Sacraments In The New Liturgy:

Sacraments in the New Liturgy B. D. Killeen, 1976 The Sacraments of the Law and the Law of the Sacraments Judith Hahn, 2023-11-23 Sacraments are powerful actions With their help law religion and other social practices change our social world *Ecology, Liturgy, and the Sacraments* Irwin, Kevin W., 2023 This book is based on the principle that the liturgy is the enactment of the work of our redemption through the raising up acknowledging and revering elements of the cosmos the earth and our fellow creatures in our common home It is inspired by Pope Francis s encyclical *Laudato Si* On Care for Our Common Home in its entirety not just the sections on the Eucharist and liturgy because it presents a world view and requires respecting and caring for all creatures who share this planet It is illuminated by research into the history of sacramental theologies and the contemporary context of concern for the environment In effect there is no such thing as one Roman Catholic theology of the sacraments and more often than not differing contexts in the life of the church and the world required differing contents for sacramental theology The author argues that concern for the environment is a traditional Catholic premise based on the goodness of creation and that God is creator of heaven and earth He also argues that an ecological approach to sacramental theology can help to understand underlying factors and principles in the enactment of the liturgy of the sacraments about how and where God is discovered in the world in general and in the liturgy and sacraments in an intense and focused way through engagement with all who dwell in our common home Fulfilled in Christ: The Sacraments. A Guide to Symbols and Types in the Bible and Tradition Fr. Devin Roza, 2015-07-01 The Early Church read the Scriptures with the conviction that in the words of St Augustine The New Testament lies hidden in the Old and the Old Testament is unveiled in the New Drawing inspiration from how both the Apostles and Christ himself read the Old Covenant as referring to the New cf Luke 24 27 1 Peter 3 20 21 1 Corinthians 10 1 5 the Church found the Old Testament to be rich with figures or types that foreshadowed both the mysteries of the life of Christ and the mysteries or sacraments of the New Covenant And yet in modern times the study of types or typology has been largely abandoned by scholars due to the dangers of subjectivity and exaggeration How can typology be studied in a way that is objective and that avoids the excesses present in the past Fr Devin Roza seeks to offer a solution to these difficulties by asking the question According to the Scriptures and the living Tradition of the Church what are the types and symbols of the sacraments and what do they mean As authorized representatives of the living Tradition the Liturgy including the readings from the Church Fathers and the Catechism together with the Scriptures offer both the scholar and pastor the opportunity to study typology as the Catholic Church herself understands and prays it today in those texts the Church considers her own Fulfilled in Christ thus offers a comprehensive and readable summary of references to types and symbols of the sacraments in the Scriptures and the living Tradition of the Church as represented by the Liturgy and the Catechism The result is a highly objective scholarly and at the same time pastoral study of how the Church understands and lives the types and symbols of the

sacraments today **Toward a Trinitarian Theology of Liturgical Participation** R. Gabriel Pivarnik, 2013-01-01 Half a century after the Second Vatican Council called for the active participation of the laity in the liturgy a comprehensive theology of what liturgical participation actually means remains elusive While most sacramental studies have highlighted the role and action of Christ the conciliar reform and the theology that emanated from it call for a deeper trinitarian understanding of the liturgy and sacraments In this fascinating new work Gabriel Pivarnik identifies the major theological developments in the concept of active participation of the last century most notably in Mediator Dei and the Vatican II documents He also considers the reception of those developments Drawing especially on the work of Cipriano Vagaggini and Edward Kilmartin Pivarnik offers a lucid demonstration of how liturgical participation can be viewed in metaphysical soteriological and ecclesiological terms through the lens of a trinitarian narrative **The Liturgy That Does Justice** James L. Empereur, Christopher G. Kiesling, 2006-02-09 Fr Jake Empereur S J vicar and liturgist at the San Fernando Cathedral in San Antonio Texas was for many years a professor of systematic and liturgical theology at the Jesuit School of Theology at Berkeley and the Graduate Theological Union During that time he founded the Institute for Spirituality and Worship a nine month renewal program which has trained people from all around the world He was also the founding editor of Modern Liturgy Magazine that still continues today under the name of Ministry and Liturgy At Berkeley he was very much involved in the area of theology and the arts He also taught courses in the enneagram and spiritual direction In 1994 he moved to San Antonio Texas to work in Hispanic ministry at the San Fernando Cathedral and to be the cathedral liturgist There he continues his work in teaching and writing while being engaged as a full time parish priest He is the author of several books and articles in the field of liturgy and sacraments His latest books are The Enneagram and Spiritual Direction and Spiritual Direction and the Gay Person His latest book with the title of La Vida Sacra Hispanic Sacramental Theology should appear in 2006 Christopher G Kiesling is also the author of _The Spirit and Practice of the Liturgy_ _The Future of the Christian Sunday_ and _Celibacy Prayer and Friendship_ T&T Clark Handbook of Sacraments and Sacramentality Martha Moore-Keish, James Farwell, 2022-12-29 Introducing readers to the contemporary field of sacramental theology this volume covers the biblical and historical foundations a survey of the state of the discipline and a collection of constructive essays representing major themes practices and approaches to sacraments and sacramentality in the contemporary world The volume starts with a set of foundational essays that offer broad introduction to the field of sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space time ritual action music and word all as aspects of what Christians have termed sacramental reality The third set of essays includes attention to each of the seven practices that have most commonly been termed sacraments in Christian traditions baptism eucharist Lord s Supper confirmation confession forgiveness and reconciliation marriage

ordination and anointing The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines critical race theory queer theory comparative theology and disability studies

Christian Sacraments in a Postmodern World Kenan B. Osborne, 1999 Radically rethinks sacramental life and theology from the standpoint of postmodern philosophy **T&T Clark Companion to Liturgy** Alcuin Reid, 2015-12-17 In the decades following the Second Vatican Council Catholic liturgy became an area of considerable interest and debate if not controversy in the West Mid late 20th century liturgical scholarship upon which the liturgical reforms of the Second Vatican Council were predicated and implemented no longer stands unquestioned The liturgical and ecclesial springtime the reforms of Paul VI were expected to facilitate has failed to emerge leaving many questions as to their wisdom and value Quo vadis Catholic liturgy This Companion brings together a variety of scholars who consider this question at the beginning of the 21st century in the light of advances in liturgical scholarship decades of post Vatican II experience and the critical re examination in the West of the question of the liturgy promoted by Benedict XVI The contributors each eminent in their field have distinct takes on how to answer this question but each makes a significant contribution to contemporary debate making this Companion an essential reference for the study of Western Catholic liturgy in history and in the light of contemporary scholarship and debate *Sacraments of Initiation, Second Edition* Liam G. Walsh OP, 2022-01-07 This title is no longer available The original edition of this book presented a theology of sacraments that emerged out of a Church stirred into new life by the Second Vatican Council It is a theology that can claim to have been continuously received in the Catholic Church since then It is the theology that has been widely practiced and preached in pastoral life has been given catechetical shape in the Catechism of the Catholic Church However during the past 23 years some trends developed in pastoral theology and practice that were taking directions that seemed hard to reconcile with the decisions of the Council This new edition examines the way some theological counter currents have developed over those years both in theory and in practice The sacramental theology contained in this study maintains the broad on going agreement between what it proposes and mainstream Church teaching and practice The book examines the tradition of sacramental practice and teaching Biblical and historical studies continue to uncover new riches of the tradition and recent findings are discussed A careful listening to the tradition of rite and word is truly indispensable for sacramental theology It was out of such listening that Vatican II teaching on sacraments emerged and provision was made for recovering the full richness of the tradition Not all of the recent theological speculations and pastoral strategies given an equally serious acknowledgement to the tradition The liturgies that are studied in this book have been given to the Church in the wake of Vatican II The historical chapters will show the liturgies to be a contemporary expression of fidelity to core values of the Apostolic Tradition The chapters on the rite of each sacrament are mainly descriptive and historical but also include anthropological reflections that unveil the human significances of the various rites The chapters on the word examine the biblical and traditional word spoken in the churches

about each sacrament and conclude with what is called a systematic essay The bibliography has updated to reflect the development in the field

Word and Sacrament Paul Galbreath, 2024-09-10 In this critical work liturgical scholar Paul Galbreath brings together key theological insights and historical analysis to offer a theological roadmap of where the Reformed tradition has traveled in order to propose directions for where it is heading From the time of John Calvin until today Reformed theology and worship have acknowledged Word and sacrament as central to its Christian identity Yet the ways in which Scripture is read and used in worship and the ways in which baptism and the Lord's Supper are experienced have varied and developed throughout the history of the Reformed church By exploring key liturgies confessions directories for worship and theological movements this book examines common theological themes and commitments that have undergirded worship as well as ways that our understandings and practices have developed in light of new contexts and challenges Historical insights from the Reformed tradition provide a basis for exploring patterns of worship that maintain the commitment to Word and sacrament while proposing new ways in which Scripture baptism and the Lord's Supper can be experienced in the postmodern context The study of how theological insights have prompted liturgical change provides a roadmap for how worship can adapt to address significant concerns that we face in our communities congregations and personal lives such as caring for the earth and responding to the needs of the poor Altogether Word and Sacrament offers constructive and practical directions that will lead to congregational renewal Martha Moore Keish writes in her foreword Shaped by his years of serving as a pastor theologian and seminary professor deeply engaged in liturgical and sacramental renewal Galbreath argues that our theological presuppositions shape liturgical development This was true for Calvin in the sixteenth century for Barth in the early twentieth century for the formation of the Worshipbook and the Book of Common Worship in the late twentieth century and it remains true today Given this reality he argues we need to make conscious theological choices for the language and images that we use in worship
