Religious Objects in Museums is the first book to examine how religious objects are transformed when they enter the museum and how they affect curators and visitors. It examines the full range of meanings that religious objects may bear as scientific specimen, sacred icon, work of art or historical record. Showing how objects may be used to argue a point, tell a story or promote a cause, may be worshipped, ignored or seen as dangerous or unlucky, this highly accessible book is an essential introduction to the subject.

Law and Religion in Europe Norman Doe, 2011-08-04. Each state in Europe has its own national laws which affect religion and these are increasingly the subject of political and academic debate. This book provides a detailed comparative introduction to these laws with particular reference to the states of the European Union. A comparison of national laws on religion reveals profound similarities between them. From these emerge principles of law on religion common to the states of Europe and the book articulates these for the first time. It examines the constitutional postures of states towards religion, religious freedom and discrimination and the legal position, autonomy and ministers of religious organizations. It also examines the protection of doctrine and worship, the property and finances of religion, religion education and public institutions and religion marriage and children as well as the fundamentals of the emergent European Union law on religion. The existence of these principles challenges the standard view in modern scholarship that there is little commonality in the legal postures of European states towards religion; it reveals that the dominant juridical model in Europe is that of cooperation between State and religion. The book also analyses national laws in the context of international laws on religion, particularly the European Convention on Human Rights. It proposes that national laws go further than these in their treatment and protection of religion and that the principles of religion law common to the

states of Europe may themselves represent a blueprint for the development of international norms in this field The book provides a wealth of legal materials for scholars and students The principles articulated in it also enable greater dialogue between law and disciplines beyond law such as the sociology of religion about the role of religion in Europe today The book also identifies areas for further research in this regard pointing the direction for future study *Sacred Space in Israel and Palestine* Marshall J. Breger, Yitzhak Reiter, Leonard Hammer, 2013-06-19 Religion and religious nationalism have long played a central role in many ethnic and national conflicts and the importance of religion to national identity means that territorial disputes can often focus on the contestation of holy places and sacred territory Looking at the case of Israel and Palestine this book highlights the nexus between religion and politics through the process of classifying holy places giving them meaning and interpreting their standing in religious and civil law within governmental policy and within international and local communities Written by a team of renowned scholars from within and outside the region this book follows on from Holy Places in the Israeli Palestinian Conflict Confrontation and Co existence to provide an insightful look into the politics of religion and space Examining Jerusalem's holy basin from a variety of perspectives and disciplines it provides unique insights into the way Jewish Christian and Muslim authorities scholars and jurists regard sacred space and the processes grass roots and official by which spaces become holy in the eyes of particular communities Filling an important gap in the literature on Middle East peacemaking the book will be of interest to scholars and students of the Middle East conflict conflict resolution political science urban studies and history of religion **The Making of a Postsecular Society** Massimo

Rosati, 2016-03-03 Drawing on the thought of Durkheim this volume focuses on societal changes at the symbolic level to develop a new conceptualisation of the emergence of postsecular societies Neo Durkheimian categories are applied to the case of Turkey which in recent years has shifted from a strong Republican and Kemalist view of secularism to a more Anglo Saxon perspective Turkish society thus constitutes an interesting case that blurs modernist distinctions between the secular and the religious and which could be described as postsecular Presenting three symbolic case studies the enduring image of the founder of the Republic Atatürk the contested site of Ayasofia and the remembering and commemoration of the murdered journalist Hrant Dink The Making of a Postsecular Society analyses the cultural relationship that the modern Republic has always had with Europe considering the possible implications of the Turkish model of secularism for a specifically European self understanding of modernity Based on a rigorous construction of theoretical categories and on a close scrutiny of the common challenges confronting Europe and its Turkish neighbour long considered other with regard to the accommodation of religious difference this book sheds light on the possibilities for Europe to find new ways of arranging the relationship between the secular and the religious As such it will appeal to scholars of social theory the sociology of religion secularisation and religious difference and social change *Pilgrims and Sacred Sites in China* Susan Naquin, Chün-Fang Yü, 2023-11-15 Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage This

volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present From the perspectives of literature art history religion politics and anthropology the essays focus on China s most famous pilgrimage mountains as well as lesser known sites Until now China has been scarcely represented in the burgeoning comparative literature on pilgrimage This volume remedies that omission discussing the interaction between pilgrims and sacred sites from the tenth century to the present From the perspec     American Sacred Space David Chidester,Edward T.
