Los Alamos The First Forty Years:

Los Alamos, the First Forty Years Fern Lyon, Jacob Evans, 1984 Preamble Letters establishing the work of the special laboratory The War Years 1943 1945 Postwar 1946 1951 Open City 1952 1962 Recent 1963 1983 *The First Forty Years, 1947-1987* Anita Cohen, 1987 *The General and the Genius* James Kunetka, 2015-07-13 With a blinding flash in the New Mexico desert in the summer of 1945 the world was changed forever The bomb that ushered in the atomic age was the product of one of history's most improbable partnerships The General and the Genius reveals how two extraordinary men pulled off the greatest scientific feat of the twentieth century Leslie Richard Groves of the Army Corps of Engineers who had made his name by building the Pentagon in record time and under budget was made overlord of the impossibly vast scientific enterprise known as the Manhattan Project His mission to beat the Nazis to the atomic bomb So he turned to the nation's preeminent theoretical physicist J Robert Oppenheimer the chain smoking martini quaffing son of wealthy Jewish immigrants whose background was riddled with communist associations Groves's opposite in nearly every respect In their three year collaboration the iron willed general and the visionary scientist led a brilliant team in a secret mountaintop lab and built the fearsome weapons that ended the war but introduced the human race to unimaginable new terrors And at the heart of this most momentous work of World War II is the story of two extraordinary men the general and the genius On Rims & Ridges Hal Rothman, 1997-01-01 New Mexico's Pajarito Plateau encompasses the Bandelier National Monument and the atomic city of Los Alamos On Rims and Ridges throws into stark relief what happens when native cultures and Euro American commercial interests interact in such a remote area with limited resources The demands of citizens and institutions have created a form of environmental gridlock more often associated with Manhattan Island than with the semiurban West writes Hal K Rothman *Ferenc Morton Szasz: A Celebration and Selected Writings* Mark T. Banker, 2018-09-17 Ferenc Morton Szasz was a lifelong student who became a professor of history at the University of New Mexico As a one year appointment at the Albuquerque campus evolved into a forty year career Szasz glimpsed the predictable unpredictability that he would eventually discern as one of history's most enduring and elusive traits The connections and consequences along the way forged a truly exceptional life and career A master of the United States history survey Szasz enthralled and inspired tens of thousands of students with energy enthusiasm provocative insights and good will Ambitious undergraduates regularly vied with graduate students for coveted seats in his upper level courses where he offered insights into World War II American religious history and popular culture Szasz's interests he insisted were the ideas of the people and how they shift over time In an era when historical scholarship became increasingly specialized he pursued an eclectic array of research interests and challenged his doctoral students to do the same The ten selections of Szasz's writings that are the primary content of this volume balance insights into history's great moments with attention to events and details often overlooked by more conventional historians Szasz's crisp accessible prose reveals both the unique and universal in the human experience and
