Losing Ground:

Losing Ground Jione Havea, 2022-07-07 The Ruth narrative opens with a climate crisis a famine pushed a family to migrate and addresses some of the critical concerns for refugees food security home land inheritance Around those concerns Losing Ground Reading Ruth in the Pacific offers a collection of bible studies from the Pacific that interweave the climate pandemic with the interests and wisdoms of Pasifika natives Weaving Ruth s story together with the stories of those who as Pacific islanders on the frontline of a climate catastrophe are forced to leave their homes because of rising sea levels Pasifika bible scholar Jione Havea offers a powerful and potent contribution which refuses to pretend scripture can be read separately from the every day realities of a climate emergency **Losing Ground** David M. Burley, 2010-04-26 What is it like to lose your front porch to the ocean To watch salt water destroy your favorite fishing holes To see playgrounds and churches subside and succumb to brackish and rising water The residents of coastal Louisiana know For them hurricanes are but exclamation points in an incessant loss of coastal land now estimated to occur at a rate of at least twenty four square miles per year In Losing Ground coastal Louisianans communicate the significance of place and environment During interviews taken just before the 2005 hurricanes they send out a plea to alleviate the damage They speak with an urgency that exemplifies a fear of losing not just property and familiar surroundings but their identity as well People along Louisiana s southeastern coast hold a deep attachment to place and this shows in the urgency of the narratives David M Burley collects here The meanings that residents attribute to coastal land loss reflect a tenuous and uprooted sense of self The process of coastal land loss and all its social components from the familial to the political impacts these residents concepts of history and the future Burley updates many of his subjects narratives to reveal what has happened in the wake of the back to back disasters of Hurricanes Katrina and Rita **Losing Ground** John R. Nolon, Daniel B. Rodriguez, 2007 This book calls attention to the emerging issues involved in building on the edge of environmentally vulnerable places explores why we do this and proposes ways to mitigate its impact The challenge of public policy is to acknowledge and challenge the conflicts inherent in modern planning philosophy in the service of sensible environmental regulation **Visions of Poverty** Robert Asen, 2012-01-01 Images of poverty shape the debate surrounding it In 1996 then President Bill Clinton signed welfare reform legislation repealing the principal federal program providing monetary assistance to poor families Aid to Families with Dependent Children AFDC With the president s signature this originally non controversial program became the only title of the 1935 Social Security Act to be repealed The legislation culminated a retrenchment era in welfare policy beginning in the early 1980s To understand completely the welfare policy debates of the last half of the 20th Century the various images of poor people that were present must be considered Visions of Poverty explores these images and the policy debates of the retrenchment era recounting the ways in which images of the poor appeared in these debates relaying shifts in images that took place over time and revealing how images functioned in policy debates to advantage some positions and disadvantage

others Looking to the future Visions of Poverty demonstrates that any future policy agenda must first come to terms with the vivid disabling images of the poor that continue to circulate In debating future reforms participants whose ranks should include potential recipients ought to imagine poor people anew This ground breaking study in policymaking and cultural imagination will be of particular interest to scholars in rhetorical studies political science history and public policy

Poverty Knowledge Alice O'Connor, 2024-11-01

Progressive era poverty warriors cast poverty in America as a problem of unemployment low wages labor exploitation and political disfranchisement In the 1990s policy specialists made dependency the issue and crafted incentives to get people off welfare Poverty Knowledge gives the first comprehensive historical account of the thinking behind these very different views of the poverty problem in a century spanning inquiry into the politics institutions ideologies and social science that shaped poverty research and policy Alice O Connor chronicles a transformation in the study of poverty from a reform minded inquiry into the political economy of

industrial capitalism to a detached highly technical analysis of the demographic and behavioral characteristics of the poor Along the way she uncovers the origins of several controversial concepts including the culture of poverty and the underclass She shows how such notions emerged not only from trends within the social sciences but from the central preoccupations of twentieth century American liberalism economic growth the Cold War against communism the changing fortunes of the welfare state and the enduring racial divide The book details important changes in the politics and organization as well as the substance of poverty knowledge Tracing the genesis of a still thriving poverty research industry from its roots in the War on Poverty it demonstrates how research agendas were subsequently influenced by an emerging obsession with welfare reform Over the course of the twentieth century O Connor shows the study of poverty became more about altering individual behavior and less about addressing structural inequality The consequences of this steady narrowing of focus came to the fore in the 1990s when the nation s leading poverty experts helped to end welfare as we know it O Connor shows just how far they had traveled from their field s original aims

A Political History of the American Welfare System Brendon O'Connor, 2004 John Maynard Keynes once noted that Madmen in authority are distilling their frenzy from some academic scribbler of a few years back O Connor politics and public policy Griffith U Australia supports this observation in his study of the development of the American welfare system and the broader world of political language and rhetoric within which it has been shaped Studying welfare policy from Lyndon Johnson s liberal social agenda to Bill Clinton s ending welfare as we know it he divides the period and his book into three sections corresponding to welfare politics that conformed to liberal ideology the conservative backlash against liberalism and the forging of a conservative welfare system Annotation 2004 Book News Inc Portland OR booknews com

After Multiculturalism John F. Welsh, 2007-12-12 After Multiculturalism The Discourse on Race and the Dialectics of Liberty provides a unique critique of multiculturalist thought in social theory and public policy from an individualist perspective Contemporary academic and policy discourse on race and racism in the United States is dominated by collectivist social theories that are founded on the idea that the only meaningful challenges to racism are those that foster collective social identities and seek to influence and direct the use of state power in the interest of particular racial and ethnic groups Multiculturalism is the prevailing incarnation of anti racist thought that informs and mediates political process and organizational life in the United States The multicultural discourse on race has become tribalist anti western anti market and statist After Multiculturalism challenges the notion that collectivist and statist ideologies own racism as an educational and public policy issue Welsh demonstrates that individualist philosophies entail critiques of racism that follow directly from their anti collectivist and anti statist foundations He argues that multiculturalism is unlikely to promote the types of social action and changes essential to overcoming racism and that the individualist and libertarian ideas

discussed in the book make important contributions toward the realization of a world free of racial domination To this end the ideas of Ayn Rand Murray Rothbard Benjamin Benjamin Tucker Lysander Spooner Max Stirner and contemporary libertarian scholars are discussed to the lay the foundation for a critique of multiculturalism The book explores the concepts of post ethnicity and transracialism as individualist and libertarian expressions of a society after multiculturalism Welsh s discussions of transracialism and post ethnicity constitute unique and important contributions to social thought This book will hold great interest for scholars and students concerned with race ethnicity political theory or individualist thought as well as scholars and students of the history of ideas

Embodiment in Cross-Linguistic Studies ,2025-11-20 Over the past two decades linguistic research into embodiment has paid considerable attention to the human body and its individual parts particularly within typological and cognitively oriented studies This volume continues that line of inquiry with a specific focus on the lower limb It shows that like other major body parts the lower limb serves as a highly productive source domain for a wide range of conceptualisations across the world s languages and cultures More generally the book contributes to the growing body of work at the intersection of cognition language and culture It also engages with embodiment theory which posits that human cognition and language are fundamentally grounded in sensory motor experience Contributors are Kelsie Pattillo Jaime Pe a Gema Silva Franklin Espinoza Marleny Rodr guez Ma gorzata Wa niewska Rosanna Tramutoli Izabela Will Joseph Jaoko Ochieng Annika Tjuka Cristina Martins Fargetti Carmen L cia Reis Rodrigues Judit Baranyin K czy Iwona Kraska Szlenk Yi Tie Yongxian Luo and Mateus Cruz Maciel de Carvalho

Before a Democracy Died Scott Leckie, José María Arraiza, 2023-11-22 This volume is a collection of chapters based on work within Myanmar by the authors between 2009 and 2021 while working to improve housing land and property rights for the population Despite the extensive application and political uptake of their work throughout the country during the brief democratic reform period of 2011 2021 and measurable progress being made their work and that of the entire HLP community was brought to a sudden stop following the unexpected military coup in February 2021 Many of those with whom the authors worked closely on various HLP matters are no longer able to work safely on these issues in Myanmar Others have fled the country and are now refugees while others continue to face daily persecution and harassment by the military regime These texts will be of great interest to scholars and activists in the region
