this people's modern national identity This work therefore also has wider applications for those dealing with the construction of diasporic identities Taking a comparative approach it traces the formation of Crimean Tatar diasporas in the Ottoman Balkans Republican Turkey and Soviet Central Asia from 1944 A theme which emerges through the work is the gradual construction of the Crimea as a national homeland by its indigenous Tatar population It ends with a discussion of the post Soviet repatriation of the Crimean Tatars to their Russified homeland and the social and identity problems involved
