H. Beaglehole, 2010-06-03 Dr Beaglehole gives a detailed chronological study of Munro's administrative career up to 1820 when he was appointed Governor of Madras This 1966 book discusses the background to Munro's ideas on administration and shows that similar ideas came to be adopted by the East India Company The Ryotwari System in Madras 1792-1827, Etc Nilmani MUKHERJEE, 1962 s governing body in London India and the British Empire Douglas M. Peers, Nandini Gooptu, 2017-02-09 South Asian History has enjoyed a remarkable renaissance over the past thirty years Its historians are not only producing new ways of thinking about the imperial impact and legacy on South Asia but also helping to reshape the study of imperial history in general The essays in this collection address a number of these important developments delineating not only the complicated interplay between imperial rulers and their subjects in India but also illuminating the economic political environmental social cultural ideological and intellectual contexts which informed and were in turn informed by these interactions Particular attention is paid to a cluster of binary oppositions that have hitherto framed South Asian history namely colonizer colonized imperialism nationalism and modernity tradition and how new analytical frameworks are emerging which enable us to think beyond the constraints imposed by these binaries Closer attention to regional dynamics as well as to wider global forces has enriched our understanding of the history of South Asia within a wider imperial matrix Previous impressions of all powerful imperialism with the capacity to reshape all before it for good or ill are rejected in favour of a much more nuanced image of imperialism in India that acknowledges the impact as well as the intentions of colonialism but within a much more complicated historical landscape where other processes are at work **An Economic History of Early Modern India** Tirthankar Roy, 2013-07-18 The death of the Mughal emperor Aurangzeb in 1707 until the annexation of Maratha territories by the British East India Company in 1818 was a period of transition for the economy of India This book focuses on these transitions and shows how a study of this period of Indian history contributes to a deeper understanding of the long run patterns of economic change in

India Momentous changes occurred in business and politics in India during the eighteenth century the expansion of trade with Europe and the collapse of the Mughal Empire resulting in the formation of a number of independent states This book analyses how these two forces were interrelated and how they went on to change livelihoods and material wellbeing in the region Using detailed studies of markets institutions rural and urban livelihoods and the standard of living it develops a new perspective on the history of eighteenth century India one that places business at the centre rather than the transition to colonial rule This book is the first systematic account of the economic history of early modern India and an essential reference for students and scholars of Economics and South Asian History The Pariah Problem Rupa Viswanath, 2014-07-29 Once known as Pariahs Dalits are primarily descendants of unfree agrarian laborers They belong to India's lowest castes face overwhelming poverty and discrimination and continue to be a source of public anxiety Drawing on a wealth of previously untapped sources this book follows the conception and evolution of the Pariah problem in public consciousness in the 1890s It shows how high caste landlords state officials and well intentioned missionaries conceived of Dalit oppression and prevented substantive solutions to the Pariah Problem with consequences that continue to be felt today The book begins with a description of the everyday lives of Dalit laborers in the 1890s and highlights the systematic efforts made by the state and Indian elites to protect Indian slavery from public scrutiny Protestant missionaries were the first non Dalits to draw attention to their plight However their vision of the Pariahs suffering as a result of Hindu religious prejudice obscured the fact that the entire agrarian political economic system depended on Pariah labor The Indian public as well as colonial officials came to share a view compatible with missionary explanations which meant all subsequent welfare efforts directed at Dalits focused on religious and social transformation rather than on structural reform Methodologically theoretically and empirically this book breaks new ground to demonstrate how events in the early decades of state sponsored welfare directed at Dalits laid the groundwork for the present day where the postcolonial state and well meaning social and religious reformers continue to downplay Dalits landlessness violent suppression and political subordination Canal Irrigation in Coastal ORISSA Baira Ganjan Dash, 2020-01-01 History of Canal Irrigation in Coastal Orissa 1866 1947 presents an authoritative description of the history of what was known as canal system in coastal colonial Orissa The text is a strictly original work and primarily based on the author's research on economic history of Orissa The main features of canal irrigation have been given in full detail for a clear cut understanding of canal irrigation Challenging earlier interpretations the book moves away from a largely colonial or masterly narrative to a realistic history.
