Russian Industrialists In An Era Of Revolution:

Russian Industrialists in an Era of Revolution Ruth Amende Roosa, 1997 This text on Russian industrialists includes chapters on the Russian business community the dilemmas of backwardness and politics war and revolution **Russian Industrialists in an Era of Revolution: The Association of Industry and Trade, 1906-17** Ruth Amende Roosa, Thomas C. Owen, 2019-09-18 Ruth Roosa's long awaited study focuses on the most important business organization in imperial Russia the Association of Industry and Trade the nerve center of Russian capitalism in the years between the revolutions of 1905 and 1917 The author's comprehensive nuanced analysis of the Association's policy positions on Russian economic development has no peer Of particular interest are the insights the study affords into the peculiarities of Russian business including the operation of semi monopolistic syndicates and the role of imported capital banks and the autocratic state It supplies historical perspective on some of the more perplexing features of the new Russian capitalism Roosa was a pioneer in the study of early twentieth century Russian capitalism This volume prepared for posthumous publication by her friends and colleagues makes her work available at a time when it has new resonance and relevance **The Russian Revolution and Civil War 1917-1921** Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state Hegel's Philosophy of Reality, Freedom, and God Robert M. Wallace, 2005-04-04 Showing the relevance of Hegel's arguments this book discusses both original texts and their interpretations **Revolutions and the Collapse of Monarchy** Zhand Shakibi, 2007-02-23 What causes revolution What brought about the end of the last major monarchies of the modern period Were Louis XVI Nicholas II and Mohammad Reza Pahlavi the unwitting victims of historical circumstance or did their own actions help to bring about the revolutions that overthrew them This powerful and original book is the first comparative study of the revolutions in Bourbon France Romanov Russia and Pahlavi Iran Zhand Shakibi analyses fully the timing and causes of these three revolutions and reveals the important similarities between them *Revolutions and the Collapse of Monarchy* argues provocatively that it is often the monarch's own personality that provides the vital spark which produces revolution This ambitious and important book challenges the Marxist interpretation of history and adds a compelling new perspective to theories of revolution **Second Metropolis** Blair A. Ruble, 2001-05-28 By exploring and comparing North America's

Russia's and Japan's second cities Chicago Moscow and Osaka Second Metropolis discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive political resource pragmatic pluralism Big Business In Russia Jonathan A. Grant, 2010-11-23 Jonathan A Grant has written a highly original study of the Putilov works the most famous industrial conglomerate in the Russian Empire during the late nineteenth and early twentieth centuries With the emergence of a capitalist system in the Russian federation in the 1990s scholarly debate over the nature of Russian capitalism has been revived and with this study Grant issues a major challenge to the conventional wisdom on the nature of the Russian economy in the years before the Bolshevik revolution Grant argues that the Putilov Company which manufactured arms for the Russian state and a wide range of heavy industrial equipment for civilian use adopted business practices that resembled the experiences of large machinery and armaments manufacturers in Britain France the Austro Hungarian Empire and Germany This interpretation runs directly counter to the traditional and widely held view that Russian capitalism was shaped by the tsarist state's orders and subsidies and that the tsarist system was incompatible with the development of modern capitalism Grant makes direct comparisons between Putilov and the famous western firm of Krupp and Vickers illustrating similar business decisions made by both companies in terms of diversification of the product line and a penchant for private as opposed to state markets for primary income Grant has gone beyond Soviet works on the Putilov plant examining archival documents of the company and offering critical comments on both Soviet and Western scholarship on Russian economic and social history from the perspective of this important industrial enterprise Grant not only repeatedly demonstrates that the Putilov firm responded effectively to the changing market for its wide range of industrial products but also shows that the tsarist regime provided far more of the systemic regularity needed for capitalist development than generally believed Grant's work is a significant contribution to this ongoing debate offering a much needed case study of Russian business history and a comparative study that extends across national boundaries Big Business in Russia is essential reading for graduate students in Russian and European history and will also appeal to American and European business leaders eager to understand the historical background of the current economic challenges facing Russia *External Research. ER List* United States. Department of State. External Research Division, 1952 Modernisation in Russia since 1900 Markku Kangaspuro, Jeremy Smith, 2006-12-27 Modernisation has been a constant theme in Russian history at least

since Peter the Great launched a series of initiatives aimed at closing the economic technical and cultural gap between Russia and the more advanced countries of Europe All of the leaders of the Soviet Union and post Soviet Russia have been intensely aware of this gap and have pursued a number of strategies some more successful than others in order to modernise the country But it would be wrong to view modernisation as a unilinear process which was the exclusive preserve of the state Modernisation has had profound effects on Russian society and the attitudes of different social groups have been crucial to the success and failure of modernisation This volume examines the broad theme of modernisation in late imperial Soviet and post Soviet Russia both through general overviews of particular topics and specific case studies of modernisation projects and their impact Modernisation is seen not just as an economic policy but as a cultural and social phenomenon reflected through such diverse themes as ideology welfare education gender relations transport political reform and the Internet The result is the most up to date and comprehensive survey of modernisation in Russia available which highlights both one of the perennial problems and the challenges and prospects for contemporary Russia

A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world

External Research United States. Department of State. External Research Division, **Defenders of the Motherland** Matthew Rendle, 2010 Matthew Rendle studies how the most powerful social groups in tsarist Russia reacted to the challenges of 1917 He argues that the alienation of elites from the tsar and their support for the Provisional Government secured the initial success of the revolution but the threat they posed laid the foundations of the repressive Soviet regime

A History of Russia Volume 1 Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss s accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful with both professors and students including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps that supplement and amplify the text fully updated bibliographies accompanying each chapter as well as a general bibliography of more comprehensive works a glossary and chronological and genealogical lists Moss s A History of Russia will appeal to academics students and general readers alike

External Research List , 1957 [Russia in 1913](#) Wayne Dowler, 2010-10-29 A pivotal year in the history of the Russian Empire 1913 marks the tercentennial celebration of the Romanov Dynasty the infamous anti Semitic Beilis Trial Russia s first celebration of International Women s Day the ministerial boycott of the Duma and the amnestying of numerous prisoners and political exiles along with many other important events A vibrant public

sphere existed in Russia's last full year of peace prior to war and revolution. During this time a host of voluntary associations, a lively and relatively free press, the rise of progressive municipal governments, the growth of legal consciousness, the advance of market relations and new concepts of property tenure in the countryside and the spread of literacy were transforming Russian society. Russia in 1913 captures the complexity of the economy and society in the brief period between the revolution of 1905 and the outbreak of war in 1914 and shows how the widely accepted narrative about pre-war late Imperial Russia has failed in significant ways. While providing a unique synthesis of the historiography, Dowler also uses reportage from two newspapers to create a fuller impression of the times. This engaging and important study will appeal both to Russian studies scholars and serious readers of history.

Agrarian Reform in Russia Carol S. Leonard, 2010-12-06 This book examines the history of reforms and major state interventions affecting Russian agriculture: the abolition of serfdom in 1861, the Stolypin reforms, the NEP, the Collectivization, Khrushchev reforms, and finally farm enterprise privatization in the early 1990s. It shows a pattern emerging from a political imperative in imperial Soviet and post-Soviet regimes and it describes how these reforms were justified in the name of the national interest during severe crises: rapid inflation, military defeat, mass strikes, rural unrest, and/or political turmoil. It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long-run trends. It has chapters on property rights, rural organization, and technological change. It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present. This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions.

Oil and the Economy of Russia Nat Moser, 2017-10-20 This book examines the development of the Russian economy from tsarist times to the present through the lens of the oil industry. It considers the role of the state, business-state relations, foreign participation, enterprise performance, and technology. Besides providing much rich detail on the changing nature of the oil industry, the book also puts forward important conclusions, including the fact that in the late nineteenth century private enterprise rather than the state was the principal driver of economic development and that after the collapse of the Soviet Union, incumbent managers were more effective in running their companies than financier entrants whose main concern was short-term gain.

War and Revolution Norman E. Saul, 2001 The third volume in Saul's history of U.S.-Russian relations looks at events surrounding America's entry into the European conflict and its encouragement of continued Russian participation even in the face of domestic unrest. Saul's history of Russian and East European studies at the University of Kansas draws on military and diplomatic archives in both countries to provide detailed accounts of the activities of consular, diplomatic, and military staffs as well as American businessmen, Red Cross volunteers, and journalists who were working in Russia. His previous diplomatic histories, *Distant Friends* and *Concord and Conflict*, cover events from the 18th and 19th centuries. c. Book News Inc.
