Facultad de Filología, *A Companion to Mester de Clerecía Poetry*, 2024-07-15 *Mester de clerecía* is the term traditionally used to designate the first generations of learned poetry in medieval Ibero Romance dialects the precursors of modern Castilian and other Romance languages of the Iberian Peninsula In its time this poetry was anything but traditional These long poems of

structured verse reappropriate the heroic past through the retelling of legends from Classical Antiquity saints lives miracle stories Biblical apocrypha and other tales At the same time the poems recast the place of their authors and learned characters within their stories in the shifting dynamics of their thirteenth and fourteenth century present Contributors are Pablo Ancos Maria Cristina Balestrini Fernando Ba os Vallejo Andrew M Beresford Olivier Biaggini Martha M Daas Emily C Francomano Ryan Giles Michelle M Hamilton Anthony John Lappin Clara Pascual Argente Connie L Scarborough Donald W Wood and Carina Zubillaga *La Corónica*, 1999 Spanish medieval language and literature newsletter varies

In the Doorway of All Worlds Robin M Bower, 2024-05-01 The thirteenth century poet Gonzalo de Berceo is the first named author of Old Spanish letters and the most prolific contributor to the emergence of the body of learned vernacular verse known as the *mester de clerecía* In the *Doorway of All Worlds* focuses on the four hagiographies Berceo produced as a unified body of poetic expression and world building Robin M Bower traces the poet's intricate juxtaposition of contraries to shed light on a poetic world that will innovate a deceptively simple poetic vernacular and elevate its capacity to express nuance power and mystery The book examines the entanglements that bind formal and lexical choices the inscription of performance sites and audiences and problematic source authority It argues that Berceo's elaboration of a poetic vernacular was wholly enmeshed in the immediate human experiential world and the diverse cultural religious linguistic and literary contexts that framed it The book also highlights how Berceo invented a literary vernacular that befits the spoken idiom not only for the crafting of learned fictions but for giving linguistic shape to the ineffable In the *Doorway of All Worlds* ultimately reveals how Berceo freed the meanings trapped in relics shrines and the impenetrable texts from which he translated the saints to circulate in a new time

Figuring the Feminine Jill Ross, 2008-03-15 *Figuring the Feminine* examines the female body as a means of articulating questions of literary authority and practice within the cultural spheres of the Iberian Peninsula both Romance and Semitic as well as in the larger Latinate literary culture It demonstrates the centrality in medieval literary culture of the gendering of rhetorical and hermeneutical acts involved in the creation of texts and meaning and the importance of the medieval Iberian textual tradition in this process a complex multicultural tradition that is often overlooked in medieval literary scholarship This study adopts an innovative methodology informed by current theories of the body and gender to approach Hispanic literature from a feminist perspective Jill Ross offers new readings of medieval Hispanic texts Latin Castilian and Hebrew including Prudentius Peristephanon Gonzalo de Berceo's *Milagros de Nuestra Señora* Shem Tov's *Battle Between the Pen and the Scissors* and several others She highlights ways in which these texts contribute to the understanding of gender in medieval poetics and foreground questions of literary and cultural import *Figuring the Feminine* argues that the bodies of women are crucial to the working out of such questions as the unsettling shift from orality to literacy textual instability cultural dissonance and the resistance to cultural and religious hegemony

Art of Estrangement Pamela Anne Patton,2012 Examines the influential role of visual images in reinforcing the efforts of Spain's Christian ruled kingdoms to renegotiate the role of their Jewish minority following the territorial expansions of the twelfth and thirteenth centuries Provided by publisher *Miracles of Our Lady* Gonzalo de Berceo,2021-12-15 Miracle tales in which people are rewarded for piety or punished for sin through the intervention of the Virgin Mary were a popular literary form all through the Middle Ages Milagros de Nuestra Señora a collection of such stories by the Spanish secular priest Gonzalo de Berceo is a premier example of this genre it is also regarded as one of the four most important texts of medieval Spain Difficulties in translating this work have made it unavailable in English except in fragments now Spanish language scholars Richard Terry Mount and Annette Grant Cash have made the entire work accessible to

English readers for the first time Berceo's miracle tales use the verse form *cuaderna via* fourfold way of fully rhymed quatrains which Berceo may even have invented and are told in the language of the common man They were written to be read aloud most likely to an audience of pilgrims and are an outstanding example of oral religious narrative The total work comprises twenty five miracles preceded by a renowned Introduction that celebrates the Virgin in rich symbolic allegory Mount and Cash's translation is highly readable yet it retains the original meaning and captures Berceo's colloquial style and medieval nuances An introduction placing the miracles in their medieval context and a bibliography complement the text
