Mary Ellen Barnes, 2016-10-01 As you wind your way up the Catalina Highway it doesn t matter whether you re a first time visitor or a native Tucsonan you know you re on the way to someplace special The Santa Catalina Mountains first captivated Tony Zimmerman on a 1937 hunting trip Regard for the alpine beauty must have been in his genes he was the son of Swiss German immigrants and by 1940 the Tucson schoolteacher had begun taking his family to Mount Lemmon to spend the summer Back then the road up the mountain was a rough two track dirt road from Oracle and Summerhaven was nothing but a sleepy cluster of summer cabins But Tony Zimmerman was to help change all of that The Road to Mount Lemmon is a beguiling memoir of the Catalina Mountains told by the daughter of one of the pioneers in the life and development of Mount Lemmon s communities Mary Ellen Barnes tells how her father Tony resigned from teaching in 1943 to devote his career to the development of this mountain oasis He not only sold real estate for long time landowner Randolph Jenks he even bought the village s tiny two room store installing a sawmill to build a larger store and built the Mount Lemmon Inn And as she spins Tony s personal saga she also gives readers a glimpse of the Catalinas before Tucson became a boom town recalling idyllic adventures in wild country and the cowboys rangers ranchers and loggers who worked there Barnes tells Tony s story as if sharing it with family evoking her father s personality on every page The Road to Mount Lemmon is an intimate view of a mountain community over the course of nearly sixty years a view that few people have shared but one all can appreciate

### **The Social Behavior of Older Animals**

Anne Innis Dagg, 2009-02-02 A groundbreaking study on the lives of senior mammals and birds from the aging of alphas to the role of grandmothers by the author of *Animal Friendships* How do young and old social animals view each other Are aged animals perceived by others as weaker Or wiser What is the relationship between age and power among social animals Taking a cue from Frans de Waal s seminal work examining the lives of chimpanzees Anne Innis Dagg in this pioneering study probes the lives of older mammals and birds

Synthesizing the available scientific research and anecdotal evidence she explores how aging affects the lives and behavior of animals ranging from elk to elephants and gulls to gorillas examining such topics as longevity how others in a group view senior members in regard to leadership wisdom and teaching mating success interactions with mates and offspring how aging affects dominance changes in aggressive behavior and adaptability and death and dying At once instructive and compelling this theme spanning book reveals the complex nature of maturity in scores of social species and shows that animal behavior often displays the same diversity we find in ourselves Dagg s book should be a corrective to us all species that lose or ignore the contributions of their older members do so at their peril Literary Review of Canada Humans and chimps it turns out value age in sexual partners very differently In our species youth is prized but among chimps the reverse is the case The New York Review of Books     Bulletin - Bureau of Education United States.
