Taylor,1996-04 A unique volume Inventing Times Square approaches the subject of twentieth century American city culture through a multidimensional examination of one quintessential urban space Times Square Ranging in time from 1905 when the crossroad was given its present name through to the current plans for redevelopment the authors examine Times Square as economic hub real estate bonanza entertainment center advertising medium architectural experiment and erotic netherworld Though the volume centers on Times Square the essays venture much further into urban history and American social history revealing in the process how Times Square reflected even epitomized America as it became an urban consumer culture **The Sacred Spring** Nicolas Powell,1974 **A History of Western Architecture** David Watkin,2005 The history of Western architecture from the earliest times in Mesopotamia and Egypt to the dramatic impact of CAD on architectural practice at the beginning of the 21st century *The Structurist* ,1982 **The Mahler Companion** Donald Mitchell,Andrew Nicholson,1999 The Mahler Companion consists of a collection of original essays on Mahler written especially for the occasion by Mahler specialists from around the world It addresses all parts of his life and work symphonies songs and song cycles each of which is discussed individually his conducting activities compositional habits and aesthetic development and sets these within the cultural and political context of his time In addition it responds to the global spread of this remarkable composer s music and an almost universal fascination with it by attempting to give an account of the reception of Mahler s music in many of the countries in which it eventually came to flourish eg Holland France Japan Russia England and the United States This particular series of chapters reveals that the Mahler Phenomenon earned its description principally in the years after the Second World War but also that the Mahler revival was already well under way pre war perhaps especially in England and the States and most surprisingly of all Japan The selection of contributors who between them cover all Mahler s musical output shows that here too this volume significantly crosses national boundaries The very diverse approaches analyses and commentaries amply

illustrated with music examples are evidence of the uniquely rich and complex character of a music that spans more than one culture and more than one century The volumes includes the most significant and up to date Mahler research and debate and illumines some hitherto unexplored areas of Mahler s life eg his visit to London in 1892 his sculptor daughter Anna and the hall in which the Seventh Symphony was first performed in Prague in 1908 It has often been claimed that Mahler born in 1860 was in fact a prophet of much that was to come in the 20th century His later works undeniably anticipate often with dazzling virtuosity many of the principal techniques and aesthetics of the new century only the first decade of which he lived to see Small wonder that among his earliest admirers was a collective of some of the most important and innovative composers of our time Schoenberg Berg and Webern Their successors Copland Shostakovich and Britten to name a few were to range across contrasting cultures and national frontiers Drawing on the best resources and the most up to date information about the composer this volume fulfils the need in Mahler literature for a genuinely comprehensive guide to the composer and will be the authoritative guide for Mahler enthusiasts for years to come Arts & Humanities Citation Index,1988 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **The Sacred Spring** Nicolas Powell,1974 *American Architecture* Robert A.
