citizenship in the thirty five independent countries in the Americas and the Caribbean Employing a typology developed by the European Union Democracy Observatory on Citizenship he convincingly shows that different nationality laws can be compared by using a systematic analytical grid The individual country chapters additionally pay due regard to issues such as dual citizenship and statelessness and include thorough historical observations as well as extensive bibliographical references for each state Nationality Law in the Western Hemisphere allows academics practitioners governments and international organizations to assess nationality legislation beyond a purely national context **Registro nacional de la República Argentina** Argentina,1926 **Inter-American Yearbook on Human Rights / Anuario Interamericano de Derechos Humanos, Volume 36 (2020) (VOLUME III)** Inter-American Commission on Human Rights,2021-12-28 The 2020 Inter American Yearbook on Human Rights provides an extract of the principal jurisprudence of the Inter American Commission on Human Rights and the Inter American Court of Human Rights Part One contains the Decisions on the Merits of the Commission and Part Two the Judgments and Decisions of the Court The Yearbook is partly published as an English Spanish bilingual edition Some parts are in English or Spanish only NB This book is part of a three volume set Each volume should be ordered separately Vol 1 isbn 978 90 04 44560 4 Vol 2 isbn 978 90 04 50440 0 Vol 3 isbn 978 90 04 50991 7

Las Raras Sarah Moody,2024-05-30 Premio al Mejor Libro Latin American Studies Association Nineteenth Century Section 2025 Las Raras proposes that the Modernistas advocacy for a writing style they considered feminine helps us to understand why so few and perhaps no women were accepted as active participants in Modernismo Author Sarah Moody studies how particular writers contributed to the idea of a feminine aesthetic and tracks the intellectual networks of Modernismo through periodicals and personal papers such as albums and correspondence Buenos Aires Paris and Montevideo figure prominently in this transatlantic study which reexamines some of the most important period writers in Spanish including Rub n Dar o Amado Nervo and Enrique G meez Carrillo This book also considers the critiques launched by women writers such as Aurora C ceres Clorinda Matto de Turner and Mar a Eugenia Vaz Ferreira who experienced Modernista exclusion firsthand deconstructed the Modernista discourse of a modern feminine style and built literary success in alternative terms These writers reoriented the discussion about women in modernity to address women s education professionalization and advocacy for social and civic improvements In this study Modernismo emerges as both a literary style and an intellectual network in which style and sociability are mutually determining and combine to form a system of prestige and validation that excluded women writers Multiple Nationality And International Law Alfred Michael Boll,2007 This book is a comprehensive overview of multiple nationality in international law and contains a survey of current State practice covering over 75 countries It examines the topic in light of the historical treatment of multiple nationality by States international bodies and commentators setting out the general trends in international law and relations that have influenced nationality While the book s purpose is not to debate the merits of multiple nationality but to present actual state practice it

does survey arguments for and against multiple nationality and considers States motivations in adopting a particular attitude toward the topic As a reference work the volume includes a detailed examination of the nature of nationality under international law and the concepts of nationality and citizenship under municipal law The survey of State practice also constitutes a valuable resource for practitioners

Cámara de Diputados de la Nación, 1891 Socio-political Histories of Latin American Statistics Cecilia T. Lanata-Briones, Andrés Estefane, Claudia Jorgelina Daniel, 2022-04-22 This book brings together recent research on the sociopolitical history of Latin American statistics from the nineteenth to the first half of the twentieth century Reflecting the influence of social constructivism in the social sciences it sheds new light on the historical emergence and development of both statistical reasoning and practices within a region traditionally seen as a passive consumer of foreign produced theories and methods By analysing the processes of institutionalisation of statistics in different national spaces from Mexico to the Southern Cone these studies show the unique ways in which Latin America adapted and used this modern tool of government and social classification to build political regimes and scientific arenas The early enthusiasm for enumerating reality the regular production of statistics and censuses and the role of the region in the global transformation of this knowledge are some of the

aspects reviewed to grasp the contingent dynamic of these dialogues and appropriations Thus Socio political Histories of Latin American Statistics seeks to offer new insights into the divergent regional trajectories of this discipline advancing towards an understanding of statistics and its past from a truly global perspective Registro nacional ,1926 **Actas** Argentina.
