Vrindavan's Encounter with Modernity Samrat S. Kumar, 2019 Over the last decade traditional Indian temple towns have transformed into centres for urban lifestyles and tourist activities One of these is the historic temple town Vrindavan in North India on which this study focuses Exploring the multiple socio cultural realities present in the town the author engages with the narratives of the residents as they respond to the socio environmental changes against the backdrop of national and regional modernisation processes Here the imaginaries of a mythic Vrindavan with its pristine and sacred environment are evoked in narrations on contemporary modernity

Godwired Rachel Wagner, 2012-03-12 *Godwired* offers an engaging exploration of religious practice in the digital age It considers how virtual experiences like stories games and rituals are forms of world building or cosmos construction that serve as a means of making sense of our own world Such creative and interactive activity is arguably patently religious This book examines the nature of sacred space in virtual contexts technology as a vehicle for sacred texts who we are when we go online what rituals have in common with games and how they work online what happens to community when people worship online how religious worlds and virtual worlds nurture similar desires Rachel Wagner suggests that whilst our engagement with virtual reality can be viewed as a form of religious activity today's virtual religion marks a radical departure from traditional religious practice it is ephemeral transient rapid disposable hyper individualized hybrid and in an ongoing state of flux

Pugliese, Alexander Y. Hwang, 2017-08-01 In *Teaching Interreligious Encounters* Marc A. Pugliese and Alexander Y. Hwang have gathered together a multidisciplinary and international group of scholar teachers to explore the pedagogical issues that occur at the intersection of different religious traditions This volume is a theoretical and practical guide for new teachers as well as seasoned scholars It breaks the pedagogy of interreligious encounters down into five distinct components In the first part essays explore the theory of teaching these encounters in the second essays discuss course design The parts that follow engage practical ideas for teaching textual analysis practice and real world application Despite their disciplinary contextual and methodological diversity these essays share a common vision for the learning goals and outcomes of teaching interreligious encounters This is a much needed resource for any teacher participating in these conversations in our age of globalization and migration with its attendant hopes and fears *SACRED WORLD OF PENITENTES* Alberto L. Pulido, 2000-07-17 On the isolated frontiers of the Spanish empire Catholicism flourished with little direction or support from the centers of colonial power in Mexico Hispano Catholics in the Southwest fashioned a self reliant lay religion that was intimately connected to their everyday experiences From this tradition emerged Los Hermanos Penitentes of New Mexico a brotherhood that has led Hispano communities both in worship and in practical measures such as collective irrigation and harvest since the end of eighteenth century Yet in accounts that range from nineteenth century pastoral letters to sensational mid twentieth century magazine exposes the brotherhood has been cast as a group of religious primitives who practice self flagellation and other bizarre rituals Drawing on seven years of research and extensive interviews with several penitentes Alberto Lopez Pulido focuses on their core religious concept of doing penance through charity prayer and the good example He explains that for the penitentes prayer is a form of action and acts of charity are tantamount to prayer and that both provide good examples to the brotherhood and the community at large Lopez Pulido argues that such teachings which have flourished outside the boundaries of institutional Catholicism should be seen as creative practical and lived religious expression rather than as deviancy Allowing penitentes oral histories to reveal their views of the sacred Lopez Pulido shows how the brotherhood's practices have continued to maintain community identity and purpose throughout northern New Mexico *The Routledge Companion to African American Art History* Eddie Chambers, 2019-11-12 This Companion authoritatively points to the main areas of enquiry within the subject of African American art history The first section examines how African American art has been constructed over the course of a century of published scholarship The second section studies how African American art is and has been taught and researched in academia The third part focuses on how African American art has been reflected in art galleries and museums The final

section opens up understandings of what we mean when we speak of African American art This book will be of interest to graduate students researchers and professors and may be used in American art African American art visual culture and culture classes *Encountering God* Diana L.
