*Introduction to Russia* Gilad James, PhD, Russia officially known as the Russian Federation is the largest country in the world by land area and spans two continents Europe and Asia It is located in Eastern Europe and Northern Asia and shares borders with Norway Finland Estonia Latvia Lithuania Poland Belarus Ukraine Georgia Azerbaijan Kazakhstan Mongolia China and North Korea The country has a diverse geography from the frozen tundra of Siberia to the sunny beaches of the Black Sea coast Russia is known for its rich culture and history which includes famous poets writers composers artists and scientists The country has a population of approximately 144 million people and is considered a federal semi presidential republic Russia's economy is one of the largest in the world and relies heavily on natural resources like oil gas and minerals Its political system is often described as authoritarian due to the concentration of power in the hands of the president and the ruling party However the country has a complex and dynamic political landscape that includes a diversity of opinions and viewpoints Despite its challenges Russia continues to play a significant role in world affairs including its involvement in Syria Ukraine and other global hotspots *The Routledge Handbook of Russian International Relations Studies* Maria Lagutina, Natalia Tsvetkova, Alexander Sergunin, 2023-02-27 This handbook examines the study of international relations IR in Russia giving a comprehensive analysis of historical theoretic conceptual geographical and institutional aspects It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post Soviet era Filling the vacuum in international understanding of the Russian perspective on pivotal international issues they demonstrate the continuity and change in Russia's international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision making process Providing a unique contribution to the discussion on non Western IR theory this handbook will appeal to scholars and students of international relations Russian studies world politics and international studies How the EU and Russia Narrate the World Mario Baumann, 2025-07-25 In times of increasing challenges to the

Western idea this book illuminates how Russian and EU foreign policy discourses interact While official Russian and EU articulations on issues of sovereignty human rights and the shared neighbourhood diverge greatly they are not articulated in isolation but are entangled and condition each other To understand this entanglement this book approaches the relationship between Russia and the EU as an intersubjective one a social context where diverging interpretations of the world struggle for hegemony Its theoretical framework marries poststructuralist thought with insights from critical approaches to Hegelian recognition dialectics Based on an extensive and systematic empirical discourse analysis of Russian and EU foreign policy texts this study draws a detailed picture of the intensifying discursive dynamics accompanying the deteriorating relationship between Brussels and Moscow It shows how neither the EU's nor Russia's foreign policy articulation has changed substantially The interaction pattern continues to be an asymmetrical one with Russia's articulations much more conditioned by the EU's discourse than vice versa The book thus argues that the EU is more independent in sovereignly articulating an interpretation of the world whereas Russia continues to face constraints in the formulation of an autonomous political project With its novel and innovative conceptual framework this book furthers the theoretical scholarship on poststructuralism in international relations It addresses all scholars interested in poststructuralist enquiries and will be of great value to students and scholars of Russian foreign policy and the EU
