The Life and Twelve-Note Music of Nikos Skalkottas Eva Mantzourani, 2016-03-03

Nikos Skalkottas is perhaps the last great undiscovered composer of the twentieth century. In the 1920s he was a promising young violinist and composer in Berlin and a student of Schoenberg who included him among his most gifted pupils. It was only after his return to Greece in 1933 that Skalkottas became an anonymous and obscure figure working in complete isolation until his death in 1949. Most of his works remained unpublished and unperformed during his lifetime, and although he is largely known for his folkloristic tonal pieces, Skalkottas in fact concentrated predominantly on developing an idiosyncratic dodecaphonic musical language. Eva Mantzourani provides here a comprehensive study of this fascinating yet under-researched composer. The book, lavishly illustrated with musical examples, is divided into three parts. Part I comprises a critical biography that, by drawing extensively on his letters and other writings, reappraises the image of Skalkottas with which we are often presented. The main focus of the book, however, is on Skalkottas's twelve-note compositional processes, since these characterize the majority of his output and are neither well known nor fully understood. Part II presents the structural and technical features of his twelve-note technique, particularly the different types of sets and their manipulation and his approach to musical forms. Part III consists of analytical case studies of several works presented chronologically, which thus provide a diachronic framework within which Skalkottas's dodecaphonic compositional development can be more effectively viewed. This book underlines Nikos Skalkottas's importance as a composer with a distinctive artistic personality whose work contributed to the development of twelve-note compositional practice and who deserves a more significant position within the Western art music canon than that to which he is often assigned. *Joachim Raff* Helene Raff, 2012

Joachim Raff (1822-1882), a protégé of both Mendelssohn and Liszt, was one of the most popular composers in the second half of the nineteenth century. This book, the only biography of him ever published, is an essential source for anyone interested in his fascinating life and times, and Alan Howe's splendid idiomatic and extremely readable translation makes it available in English for the first time. Helene Raff's distinctively brisk voice, objective and unsentimental in her judgement of her father, is masterfully brought to life for today's readers. This modern edition significantly enhances the original 1925 book with many illustrations, extensively researched footnotes, a complete work list, and an index. *Alexander Zemlinsky* Marc Moskovitz, 2010

Moskovitz's exploration of Zemlinsky's songs, operas, choral works, chamber music, and symphonic compositions follows the composer's search for a distinctly personal sound, revealing an artist caught up in the music of his time yet unwilling to abandon his 19th-century roots. From Zemlinsky's early success as a composer and widely recognized achievements as a conductor to his eventual descent into obscurity, this new biography places Zemlinsky (1871-1942) against the backdrops of Vienna, Prague, and Berlin and illuminates his relationships with figures like Johannes Brahms, Alma

Schindler Gustav Mahler and Arnold Schoenberg Moskovitz's exploration of Zemlinsky's songs operas choral works chamber music and symphonic compositions follows the composer's search for a distinctly personal sound revealing an artist caught up in the music of his time yet unwilling to abandon his 19th century roots Alexander Zemlinsky A Lyric Symphony includes an Afterword by conductor James Conlon and a complete discography of Zemlinsky recordings MARC D MOSKOVITZ is principal cellist of the ProMusica Chamber Orchestra of Columbus Ohio and has written for various music journals and the New Grove Dictionary of Music and Musicians **The Music of Herbert Howells** Phillip A.
