Sacred Journeys The Anthropology Of Pilgrimage:

Sacred Journeys Alan Morinis, 1992-10-26 This interdisciplinary collection is a new landmark in the study of the world's pilgrimage traditions. Experts from many disciplines approach the subject from a variety of perspectives that are designed to lead to the understanding of pilgrimage in general. Specific case studies represent most of the major religious traditions of the world. Anthropologists, historians, sociologists, social psychologists, and students of religion will find that these theoretical and case studies suggest new areas for further research. Alan Morinis presents a many-faceted examination of sacred journeys in India, Southeast Asia, the Pacific, West Asia, Africa, North America, and the Caribbean. The introduction provides a framework for the case studies which follow. In-depth accounts of patterns of pilgrimage ranging from Hindu practices to a comparison of Catholic and Baptist pilgrimage in Haiti and Trinidad to a narration of a Maori sacred journey provide valuable comparative information. Pilgrimage is viewed in relation to methodological issues and an analysis is offered showing how pilgrimage and tourism are related. Victor Turner's foreword and Colin Turnbull's postscript lend authoritative weight to this increasingly significant field of study.

Intersecting Journeys Ellen Badone, Sharon R. Roseman, 2004-09-23 *Intersecting Journeys* offers ethnographic analysis of the conflicts over resources, meanings associated with sacred sites such as Lourdes, Rome, Jerusalem, as well as the sense of community they inspire.

Memory and Desire Peter Wagstaff, 2023-04-12 This study challenges the conventional view of R. T. de la Bretonne as a chronicler of eighteenth-century France and notorious exponent of *la littérature galante* to provide both students and scholars with a fresh analysis focusing on two themes: autobiography and utopianism, which feature prominently in his writing. It suggests that each is the product of similar impulses reflecting common polarities between public and private self and others, past and future. In tracing R. T.'s persistent but frustrated attempts to reconcile the conflicting elements of the world he inhabits, rural and urban, old and new, stable and changing, this volume analyses the failure of his utopian dream of a well-ordered and harmonious society. By exploring his absorption in the autobiographical project and in particular *Monsieur Nicolas* ou *le cœur humain dévoilé*, it offers an interpretation of his work as a sustained reflection on selfhood and on the power of memory which enables R. T. to create within the confines of the text a utopian space where self and world are reconciled and time and space no longer count.

Redefining Pilgrimage Antón M. Pazos, 2016-04-22 Exploring what does and what does not constitute pilgrimage, *Redefining Pilgrimage* draws together a wide variety of disciplines including politics, anthropology, history, religion, and sociology. Leading contributors offer a broad range of case studies from a wide geographical area, exploring new ways of approaching pilgrimage beyond the classical religious model. Re-thinking the global phenomenon of pilgrimages in the 21st century, this book offers new perspectives to redefine pilgrimage.

Pilgrimage David Souden, 2001 Following ancient footsteps, today's pilgrims travel not as tourists but as spiritual seekers with a sense that their destination has sacred meaning far beyond its literal surroundings. *Pilgrimage* traces twenty great age-old journeys to sites all over the world. It

evokes the aspirations of pilgrims past and present and describes the beauty and strangeness of the roads they travel Some journeys are arduous the long trek to Mount Khailasa in Tibet for instance or the one to Mecca every devout Muslim dreams of making Others are poignant such as the one the dwindling number of Native American Zuni people make to Corn Mountain New Mexico in the tradition of their once flourishing civilization But all such journeys whether to Jewish Muslim Christian Jerusalem or to Hindu Pandharpur whether to the Black Madonna in Czestochowa Poland or to the Buddhist shrines in Kyoto Japan whether to the healing waters of Lourdes France or to the Mormon Temple Square in Salt Lake City Utah are enacted in dramatic affirmation to achieve transformation Illustrated in full color this book is a stunning celebration of those journeys

The Covenant's Veil Alexandra Sellassie Antohin, 2024-12-03 An exploration of how contemporary Ethiopian Orthodox Christianity preserves and protects sacred ideas and relationships Ethiopia stretches her hand upon God the narrative of Sheba and Solomon the material presence of the Ark of the Covenant in Axum For Ethiopian Orthodox Christians these classic understandings of the covenant are prized narratives For historical and scriptural scholarship a central focus is to explain the characteristics of Ethiopian Orthodox Christianity as retaining key Old Testament qualities to demonstrate a wide chasm with post Enlightenment secular societies By widening the lens of analysis to include a body of knowledge best accessed through Orthodox Christian devotional culture The Covenant's Veil offers an interpretation that challenges the reader to adopt a novel understanding of these well established ideas The multiple complex ways that the covenant idea appears as ideas idioms customs symbols and articulations in the lifeworld of Ethiopian Orthodox are the

starting point for The Covenant's Veil Ethiopia's story of the covenant is a domain of nested reference points that inspires celebrants through their devotional activities to expand and elaborate upon a network of meanings Covenant refractions within Ethiopian Orthodox devotional culture not only demonstrate the established pattern of magnifying spiritual importance through symbolic similes and analogic pairings but perform a vital function for keeping traditional knowledge alive and current Detailed ethnographic material arranges devotional activities such as mahaber rituals of communing and processions of tabots on feast days It describes habits of making vows presenting oneself at church and telling stories of saints and their covenants Thinking about the covenant concept as refracting the bending motion of points encountering a common surface is a way to conceive how these reference points reveal a connective thread what is theorized as an Ethiopian Orthodox method of elaboration Identifying when and where elaboration of tradition is happening provides an opportunity to demonstrate how Orthodox Christianity is integral to the lives and actions of its faithful By reframing covenant as expanding beyond Ethiopian religious and political exceptionalism The Covenant's Veil provides us with a timely reappraisal of this concept in light of increased social fragmentation and the urgency for negotiating harmony in a country with many forms of diversity

Apprenticeship Pilgrimage Lauren Elizabeth Miller,Jonathan S. Marion,2017-12-29 Lauren Miller Griffith and Jonathan S Marion introduce the concept of apprenticeship pilgrimage to help explain why performers travel to places both near and far in an attempt to increase both their skill and their legitimacy within various genres of art and activity What happens when your skill level surpasses local training opportunities whether in dance martial arts or other skills and practices Apprenticeship Pilgrimage provides a new and exciting model of apprenticeship pilgrimages including local regional opportunistic and virtual that practitioners undertake to develop embodied knowledge skills and legitimacy unavailable at home For most people there is a limit to how much training is available from the teachers and classes at home As skill and know how increase the resources and training opportunities available become limits on one s learning Similarly a practitioner s legitimacy may be suspect without exposure to

appropriate cultural context such as ties with the homeland of certain dance forms or martial arts Whether for skill alone or activity specific legitimacy individuals may feel compelled to travel for training Such travelers see themselves quite differently from other tourists and the seriousness with which they pursue their journeys makes it appropriate to call them pilgrims Given the goal of learning from and developing their own skills by training with experts at their destinations apprenticeship pilgrims is even more appropriate Rather than focus on specific geographic regions or genres of apprenticeship this book builds a robust theoretical framework for understanding the role of travel for developing expertise in embodied genres This book links and expands on the existing scholarship concerning anthropologies of education and tourism but takes new strides in exploring the global circumstances wherein skill development requires travel Throughout the authors use apprenticeship pilgrimage as a robust new framework for considering the interrelated roles of going learning and doing for identity construction within contemporary globalization For more information check out A Conversation with Lauren Griffith and Jonathan Marion
