Elliott, 2022-06-24 This book explores the issue of ecclesiastical authority in Romanesque sculpture on the portals and other sculpted gateways of churches in the north Italian region of Lombardy Gillian B Elliott examines the liturgical connection between the ciborium over the altar the most sacred threshold inside the church and the sculpted portals that appeared on church exteriors in medieval Lombardy In cities such as Milan Civate Como and Pavia the liturgy of Saint Ambrose was practiced as an alternative to the Roman liturgy and the churches were constructed to respond to the needs of Ambrosian liturgy Not only do the Romanesque churches in these places correspond stylistically and iconographically but they were also linked politically in an era of intense struggle for ultimate regional authority.
