Spirituality Kees Waaijman, 2002 This textbook is a systematic guide to the extensive field of spirituality. Kees Waaijman charts the multiform phenomenon of spirituality: the spirituality of ordinary people, the great spiritual traditions and the force of counter movements. From the foundation of this survey he answers questions like: What exactly is spirituality? What forms can a scholarly approach take? Finally the book provides methodic access to the study of spirituality focusing on the following questions: Which are the different forms of spirituality and how can we describe them? How can spiritual texts be given a reliable reading? Which themes can be distinguished in the field of spirituality and what would be a meaningful way to address them? What do we mean by spiritual guidance and what can we learn from it? This textbook has no equal. It is indispensable to scholars wishing to study the subject but also to others who want to learn about spirituality.

Sacred Dwelling Wendy M. Wright, 2007 In this unique approach to family spirituality Wendy Wright reveals the beauty and depth of the Christian spirit inherently present in our ordinary lives. Using the home as a backdrop she brings its various areas: kitchen, garden, attic and bedroom to name a few into her exploration of the human spirit and human relationships, shedding new light on the significance of the family as the domestic church. Every reader will be able to recognize themselves and their families in this lyrical insightful and yet completely down to earth book. Book jacket.

It combines scholarly research and pastoral applications. The first part focuses on three influences on her life: experiences and images, her study of the mystics and her work with spiritual guides. Christian Marriage and Family Michael G. Lawler, William P. Roberts, 1996 A definite shift in the Catholic Church's understanding of marriage took place at Vatican Council II Rather than perceiving marriage as a contract whose primary purpose was the procreation of children the council spoke of marriage as an intimate partnership of life and love Then recapturing an earlier tradition it went on to describe the family as a domestic church In this book seven theologians who have lectured and written extensively on marriage probe the rich theology of marriage and family that emerged from Vatican II and explore some of the implications that flow from this theology Part One reflects on the sacramentality of marriage and on the family as a church of the home Part Two examines the pastoral implications this has for marital and family ministry and spirituality BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

The Contemporary American Family

Teresa Chandler Sabourin, 2003-04-07 I find the book extremely attractive The dialectical perspective provides a consistent avenue from which to address the diversity structural cultural developmental and functional in Contemporary American Families Whereas this perspective does not claim to solve the tensions in families it offers marvelous insights into the nature and changing diversities in families I believe this text is particularly well suited for reasonable discussion of serious issues and provides valuable insights into the nature of families and their functioning Vince Bloom California State University Fresno

Teresa Chandler Sabourin invites students to appreciate the mystery complexity and diversity of the contemporary American family Resisting simplistic descriptions and normative descriptions Sabourin challenges us to open our minds and hearts to the rich humane variety of family connections as we search for ways to accommodate the competing demands and conflicting pressures experienced in our most cherished relationships Starting from the source of her own experience Sabourin addresses both the darker abusive side of family relationships as well as the lighter spiritual side of intimacy and love The Contemporary American Family successfully addresses the need for an accessible and teachable treatment of the dialectical perspective on close relationships This is a book that will encourage students of family communication to respect diversity question taken for granted assumptions and share the pain and joy and of their own family experiences Art Bochner University of South Florida

Increasingly diverse in structure and culture contemporary families defy explanation by many traditional linear methods In order to understand the enormous impact that diversity has on the behaviors and relationships within the family scholars and students need a means to embrace rather than solve relational contradictions The Contemporary American Family A Dialectical Perspective on Communication and Relationships recognizes that families are both close and distant stable and changing amenable and uncontrollable Teresa Chandler Sabourin employs a dialectical approach acknowledging that a family's contradictions and relational tensions may be the determining factor in its interaction Writing in a direct and simple style Sabourin uses this innovative theoretical position to address four types of family diversity structural cultural developmental and functional Sure to stimulate discussion and further research this provocative volume examines The dialectic process in the context of family communication and relationships The redefined more inclusive American family Contemporary family structures Cultural diversity in the family Issues such as alcoholism domestic violence and divorce Spirituality within the family Designed as a supplemental text for upper level undergraduate and graduate courses in Family Communication The Contemporary American Family is also an invaluable resource for students in Family Studies and Women's Studies courses

Modern Catholic Social Teaching Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the

biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII's *Rerum Novarum*. The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address. This second edition includes revised and updated essays as well as two new commentaries: one on Pope Benedict XVI's encyclical *Caritas in Veritate* and one on Pope Francis's encyclical *Laudato Si'*. An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching.

Handbook of Spirituality for Ministers Robert J. Wicks, 1995 An applied spirituality handbook that covers an array of topics relevant to professionals' daily work in pastoral care.

What We Have Seen and Heard Michael E. Connors, 2017-05-11 One of the chief challenges of the Second Vatican Council was to reclaim the meaning of baptism especially as the foundation of service and mission in the world. Fifty years after the close of that watershed gathering, nineteen distinguished religious leaders and scholars reexamine that challenge and its implications for preaching and ministry today. This book reinvigorates an important conversation.

Mothering, Public Leadership, and Women's Life Writing Claire Wolfteich, 2017-07-31 In *Mothering Public Leadership and Women's Life Writing*, Claire E. Wolfteich presents a series of case studies in Christian spirituality bringing mothers' autobiographical writing into focus for theological reflection. From the medieval mystic Margery Kempe to the twentieth-century activist Dorothy Day, from African American preacher Jarena Lee to labor organizer Dolores Huerta, the book mines women's first-person writing, surfacing critical issues for theological analysis. Listening deeply to these diverse maternal voices, the book advances creative theological reflection on work, vocation, time, poverty, Sabbath, and spiritual guidance. *Mothering Public Leadership and Women's Life Writing* demonstrates the significance of the study of mothering for theology and spirituality studies and the import of life writing as an underutilized source for practical theology.

Where Two or Three are Gathered Florence Caffrey Bourg, 2004 Since its retrieval by the Second Vatican Council, the idea of Christian families as domestic churches has slowly but steadily gained favor among Catholics. Striking a balance between academic theology and practical spirituality, this book provides analyses of the home and family as authentic and important locations of the faith community.
