Weiner, 1992-05-13 Weiner provides not only a new perspective on social and natural reproduction but also a framework through which to compare societies This is an original point of view that will have real effects on the direction of future fieldwork and comparative analysis Ivan Karp Smithsonian Institution Female Madrasas in Pakistan Faiza Muhammad Din, 2023-06-20 This study sets out to explain and understand the worldview of students at Female madrasas FeM in Pakistan Beginning as an indigenous informal institute for female education at home FeM has evolved to country wide formal theological seminaries that award women graduate degrees in Islamic studies Since the 1970s state intervention and social engagement have influenced not only the structure of FeMs but their locations Attendance is from all socio economic strata of society A recent development especially in urban centers is the teaching of the state curriculum to enable young students to access mainstream education Public opinion is divided about the role of FeMs in society Some believe that FeMs confine women into the domestic realm others view FeMs as a move forward into modernity as they educate the least educated sectors of society The author uses the lens of language and gender to explore why such divergent views exist about FeMs Specifically language and vocabulary has served as a powerful factor for restricting women to their traditional roles Madrasas have a profound effect on Pakistani society at large as they respond to the immediate socio political and economic needs of the community In the last two decades many books were produced about male madrasas in Pakistan However one focusing on women's madrasas exclusively was needed because currently the number of female students enrolled in madrasas is higher than the male students This unique book is rooted in the author's experience of studying at an FeM She entered a madrasa with a yearning to be closer to God to know the book revealed to the Prophet Muhammad and to learn what he said and did A constant throughout her studies was the recognition that acquiring knowledge is one of the highest acts of righteousness according to the Prophet Muhammad **Cosmos and Society in Oceania** Daniel de Coppet, Andre Iteanu, 2024-11-01 Current anthropology uses expressions such as society as a whole socio cosmic relations spatiotemporal extension global ideology and cosmomorphy to establish that the clear cut Western dichotomy between society and cosmos is not always to be found in the communities it studies In fact many elements that the West would at first undoubtedly classify as belonging either to the cosmos or to the society appear very often in Melanesia as belonging to neither one of these domains but to a realm which combines the attributes of both Focusing on different examples drawn from diverse Melanesian societies this thought provoking volume by eminent specialists re examines the relationship between society and cosmos and in the process opens new directions for research *Tell Me a Story I Don't Know* GEORGE. Queer Nuns Melissa M. Wilcox,2018-05-22 Modern day badass drag queen superhero nuns It was like this asteroid belt the origins and growth of the sisters We are nuns silly serious parody as activism A sacred powerful woman complicating gender Sister outsiders navigating whiteness A secular nun serious parody and the sacred New world order Blooper reel Studying the sisters **Power Sharing** Elizabeth Lillian Keating,1998 What allows certain individuals and groups to maintain control over the actions and lives of others Linguistic anthropologist Elizabeth Keating went to the island of Pohnpei in Micronesia and studied how people use language and other semiotic codes to reproduce and manipulate status differences The result is this inside view of how language works to create power and social inequality This book challenges widely held theories on the nature of social stratification including women s roles in creating hierarchy **Enduring Acequias** Juan Estevan Arellano,2014-10 For generations the Rio Embudo watershed in northern New Mexico has been the home of Juan Estevan Arellano and his ancestors From this unique perspective Arellano explores the ways people use water in dry places around the world Touching on the Middle East Europe Mexico and South America before circling back to New Mexico Arellano makes a case for preserving the acequia irrigation system and calls for a future that respects the ecological limitations of the land Blessed Events Pamela E. Klassen,2001-10-07 *Blessed Events* explores how women who give birth at home use religion to make sense of their births and in turn draw on their birthing experiences to bring meaning to their lives and families Pamela Klassen introduces a surprisingly diverse group of women in their own words while also setting their birth stories within wider social political and economic contexts In doing so she emerges with a study that disrupts conventional views of both childbirth and religion by blurring assumed divisions between conservative and feminist women and by taking childbirth seriously as a religious act Most American women who have a choice give birth in a hospital and request pain medication Yet enough women choose and advocate unmedicated home birth and do so for carefully articulated

reasons social resistance among them to constitute a movement Klassen investigates why women whose religious affiliations range from Old Order Amish to Reform Judaism to goddess centered spirituality defy majority opinion the medical establishment and sometimes the law to have their babies at home In considering their interpretations including their critiques of the dominant medical model of childbirth and their views on labor pain she examines the kinds of agency afforded to or denied women as they derive religious meanings from childbirth Throughout she identifies tensions and affinities between feminist and traditionalist appraisals of the symbolic meaning of birth and the power of women What does home birth a woman centered movement working to return birth to women s control mean in practice for women s gender and religious identities Is this supreme valuing of procreation and motherhood constraining or does it open up new realms of cultural and social power for women By asking these questions while remaining cognizant of religion s significance *Blessed Events* challenges both feminist and traditionalist accounts of childbearing while broadening our understanding of how religion is lived in contemporary America
