

little practical effect. The Nazis simply adopted a civilian 'uniform' of white shirt and black tie, and carried on as before.

In July 1932 Röhm created a yet larger SA agglomerate—the *Obergruppe* of which there were, at this stage, five. The SA now dominated the streets, disrupting the meetings of its rivals, and terrorising its opponents. Without actually challenging the government to a head-on confrontation, Hitler was able to blackmail and intimidate it with the size and discipline of his brown-shirted army.

On 30 January 1933, as a result of a combination of victory at the polls and back-stairs intrigues, Hitler was appointed Chancellor (Prime Minister) of Germany. The burning of the Reichstag building the following month was blamed on the Communists and used as the pretext for pushing through an enabling law which gave Hitler virtually dictatorial powers. Goering, Minister of the Interior for

Prussia, authorised the SA to act as a police auxiliary and to sweep all 'enemies of the state' into concentration camps.

At the Party Day of Victory at Nuremberg that September, some 120,000 uniformed men participated.

Röhm was made a member of the Reichs cabinet as Minister without Portfolio. The number of SA *Obergruppen* had increased to ten by January 1934. But time was running out for the SA's most celebrated Chief of Staff. Röhm made no attempt to conceal his differences with Hitler over the rôle of the SA: an advocate of 'the second revolution', he wished to transform it into an armed force to supplement, even replace, the regular Army. Hitler, on the contrary, felt that the SA had already fulfilled its task of crushing its political opponents and now, with its rowdy behaviour, was becoming something of an embarrassment. He already looked ahead to a future war of conquest for which a fully professional army was essential. The Army, for its part, regarded the SA with undisguised contempt as 'brown scum', and was eager to co-operate with Hitler in expansion and re-armament.

Recklessly foolhardy, or naive to an incredible degree, Röhm continued publicly to voice his criticisms of his leader and to back them with scarcely veiled threats. Matters came to a head in the spring of 1934 when Hitler learned that Röhm was secretly arming his Staff Guards, something he had expressly forbidden. During June the SA was ordered to take a month's leave. On 30 June Hitler cut down its entire leadership in a single decisive blow. Dozens of SA men (and others) were shot dead by SS squads working from death lists prepared by Hitler and Goering. Röhm was arrested and, in prison, offered the chance to shoot himself. When he refused, he was shot through the window of his cell by his SS guard.

In Röhm's place Hitler appointed a loyal but colourless SA *Obergruppenführer*, Viktor Lutze, like all previous incumbents of the post a former Army officer. Lutze had to preside over the emasculation of the SA. On 20 July 1934 the SS, until this time subordinate to the SA Supreme Command, was granted its independence. The Motor SA was hived off and amalgamated with its 'junior partner' the NSKK to become a separate body. The *Flieger* SA was integrated into the German Air Sport

The SA 1921-45: Hitler's Stormtroopers, 1990 **The SA 1921-45** David Littlejohn, 2001 *Hitler's Stormtroopers* Jean-Denis Lepage, 2016-12-19 The Sturm Abteilung der NSDAP SA assault battalion of the Nazi party created in August 1920 were squads of strong arms intended to protect the Nazis meetings to provoke disturbance to break up other parties meetings and to attack and assault political opponents as part of a deliberate campaign of intimidation After 1925 the name Braunhemden Brownshirts was also given to its members because of the colour of their uniforms Under the leadership of Hitlers close political associate Ernst Rhm the SA grew to become a huge and radical paramilitary force This book answers several questions concerning the SA How did the SA become a national movement What was the relationship between Rhm and Hitler What role did the SA play in providing Hitler with the keys to power After the seizure of power by the Nazis on January 30 1933 what was the function of the Brownshirts Why did the brutal and scandalous Ernst Rhm stand in Hitlers way What became of the SA after the bloody purge of June 1934 the notorious Night of the Long Knives *The Insurgent's Dilemma* David H. Rottman, 2013-08-20 The field equipment of the German Army in World War II was closely related to that used throughout World War I and earlier yet it was of relatively light weight ruggedly constructed well designed functional and generally of a high quality though this deteriorated in the later war years A high degree of design standardisation was maintained in most categories of equipment though materials and their colours often varied widely There were also many different specialisations for the various arms of service as well as theatres of combat such as the Afrikakorps in the Western Desert This title investigates all manner of German combat equipments throughout World War II from belt buckles to magazine pouches **World War II German Police**

Units Gordon Williamson,2012-01-20 The German Police were an essential arm of the Nazi regime as soon as Hitler achieved power the previous decentralized provincial system was unified into a single state apparatus integrated at the command levels with the SS While it may have been centrally controlled it was still separated into a bewildering range of different departments and functions many with their own uniform distinctions This book offers a concise introduction to the organization responsibilities uniforms and insignia of the various branches of this machinery of repression from Police generals to rural constables transport policemen and factory watchmen **Osprey Men-At-Arms** Martin

Hitler's Stormtroopers and the Attack on the German Republic, 1919-1933 Otis C. Mitchell,2013-10-29 Hitler was Nazi Germany and Nazi Germany was Hitler Though true to the extent that Hitler's personality leadership and ideological convictions played a massive role in shaping the nature of government and life during the Third Reich this popular view has led many writers since the end of World War II to overlook important aspects of Nazism while centering attention solely on Hitler's contributions to the Nazi Party This book seeks to fill a significant gap in the literature by concentrating particularly on the Nazi Party and its growth during the years of the Weimar Republic examining the paramilitary presence in Germany and Bavaria after World War I Most of the book describes the development of the Nazi Storm Detachment Sturmabteilung or SA before and after the failed Beer Hall Putsch in 1923 By the time Hitler came to power in January 1933 there were perhaps as many as 400 000 of these brown shirted men often self styled revolutionaries creating violence on a daily basis and destroying the underpinnings of the Weimar Republic The book features several photographs captured from the Nazi Party's Central Publishing Facility in Munich and passed to the author in the late 1950s **The Waffen-SS (1)** Gordon

Williamson,2012-03-20 Despite being disdained by the German Army's professional officer corps the military branch of the Nazi SS security organisation grew from an initial strength of only a handful of battalions at the outbreak of war in 1939 to hundreds of thousands of troops in dozens of divisions The battlefield reputation of the premier armoured and mechanised divisions would become second to none lavishly equipped and regarded as utterly reliable they were thrown into many desperate battles on both Western and Eastern fronts often achieving remarkable results Illustrated with rare photographs this first of four Men at Arms titles details the organisation uniforms and insignia of the Waffen SS Stormtroopers Daniel Siemens,2017-10-24 The first full history of the Nazi Stormtroopers whose muscle brought Hitler to power with revelations concerning their longevity and their contributions to the Holocaust Germany's Stormtroopers engaged in a vicious siege of violence that propelled the National Socialists to power in the 1930s Known also as the SA or Brownshirts these ordinary

men waged a loosely structured campaign of intimidation and savagery across the nation from the 1920s to the Night of the Long Knives in 1934 when Chief of Staff Ernst Röhm and many other SA leaders were assassinated on Hitler's orders. In this deeply researched history Daniel Siemens explores not only the roots of the SA and its swift decapitation but also its previously unrecognized transformation into a million member Nazi organization its activities in German occupied territories during World War II and its particular contributions to the Holocaust. The author provides portraits of individual members and their victims and examines their milieu culture and ideology. His book tells the long overdue story of the SA and its devastating impact on German citizens and the fate of their country.

Gorgeous War Tim Blackmore, 2019-10-29 *Gorgeous War* argues that the Nazis used the swastika as part of a visually sophisticated propaganda program that was not only modernist but also the forerunner of contemporary brand identity. When the United States military tried to answer Nazi displays of graphic power it failed. In the end the best graphic response to the Nazis was produced by the Walt Disney Company. Using numerous examples of US and Nazi military heraldry *Gorgeous War* compares the way the American and German militaries developed their graphic and textile design in the interwar period. The book shows how social and cultural design movements like modernism altered and were altered by both militaries. It also explores how nascent corporate culture and war production united to turn national brands like IBM, Coca Cola and Disney into multinational corporations that had learned lessons on propaganda and branding that were being tested during the Second World War. What is the legacy of apparently toxic signs like the swastika? The answer may not be what we hoped. Inheritors of the post Second World War world increasingly struggle to find an escape from an intensely branded environment to find a place in their lives that is free of advertising and propaganda. This book suggests that we look again at how it is our culture makes that struggle into an appealing one.

Gorgeous War *Wehrmacht Auxiliary Forces* Nigel Thomas, 2012-08-20 Though the Wehrmachtsgefolge (Armed Forces Auxiliaries) were generally inferior to their armed forces equivalents their contribution to the German war effort was far from negligible. Auxiliaries including the NSKK, Transportkorps, Speer Reichsarbeitsdienst and Organization Todt supported the Wehrmacht in their duties. In 1944 the strength of these organizations peaked at 3 800 000, 40% of the size of the armed forces. As they became increasingly aware of their importance the Auxiliaries introduced uniform and insignia modifications which made them virtually indistinguishable from their comrades in the armed forces. This book examines the organization, uniforms and history of the various Wehrmacht auxiliary forces.
