Reading Women's Lives Pearson Custom Publishing, 1997-09-01 **Reading Women's Lives**, 1998 Lists the contents of Simon Schuster's database of available readings on women's studies and reprints ten of those readings. The materials were originally selected by the Dept of Women's Studies at the Ohio State University. *Reading Women's Lives* PCP Editorial Staff, Women's Studies Department Staff, 2000-07-18 *Reading Women's Lives* is an on demand database publishing program consisting of a wide variety of material on women's studies. The articles and readings included in this database were selected by the Department of Women's Studies at The Ohio State University. **Reading Women's Lives**, 1997-03-01 *Reading Women's Lives* Ohio State University. Department of Women's Studies, 1997 *Reading women's lives* Women's Studies Department Ohio State University, 1999 Includes essays and articles that examine women's roles in society. Teaching Introduction to Women's Studies Carolyn DiPalma, Barbara S. Winkler, 1999-10-30 This edited collection addresses the institutional context and social issues in which teaching the women's studies introductory course is embedded and provides readers with practical classroom strategies to meet the challenges raised. The collection serves as a resource and preparatory text for all teachers of the course including experienced teachers, less experienced teachers, new faculty and graduate student teaching assistants. The collection will also be of interest to educational scholars of feminist and progressive pedagogies and all teachers interested in innovative practices. The contributors discuss the larger political context in which the course has become a central representative of women's studies to a growing although less feminist identified population. Increased enrollments and changes in student population are noted as a result in part of the popularity of Introduction to Women's Studies courses in fulfilling GED and diversity requirements. New forms of student resistance in a climate of backlash and changes in course content in response to internal and external challenges are also discussed. Evidence is provided for an emerging paradigm in the conceptualization of the introductory course as a result of challenges to racism, heterosexism and classism in women's studies voiced by women of color and others in the 1980s and 1990s. Sensationalist charges that women's studies teachers including those who teach the Introduction to Women's Studies course are the academic shock troops of a monolithic feminism are challenged and refuted by the collection's contributors who share their struggles to make possible classrooms in which informed dialogue and disagreement are valued. **Making Sense of Women's Lives** Michelle Plott, Lauri Umansky, 2000 *Making Sense of Women's Lives* presents a wide range of writings about women's lives in the United States. Michele Plott and Lauri Umansky have drawn on their experiences as both students and professors to assemble the collection. Seeking to provide as full a sampling from a diverse and intellectually vibrant field as one volume permits, the editors have also chosen writing that makes an enjoyable read. A few of the selections here represent the undisputed classics of the field. More of them constitute simply the works drawn from academic and nonacademic sources alike that could make a difference in understanding what it means to be female in America. *Making Sense of Women's Lives* is intended as the

primary text in Women's Studies courses. With that usage in mind, Plott and Umansky have provided brief introductions to each article to help students understand the author's perspectives. Thought and discussion questions follow each selection. The book contains as well numerous Flash Exercises suggestions for class exercises and activities. The editors have used these activities in their courses over the past decade in conjunction with readings in this volume and have found that the full complement of materials coalesces into an intellectually powerful introduction to Women's Studies. A Collegiate Press book.

Encyclopedia of Lesbian and Gay Histories and Cultures George Haggerty, Bonnie Zimmerman, 2003-09-02. Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology, this Encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavours. While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the Encyclopedia has been prepared in two separate volumes, assuring that both histories receive full unbiased attention and that a broad range of human experience is covered. Written by some of the most famous names in the field as well as new researchers, this is intended as a reference for students and scholars in all areas of study as well as the general public. *Women's Studies Quarterly* (96:3-4) Liza Fiol-Matta, Myrna
