Lords Of Tikal Rulers Of An Ancient Maya City:

The Lords of Tikal Peter D. Harrison, 2000 The Maya metropolis of Tikal was once one of the greatest cities in the world and today it has become one of the most visited Maya sites Drawing upon more than thirty years of excavation and research Harrison gives a vivid account of its turbulent history The city served as a major center of trade and as an architectural style setter for the central Peten region of the Maya Lowlands The apogee was achieved between A D 692 and 800 under the reigns of three generations of the Jaguar Claw clan whose ruling lords built the Great Temples that symbolize the character and individuality of the city Making full use of the recent breakthroughs in translating the Maya s hieroglyphic record Harrison summarizes what is known to date of this mysterious city and its rulers From publisher description *Handbook to Life in the Ancient Maya World* Lynn V. Foster, 2005 This comprehensive and accessible reference explores the greatest and most mysterious of civilizations hailed for its contributions to science mathematics and technology Each chapter is supplemented by an extensive bibliography as well as photos original line drawings and maps *The New Catalog of Maya Hieroglyphs: The Classic period inscriptions* Martha J. Macri, Matthew George Looper, 2003 For hundreds of years Maya artists and scholars used hieroglyphs to record their history and culture In the nineteenth and twentieth centuries archaeologists photographers and artists recorded the Maya carvings that remained often by transporting box cameras and plaster casts through the jungle on muleback The New Catalog of Maya Hieroglyphs Volume I The Classic Period Inscriptions is a guide to all the known hieroglyphic symbols of the Classic Maya script In the New Catalog Martha J Macri and Matthew G Looper have produced a valuable research tool based on the latest Mesoamerican scholarship An essential resource for all students of Maya texts the New Catalog is also accessible to nonspecialists with an interest in Mesoamerican cultures Macri and Looper present the combined knowledge of the most reliable scholars in Maya epigraphy They provide currently accepted syllabic and logographic values a history of references to published discussions of each sign and related lexical entries from dictionaries of Maya languages all of which were compiled through the Maya Hieroglyphic Database Project This first volume of the New Catalog focuses on texts from the Classic Period approximately 150 900 C E which have been found on carved stone monuments stucco wall panels wooden lintels carved and painted pottery murals and small objects of jadeite shell bone and wood The forthcoming second volume will describe the hieroglyphs of the three surviving Maya codices that date from later periods *Death and the Classic Maya Kings* James L. Fitzsimmons, 2010-01-01 Like their regal counterparts in societies around the globe ancient Maya rulers departed this world with elaborate burial ceremonies and lavish grave goods which often included ceramics red pigments earflares stingray spines jades pearls obsidian blades and mosaics Archaeological investigation of these burials as well as the decipherment of inscriptions that record Maya rulers funerary rites have opened a fascinating window on how the ancient Maya envisaged the ruler s passage from the world of the living to the realm of the ancestors Focusing on the Classic Period AD 250 900 James Fitzsimmons examines and

compares textual and archaeological evidence for rites of death and burial in the Maya lowlands from which he creates models of royal Maya funerary behavior Exploring ancient Maya attitudes toward death expressed at well known sites such as Tikal Guatemala and Copan Honduras as well as less explored archaeological locations Fitzsimmons reconstructs royal mortuary rites and expands our understanding of key Maya concepts including the afterlife and ancestor veneration The Art of Mesoamerica: From Olmec to Aztec (Sixth) (World of Art) Mary Ellen Miller,2019-12-31 Mary Ellen Miller's rich visual and scholarly survey of pre Hispanic art and architecture including the most recent archaeological finds Expanded and revised in its sixth edition The Art of Mesoamerica surveys the artistic achievements of the high pre Hispanic civilizations of Central America Olmec Maya Teotihuacan Toltec and Aztec as well as those of their lesser known contemporaries Providing an in depth examination of central works this book guides readers through the most iconic palaces pyramids sculptures and paintings From the Olmec colossal head 5 recovered from San Lorenzo to the Aztec calendar stone found in Mexico City's Zocalo in 1790 this book reveals the complexity and innovation behind the art and architecture produced in pre Hispanic civilizations This new edition incorporates fifty new lavish color images and extensive updates based on the latest research and dozens of recent discoveries particularly in Maya art where excavations at Teotihuacan the largest city of Mesoamerica and Tenochtitlan the capital of the Aztecs have yielded new sculptures Ritual, Violence, and the Fall of the Classic Maya Kings Gyles Iannone,Brett A. Houk,Sonja A. Schwake,2018-11-05 This volume explores the links between the declining prosperity of the Late to Terminal Classic period and the erosion of kingly legitimacy Exploring issues such as the rise of inflation greater demand of tax and tribute deforestation due to over population and drought conditions the essayists examine what happens to a society when the king who should be appeasing the gods is seen as the problem **Substance of the Ancient Maya** Andrew K. Scherer,Thomas G. Garrison,2024-12-01 Substance of the Ancient Maya Kingdoms and Communities Objects and Beings collects twelve essays by top scholars that highlight what is new in research pertaining to the ancient Maya Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology epigraphy and art history The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya from hand held objects to entire kingdoms This dichotomy reflects the breadth of questions central to current research on the Maya It also illustrates how certain themes such as the relationship between the living and the realm of the supernatural are fundamental to both thinking by and about the Maya at all scales A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book illustrating that archaeologists epigraphers geographers and art historians can equally contribute to the substance of kingdoms and communities as they can to objects and beings Collectively these contributions show how the objects and

beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past *Approaches to Monumental Landscapes of the Ancient Maya* Brett A. Houk, Barbara Arroyo, Terry G. Powis, 2019-12-11 This volume brings together a wide spectrum of new approaches to ancient Maya studies in an innovative exploration of how the Preclassic and Classic Maya shaped their world Moving beyond the towering temples and palaces typically associated with the Maya civilization contributors present unconventional examples of monumental Maya landscapes Featuring studies from across the central Maya lowlands Belize and the northern and central Maya highlands and spanning over 10 000 years of human occupation in the region these chapters show how the word monumental can be used to describe natural and constructed landscapes political and economic landscapes and ritual and sacred landscapes Examples include a massive system of aqueducts and canals at the Kaminaljuyu site a vast arena designed for public spectacle at Chan Chich and even the complex realms of Maya cosmology as represented by the ritual cave at Las Cuevas By including physical conceptual and symbolic ways monumentality pervaded ancient Maya culture this volume broadens traditional understandings of how the Maya interacted with their environment and provides exciting analytical perspectives to guide future study A volume in the series Maya Studies edited by Diane Z Chase and Arlen F Chase *The Great Cities in History* John Julius Norwich, 2016-08-02 A portrait of world civilization told through the stories of the world's greatest cities from ancient times to the present Today for the first time in history the majority of people in the world live in cities The implications and challenges associated with this fact are enormous But how did we get here From the origins of urbanization in Mesopotamia to the global metropolises of today great cities have marked the development of human civilization The Great Cities in History tells their stories starting with the earliest from Uruk and Memphis to Jerusalem and Alexandria Next come the fabulous cities of the first millennium Damascus and Baghdad Teotihuacan and Tikal and Chang'an capital of Tang Dynasty China The medieval world saw the rise of powerful cities such as Palermo and Paris in Europe Benin in Africa and Angkor in southeast Asia The last two sections bring us from the early modern world with Isfahan Agra and Amsterdam to the contemporary city London and New York Tokyo and Barcelona Los Angeles and Sao Paulo The distinguished contributors including Jan Morris Michael D Coe Simon Schama Orlando Figes Felipe Fernandez Armesto Misha Glenny Susan Toby Evans and A N Wilson evoke the character of each place people art and architecture government and explain the reasons for its success *White Roads of the Yucatán* Justine M. Shaw, 2008 Maya sacbeob or raised white roads are often considered a single class of features with a sole purpose In this first systematic examination of their functions meanings arrangements and construction styles Justine Shaw reveals that these causeways served a variety of cultural and natural functions In *White Roads of the Yucatán* author Justine Shaw presents original field data collected with the Cochuah Regional Archaeological Survey at two ancient Maya sites Ichmul and

Yo okop Both centers chose to invest enormous resources in the construction of monumental roadways during a time of social and political turmoil in the Terminal Classic period Shaw carefully examines why it was at this point and no other that the settlements made such a decision She argues that both settlements used the sacbeob as a method of socially integrating the largest most diverse and dispersed population in the Cochuah region She further demonstrates that their use of the sacbeob in concert with other innovative strategies allowed Ichmul and Yo okop to outlast many of the sites that they may have sought to emulate and to flourish during a time of tremendous sociopolitical and economic change In addition to her detailed discussion of these two sites Shaw provides an exhaustive review of the literature of Maya sacbeob archaeology describing various interpretations of construction features and variability This synthetic and interpretive treatment will aid researchers working on a variety of complex civilizations with road systems as well as those interested in core periphery relationships cultural collapse and social integration

Wearing Culture Heather Orr, Matthew Looper, 2013-03-15 *Wearing Culture* connects scholars of divergent geographical areas and academic fields from archaeologists and anthropologists to art historians to show the significance of articles of regalia and of dressing and ornamenting people and objects among the Formative period cultures of ancient Mesoamerica and Central America Documenting the elaborate practices of costume adornment and body modification in Panama Costa Rica Nicaragua Honduras Oaxaca the Soconusco region of southern Mesoamerica the Gulf Coast Olmec region Olman and the Maya lowlands this book demonstrates that adornment was used as a tool for communicating status social relationships power gender sexuality behavior and political ritual and religious identities Despite considerable formal and technological variation in clothing and ornamentation the early indigenous cultures of these regions shared numerous practices attitudes and aesthetic interests Contributors address technological development manufacturing materials and methods nonfabric ornamentation symbolic dimensions representational strategies and clothing as evidence of interregional sociopolitical exchange Focusing on an important period of cultural and artistic development through the lens of costuming and adornment *Wearing Culture* will be of interest to scholars of pre Hispanic and pre Columbian studies

Living with the Dead James L. Fitzsimmons, Izumi Shimada, 2020-03-13 Scholars have recently achieved new insights into the many ways in which the dead and the living interacted from the Late Preclassic to the Conquest in Mesoamerica The eight essays in this useful volume were written by well known scholars who offer cross disciplinary and synergistic insights into the varied articulations between the dead and those who survived them From physically opening the tomb of their ancestors and carrying out ancestral heirlooms to periodic feasts sacrifices and other lavish ceremonies heirs revisited death on a regular basis The activities attributable to the dead moreover range from passively defining territorial boundaries to more active exploits such as dancing at weddings and witnessing royal accessions The dead were and continued to be a vital part of everyday life in Mesoamerican cultures This book results from a symposium organized by the editors for an annual meeting of the Society for American Archaeology The contributors employ historical

sources comparative art history anthropology and sociology as well as archaeology and anthropology to uncover surprising commonalities across cultures including the manner in which the dead were politicized the perceptions of reciprocity between the dead and the living and the ways that the dead were used by the living to create define and renew social as well as family ties In exploring larger issues of a good death and the transition from death to ancestry the contributors demonstrate that across Mesoamerica death was almost never accompanied by the extinction of a persona it was more often the beginning of a social process than a conclusion

Making Senses of the Past Jo Day, 2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and *Making Senses of the Past* is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant *Making Senses of the Past* explores alternative ways to perceive past societies and offers a new way of wiring archaeology that incorporates the senses

Understanding Early Classic Copan Ellen E. Bell, Marcello A. Canuto, Robert J. Sharer, 2004 The book is not just multidisciplinary but interdisciplinary linking for example the architecture of monuments with epigraphy language concepts and human events

Archaeology of Performance Takeshi Inomata, Lawrence S. Cohen, 2006-03-09 Performances in the premodern communities shaped identities created meanings generated and maintained political control But unlike other social scientists archaeologists have not worked much with these concepts *Archaeology of Performance* shows how the notions of theatricality and spectacle are as important economics and politics in understanding how ancient communities work Without sacrificing conceptual rigor the contributors draw on the wide ranging literature on performance Without sacrificing material evidence they try to see how performance creates meaning and ideology Drawing on evidence from societies large and small *Archaeology of Performance* offers an important new ways of understanding ancient theaters of power
