Lost Divisions:

Draftee Division John Sloan Brown, 2021-10-21 The involuntary soldiers of an unmilitary people such were the forces that American military planners had to pit against hardened Axis veterans yet prewar unpreparedness dictated that whole divisions of such men would go to war under the supervision of tiny professional cadres Much to his surprise and delight Army Chief of Staff General George C Marshall found that the 88th Infantry Division his first draftee division fought like wildcats and readily outclassed its German adversaries while measuring up to the best Regular Army divisions Draftee Division is at once a history of the 88th Division an analysis of American unit mobilization during World War II and an insight into the savage Italian Campaign After an introduction placing the division in historical context separate chapters address personnel training logistics and overseas deployment Another chapter focuses upon preliminary adjustments to the realities of combat after which two chapters trace the 88th's climactic drive through the Gustav Line into Rome itself A final chapter takes the veteran 88th to final victory Of particular interest are observations concerning differences connected with mobilization between the 88th and less successful divisions and discussions of the contemporary relevance of the 88th's experiences Draftee Division is especially rich in its sources John Sloan Brown with close ties to the division has secured extensive and candid contributions from veterans To these he has added a full array of archival and secondary sources The result is a definitive study of American cadremen creating a division out of raw draftees and leading them on to creditable victories Its findings will be important for military and social historians and for students of defense policy **Maneuver and**

Bulletin of the United States Bureau of Labor Statistics ,1978 **The Military Surgeon** ,1913 Strategic Organizational Diagnosis and Design Richard M. Burton,Borge Obel,2012-12-06 We will not repeat our preface discussion from the first edition Here we only add some new comments a note to the reader and user changes in the book and the Organizational Consultant OrgCon and our thanks to the many individuals who have contributed critically to this venture read and reviewed the book contributed chapters and cases and similarly used and critiqued the OrgCon For the reader there are two very contrasting approaches to reading this book and learning about organizational design The more traditional approach is to read the book and then use the OrgCon on cases and applications The second approach is to begin with the OrgCon software and only examine the book as you find it helpful Which approach is better It is your choice not ours In our experience students in organizational design prefer to start with the OrgCon and a case rather than with the book itself Readers who have more background in organization theory and design usually examine the book first We have tried to write the book so that it can serve both as a reference and an integrated presentation

Decisions and Orders of the National Labor Relations Board United States. National Labor Relations Board,1969 **Breaking Point** Rebecca Schwartz Greene,2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author's personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt's endorsement of

a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2 5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of American psychiatric casualties soon raised questions about screening s validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected
