Unwinnable War Elan Journo, 2009-09-29 Eight years after 9 11 and in the shadow of two protracted U S military campaigns

in the Middle East the enemy is not only undefeated but emboldened and resurgent What went wrong and what should we do going forward Winning the Unwinnable War shows how our own policy ideas led to 9 11 and then crippled our response in the Middle East and it makes the case for an unsettling conclusion By subordinating military victory to perverse allegedly moral constraints Washington s policy has undermined our national security Owing to the significant influence of Just War Theory and neoconservatism the Bush administration consciously put the imperative of shielding civilians and bringing them elections above the goal of eliminating real threats to our security Consequently this policy left our enemies stronger and America weaker than before The dominant alternative to Bush esque idealism in foreign policy so called realism has made a strong comeback under the tenure of Barack Obama But this nonjudgmental supposedly practical approach is precisely what helped unleash the enemy prior to 9 11 The message of the essays in this thematic collection is that only by radically re thinking our foreign policy in the Middle East can we achieve victory over the enemy that attacked us on 9 11 We need a new moral foundation for our Mideast policy That new starting point for U S policy is the moral ideal championed by the philosopher Ayn Rand rational self interest Implementing this approach entails objectively defining our national interest as protecting the lives and freedoms of Americans and then taking principled action to safeguard them The book lays out the necessary steps for achieving victory and for securing America s long range interests in the volatile Middle East **Jihad and International Security**

J. Roshandel, S. Chadha, 2006-10-02 This book explores the global jihad movement and its emergence in the latter half of the twentieth century Roshandel and Chadha investigate the nature and extent of this threat tracing its religious and ideological roots relevant history and its goals **The Face of Africa** Stan Chu Ilo, 2012-12-01 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even

though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development

The History of Kuwait Michael S. Casey, 2007-08-30

The New Dimension of International

Terrorism Stefan M. Aubrey, 2004 The events of September 11 2001 confronted the United States and the rest of the World with the reality of a new dimension of international terrorism This new dimension did not start nor end with the attacks against the World Trade Center or the Pentagon but began in the 1990s This study examines the new dimension of international terrorism contrasting it with the classical terrorism the predominantly left wing terrorist movements of the 1960s 1980s in Europe which were a subset of the bipolar geo political arena The author establishes the relationship of

radical Islamist movements to the terrorist groups of the new dimension principally focusing on Al Qaeda in providing the motivation for committing catastrophic terrorist acts looks at the shadowy world of terrorist financing and makes suggestions regarding international counter terrorist strategies
