examples which draw on the best in Catholicism Eastern Orthodoxy and Anglicanism **Recovering the Icon** Patrick Doolan, 2008 Leonid Ouspensky 1902-1987 settled in France following the Russian Revolution and worked as a talented but struggling commercial painter prior to discovering the icon which became his life's work Orthodox iconography had been in full decline since the seventeenth century and Ouspensky set out to recover the genuine sources of Eastern Christian art and to recover the Tradition that had spawned them In this work Schemamonk Patrick Doolan a pupil of Ouspensky has chosen and commented on more than 100 of Ouspensky's representative works Icons and sculptures and wood and stone as well as pressed metal are included giving us a broad range of the talent of this masterful teacher **BOOK JACKET** *Iconoclastic Sex* Henry Walter Spaulding III, 2024-03-13 Christian sexual ethics operates from a place of privilege when it does not consider those impacted by its moral prescriptions A large majority of publications on Christian sexual ethics consider choices and images abstracted from lived conditions of the people called to make these decisions As such it leaves out many for whom sex is neither welcome nor a choice As such these same texts present images of sexual subjects that marginalize those that do not fit As the book presents sexuality both Christian and otherwise prioritizes a language of purity that strangles the life of those imaged impure The present book remedies this emphasis through the language of iconoclasm that blasphemes these images and opens theological reflection beyond the boundary of image based approaches Utilizing a qualitative study of survivors of trafficking and those who grew up under evangelical purity teachings Spaulding narrates sexual ethics in light of their testimonies and the theological resources of iconoclasm to articulate a more just and loving sexuality The new emphasis on sexual ethics not only resists the prescriptions that create the conditions of sex trafficking but the creation of new communities capable of solidarity and mutuality with those caught in the web of trafficking *Anamnesis and the Eucharist* Revd Dr Julie Gittoes, 2013-05-28 Engaging with contemporary Anglican theology of the Eucharist through the concept of anamnesis this book seeks to enrich the Church's understanding of transformation and mission Eucharistic theology finds its place in the midst of much contemporary Anglican theology but little attention has been given to the interrelationship between mission and the Eucharist Julie Gittoes engages with the work of David Ford Rowan Williams and Catherine Pickstock who share a common concern to engage with the way in which the Eucharist shapes the life of the worshipping community as the body of Christ Focusing on the concept of anamnesis remembrance or memorial Gittoes highlights a language of connection in the way in which anamnesis describes the integration of historical sacramental and ecclesial embodiments of Christ The Eucharist looks back to the saving events of Christ's life death and resurrection through it the Church is nourished with the body of Christ participating in it anticipates the eschatological fulfilment of the Kingdom This book explores the connection between the source event of the Church's life and the transformative encounter with Christ in the Eucharist the effects of which are seen in social ethical political action and the Church's mission **The Meaning of Icons** Léonide Ouspensky, Vladimir Lossky, 1982 The nature of the icon cannot be grasped by means of pure art criticism nor

by the adoption of a sentimental point of view Its forms are based on the wisdom contained in the theological and liturgical writings of the Eastern Orthodox Church and are intimately bound up with the experience of the contemplative life The present work is the first of its kind to give a reliable introduction to the spiritual background of this art The introduction into the meaning and language of the icons by Ouspensky imparts to us in an admirable way the spiritual conceptions of the Eastern Orthodox Church which are often so foreign to us but without the knowledge of which we cannot possibly understand the world of the icon Back cover **Icons** Nikodim Pavlovich Kondakov, 2012-05-08 Icon painting has reached its zenith in Ukraine between the 11th and 18th centuries This art is appealing because of its great openness to other influences the obedience to the rules of Orthodox Christianity in its early stages the borrowing from Roman heritage or later to the Western breakthroughs combined with a never compromised assertion of a distinctly Slavic soul and identity This book presents a handpicked and representative selection of works from the 11th century to the late Baroque period
