Messianic Beliefs and Imperial Politics in Medieval Islam Hayrettin Yücesoy, 2009 An analysis of the dynamic relationship between apocalyptic prophesies and medieval Muslim politics *Messianic Beliefs and Imperial Politics in Medieval Islam* analyzes the role of Muslim messianic and apocalyptic beliefs in the development of the Abbasid Caliphate to highlight connections between charismatic authority and institutional developments in the early ninth century Hayrettin Yücesoy studies the relationship between rulers and religion to advance understanding of the era's political actions and more specifically to illustrate how messianic beliefs influenced Abbasid imperial politics and contributed to the reshaping of the caliphate under al Ma'mun 809-33 after a decade long civil war Yücesoy challenges traditional sociological views that marginalize messianic beliefs as oppositional ideologies of disfranchised social classes to be used against the political establishment Instead he finds a mode of symbiosis between messianic beliefs political reform and imperial ambitions put in motion by al Ma'mun's acute understanding of the sociopolitical and ideological context of his time Yücesoy demonstrates how the caliphate absorbed influences from the late antique world and Near Eastern cultures to fashion a prophetic vision that served to undergird al Ma'mun's imperial aspirations A comprehensive portrait of the caliph and his reign emerges from this study as a result By drawing on records of Muslim and non Muslim apocalyptic prophesies circulating among the general public and educated elites alike this study demonstrates the pertinence of messianic beliefs to medieval Muslim politics and illustrates the manner in which the caliph responded and shaped societal concerns on three distinct fronts domestic fiscal and administrative reforms an increase in missionary and military activities and religious reform Yücesoy shows that political usefulness contributed to the longevity of charismatic ideologies by addressing how the Abbasid ruling class adopted such beliefs as a medium to initiate governmental reforms and expand their authority This work adds new layers to ongoing interdisciplinary discourse about the importance of religion in Islamic sociopolitical life both historically and in the contemporary Muslim world *Cultures of the Jews, Volume 1* David Biale, 2006-01-10 Scattered over much of the world throughout most of their history are the Jews one people or many How do they resemble and how do they differ from Jews in

other places and times What have their relationships been to the cultures of their neighbors To address these and similar questions some of the finest scholars of our day have contributed their insights to *Cultures of the Jews* a winner of the National Jewish Book Award upon its hardcover publication in 2002 Constructing their essays around specific cultural artifacts that were created in the period and locale under study the contributors describe the cultural interactions among different Jews from rabbis and scholars to non elite groups including women as well as between Jews and the surrounding non Jewish world What they conclude is that although Jews have always had their own autonomous traditions Jewish identity cannot be considered the fixed product of either ancient ethnic or religious origins Rather it has shifted and assumed new forms in response to the cultural environment in which the Jews have lived *Mediterranean Origins* the first volume in *Cultures of the Jews* describes the concept of the People or Nation of Israel that emerges in the Hebrew Bible and the culture of the Israelites in relation to that of neighboring Canaanite groups It also discusses Jewish cultures in Babylonia in Palestine during the Greco Roman and Byzantine periods and in Arabia during the formative years of Islam
