Hammack,Steven Rathgeb Smith,2018-04-16 Once largely confined to the biggest cities in the mid Atlantic and Great Lakes states philanthropic foundations now play a significant role in nearly every state Wide ranging and incisive the essays in *American Philanthropic Foundations Regional Difference and Change* examine the origins development and accomplishments of philanthropic foundations in key cities and regions of the United States Each contributor assesses foundation efforts to address social and economic inequalities and to encourage cultural and creative life in their home regions and elsewhere This fascinating and timely study of contemporary America s philanthropic foundations vividly illustrates foundations commonalities and differences as they strive to address pressing public problems The Journal of the Assembly During the ... underinvestment of health and overinvestment of criminal justice his idea of redistributing the poor draws attention to how state agencies circulate people between different institutional spaces in such a way that generates revenue for some agencies cuts costs for others and projects illusions that services have been legally rendered By centering the state s use of redistribution Lara Mill n shows how certain forms of social suffering the premature death of mainly poor people of color are not a result of the state s failure to act but instead the necessary outcome of so called successful policy
