*Sacred Texts of World Religions* Edited by: Kisak,2015-09-01 Religious texts also known as scripture scriptures holy writ or holy books are the texts which various religious traditions consider to be sacred or central to their religious tradition Many religions and spiritual movements believe that their sacred texts are divinely or supernaturally revealed or inspired Attitudes towards sacred texts differ widely between religions Some religions make written texts widely and freely available while others hold that sacred secrets must remain hidden from all but the loyal and the initiate Most religions promulgate policies defining the limits of the sacred texts and controlling or forbidding changes and additions Some religions view their sacred texts as the Word of God often contending that the texts are inspired by God and as such should never be altered Translations of texts may receive official sanction but an original sacred language often has defacto absolute or exclusive authority This book serves as a reference guide that lists the works that the corresponding religions are based upon

**The Twenty-first Century Confronts Its Gods** David J. Hawkin, 2012-02-01 This book penetrates the assumptions of Western technological society and exposes the powers that govern it. The contributors argue that it is a mistake to think that religion and belief have been relegated to the private sphere and are no longer important in the public and political domains. They assert that the twenty-first century has a set of new gods: the powers of globalization, technology, the market, and military might that reign alongside those of traditional religions. These are the forces to which the modern era has granted ultimacy. This book looks at how major religions such as Christianity, Islam, Judaism, Hinduism, and Buddhism play an important role in politics and society on both the global and local levels. The new gods of technology, globalization, and war are shown to exacerbate the existing cultural divisions and religious strife that mark our time. By understanding the importance of that which is held sacred, whether traditional belief or modern practice not acknowledged as belief, the contributors help us to comprehend our present situation and challenges.

**Fifty Years of Religious Studies in Canada** Harold Coward, 2014-11-07 In Canadian universities in the early 1960s no courses were offered on Hinduism Buddhism or Islam Only the study of Christianity was available usually in a theology program in a church college or seminary Today almost every university in North America has a religious studies department that offers courses on Western and Eastern religions as well as religion in general Harold Coward addresses this change in this memoir of his forty five year career in the development of religious studies as a new academic field in Canada He also addresses the shift from theology classes in seminaries to non sectarian religious studies faculties of arts and humanities the birth and growth of departments across Canada from the 1960s to the present the contribution of McMaster University to religious studies in Canada and Coward's Ph D experience there the Centre for Studies in Religion and Society at the University of Victoria and the future of religious studies as a truly interdisciplinary enterprise Coward's retrospective while not a history as such documents information from his varied experience and wide network of colleagues that is essential for a future formal history of the discipline His story is both personally engaging and richly informative about the development of the field

*Canonical Texts: Bearers of Absolute Authority - Bible, Koran, Veda, Tipiaka* Rein Fernhout, 2023-12-28 This book introduces a new approach to the comparative study of sacred texts here the Christian Bible the Islamic Koran the Hindu Veda and the Buddhist Tipiaka The author demonstrates that in spite of their great differences these works show a fundamental analogy Considered as canonical within their own religious context each text possesses absolute authority in comparison with other authoritative texts from their respective religious traditions This fundamental analogy allows one to describe the growth and history of these canons step by step as a process that takes place in analogous phases that are clearly distinguishable The author follows a strictly phenomenological method he tries to understand the development of these canons in terms of a potential that lies within the phenomena themselves i e the texts while refraining in any way from assessing their claim to absolute authority In part I the author describes the development from the revelation of the texts to a climax with respect to reflection on the canons This climax has been reached in all four cases Part II investigates the crisis that these canons are currently undergoing as a consequence of the modern intellectual climate Can we expect that this crisis will be overcome by the canons And if so will they be in a position of mutual exclusion or will they form a sort of unity such as for example the Old and New Testament in the Christian Bible Finally the author traces what the religions themselves have postulated about the future of their

respective canons The result is surprising the current crisis is only faint reflection of what according to age old predictions awaits the canons in the future      **Fighting Words** John Renard,2012-12-31 One of the critical issues in interreligious relations today is the connection both actual and perceived between sacred sources and the justification of violent acts as divinely mandated Fighting Words makes solid text based scholarship accessible to the general public beginning with the premise that a balanced approach to religious pluralism in our world must build on a measured well informed response to the increasingly publicized and sensationalized association of terrorism and large scale violence with religion In his introduction Renard provides background on the major scriptures of seven religious traditions Jewish Christian including both the Old and New Testaments Islamic Baha i Zoroastrian Hindu and Sikh Eight chapters then explore the interpretation of select facets of these scriptures focusing on those texts so often claimed both historically and more recently as inspiration and justification for every kind of violence from individual assassination to mass murder With its nuanced consideration of a complex topic this book is not merely about the religious sanctioning of violence but also about diverse ways of reading sacred textual sources      **Religious Therapeutics** Gregory P. Fields,2002-01-01 Religious therapeutics explores the relationship between psychophysical health and spiritual and health presents a model for interpreting connections between religion and medicine in world traditions This model emerges from the work s investigation of health and religiousness in classical yoga Ayurveda and Tantra Three Hindu traditions note worthy for the central role they accord the body Author gregory P Fields compares Anglo European and Indian philosophies of body and health and uses fifteen determinants of health excavated from texts of ancient hindu medicine to show that health concerns the person not the body or body mind alone      **Hindu Ethics** Harold Coward,Julius Lipner,Katherine K. Young,1989-01-01 Modern Western approaches to India often have focused on metaphysics at the expense of ethics leading many to see Hinduism as only concerned with the esoteric and the otherworldly The chapters of this book offer case study explorations that are selected and presented to invite comparisons with the modern West Such comparisons will help to remove the apparent otherworldly nature of Hindu thought from the minds of Western readers as well as give depth and new significance to Indian ideas in the areas of medical ethics social ethics and human rights The case studies demonstrate that Indian thought has not ignored deep reflection on ethical problems that are presenting serious challenges to the modern world They demonstrate that Hinduism has a firm grounding in ethics even when the most difficult questions are raised      **Yoga and the Luminous** Christopher Key Chapple,2008-10-30 A fresh look at Yoga philosophy      **Aztec Religion and Art of Writing** Isabel Laack,2019-03-27 Winner of the 2020 Award for Excellence in the Study of Religion Historical Studies In her groundbreaking investigation from the perspective of the aesthetics of religion Isabel Laack explores the religion and art of writing of the pre Hispanic Aztecs of Mexico Inspired by postcolonial approaches she reveals Eurocentric biases in academic representations of Aztec cosmovision ontology epistemology ritual aesthetics and the writing system to provide a powerful interpretation of the Nahua sense of reality Laack transcends the

concept of sacred scripture traditionally employed in religions studies in order to reconstruct the Indigenous semiotic theory and to reveal how Aztec pictography can express complex aspects of embodied meaning Her study offers an innovative approach to nonphonographic semiotic systems as created in many world cultures and expands our understanding of human recorded visual communication This book will be essential reading for scholars and readers interested in the history of religions Mesoamerican studies and the ancient civilizations of the Americas This excellent book written with intellectual courage and critical self awareness is a brilliant multilayered thought experiment into the images and stories that made up the Nahua sense of reality as woven into their sensational ritual performances and colorful symbolic writing system Dav d Carrasco Harvard University
