Organisation And Economic Change South African Studies Volume 5:

The Griqua Past and the Limits of South African History, 1902-1994 Edward Cavanagh, 2011 The Griqua people are commonly misunderstood Today they do not figure in the South African imagination as other peoples do nor have they for over a century This book argues that their comparative invisibility is a result of their place in the national narrative In this revisionist analysis of South African historiography the author analyses over a century s worth of historical studies and identifies a number of narrative frameworks that have proven resilient to change over this time The Griqua in particular have fared poorly compared to other peoples They appear in and disappear from this body of work in a number of consistent ways almost as though scholars have avoided re imagining their history in ways relevant to the present This book questions why that might be the case

The Political Economy Of South Africa Ben Fine, 2018-02-12 Democratization in South Africa has been accompanied by continuing and even deepening economic inequalities Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of wide ranging research on the history and current dynamics of the South African economy over the past fifty years The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power and they set the parameters within which the economic and political debates are conducted The acclaim with which democratization in South Africa has been greeted has been tempered by the recognition that there are at the same time continuing and even deepening economic inequalities This is more disturbing given the extreme economic disparity experienced by much of the black population the retreat from commitments to public ownership enshrined in the Freedom Charter the unambiguous safeguarding of private capital and the obstacles placed in the way of progressive economic policies by business interests and the entrenched apartheid era bureaucracy Rather than proposing a blueprint for a more equitable economic system this book presents the results and implications of detailed and wide ranging research on both the history and current dynamics of the South African economy from the Second World War to the present The authors analyze a range of strategic economic trajectories linking these to the shifting balance of economic and political power in South Africa But their approach is not prescriptive instead they set the parameters within which the economic and political debates are conducted They also discuss the theoretical arguments involved in the propositions that they and others have put forward The books value is enhanced by the comprehensiveness of the data presented and each chapter is self contained so that particular topics can be studied separately

The Making of Modern South Africa Nigel Worden, 2012-01-10 The new edition of *The Making of Modern South Africa* provides a comprehensive current introduction to the key themes and debates concerning the history of this controversial country Engagingly written the author provides a sharp analytical overview of the new South Africa Examines the major issues in South Africa s history from pre colonial to present including colonial conquest the establishment of racism segregation and apartheid resistance movements and the eventual founding of democracy Contains an additional final chapter that takes the

story to the present and considers the challenges and compromises of the first two decades of democracy Updated with material on post apartheid era and current issues in South Africa The only book that gives direct guidance to bibliographical material and readings on key debates Provides a sharp analytical overview of the new South Africa Extensive references are given to the key writings on each topic and the debates between scholars Griqua Records Karel Schoeman,1996 *The Apartheid City and Beyond* David M. Smith,2003-09-02 Apartheid as legislated racial separation substantially changed the South African urban scene Race group areas remodelled the cities while the creation of homelands mini states and the pass laws controlling population migration constrained urbanization itself In the mid 1980s the old system having proved economically inefficient and politically divisive was replaced by a new policy of orderly urbanization This sought to accelerate industrialization and cultural change by relaxing the constraints on urbanization imposed by state planning The result was further political instability and a quarter of the black or African population housed in shanty towns Negotiations between the Nationalist government and the African National Congress are working towards the end of the old apartheid system Yet the negation of apartheid is only the beginning of the creation of a new society The vested interests and entrenched ideologies behind the existing pattern of property ownership survive the abolition of apartheid laws Beyond race class and ethnicity will continue to divide urban life If the cities of South Africa are to serve all the people the accelerating process of urbanization must be brought under control and harnessed to a new purpose The contributors to this volume draw on a broad range of experience and disciplines to present a variety of perspectives on urban South Africa Oxwagon Sentinel Christoph Marx,2008 This new approach to the social history of Afrikaner nationalism looks into the diverse causes for the rise of a political movement which was to shape South African history profoundly during the 20th Century In the 1930s Afrikaner nationalism transformed itself from a populist into a cultural nationalism becoming politically radicalised at the same time The nationalist symbol of the oxwagon was used not only by the National Party but also by the extra and antiparliamentarian mass movement Ossewabrandwag which was founded in 1939 Drawing on a broad range of archival resources the social history of this extremist organisation is analysed showing local and regional differences The Ossewabrandwag as a nationalist movement counted a considerable part of the Afrikaans white population among its members Therefore the Ossewabrandwag can be understood appropriately only in the context of radical Afrikaner nationalism Given that the potential for political radicalisation in the white South African population was considerable ideological influences from overseas played merely an additional role The book looks into the reasons for the mass participation in the Ossewabrandwag In addition it analyses the organisation s fight with the National Party and its illegal and treasonable activities In this context the book discusses which ideological influences on the apartheid policy can be identified as coming from organised right wing extremism Studies in the Economic History of Southern Africa Z.A. Konczacki,Jane L. Parpart,Timothy M. Shaw,2014-01-14 First Published in 1990 Volume Two of Studies of Economic History of South Africa looks at the Lesotho

and Swaziland regions The unfolding history and historiography of Southern Africa pose profound challenges for both analysis and praxis in the last decade of the twentieth century These challenges are reflected in the range of investigations and contradictions some of which are treated here which together constitute an intellectual and political conjuncture This collection of studies deals with the countries which were not included in the companion book on the economic history of the Front Line States Most of the space in the present volume is devoted to South Africa primarily because of its importance to the region but also because contributions to the economic history of that country in English are very extensive as compared to the other states of Southern Africa **Political Economy of Post-apartheid South Africa** Gumede, Vusi, 2017-05-05

The book made up of three parts covers a wide spectrum of political economy issues on post apartheid South Africa Although the text is mainly descriptive to explain various areas of the political economy of post apartheid South Africa the first and the last parts provide illuminating insights on the kind of society that is emerging during the twenty one years of democracy in the country The book discusses important aspects of the political history of apartheid South Africa and the evolution of post apartheid society including an important recap of the history of southern Africa before colonialism The text is a comprehensive description of numerous political economy phenomena since South Africa gained its political independence and covers some important themes that have not been discussed in detail in other publications on post apartheid South Africa The book also updates earlier work of the author on policy and law making land and agriculture education and training as well as on poverty and inequality in post apartheid South Africa thereby providing a wide ranging overview of the socio economic development approaches followed by the successive post apartheid administrations Interestingly three chapters focus on various aspects of the post apartheid South African economy economic policies economic empowerment and industrial development Through the lens of the notion of democratic developmental state and taking apartheid colonialism as a point of departure the book suggests that so far post apartheid South Africa has mixed socio economic progress The author s extensive experience in the South African government ensures that the book has policy relevance while it is also theoretically sound The text is useful for anyone who wants to understand the totality of the policies and legislation as well as the political economy interventions pursued since 1994 by the South African Government **Manufacturing Militance**

Gay W. Seidman, 2023-09-01 Challenging prevailing theories of development and labor Gay Seidman s controversial study explores how highly politicized labor movements could arise simultaneously in Brazil and South Africa two starkly different societies Beginning with the 1960s Seidman shows how both authoritarian states promoted specific rapid industrialization strategies in the process reshaping the working class and altering relationships between business and the state When economic growth slowed in the 1970s workers in these countries challenged social and political repression by the mid 1980s they had become major voices in the transition from authoritarian rule Based in factories and working class communities these movements enjoyed broad support as they fought for improved social services land reform expanding electoral

participation and racial integration In Brazil Seidman takes us from the shopfloor where disenfranchised workers organized for better wages and working conditions to the strikes and protests that spread to local communities Similar demands for radical change emerged in South Africa where community groups in black townships joined organized labor in a challenge to minority rule that linked class consciousness to racial oppression Seidman details the complex dynamics of these militant movements and develops a broad analysis of how newly industrializing countries shape the opportunities for labor to express demands Her work will be welcomed by those interested in labor studies social theory and the politics of newly industrializing regions Challenging prevailing theories of development and labor Gay Seidman's controversial study explores how highly politicized labor movements could arise simultaneously in Brazil and South Africa two starkly different societies Beginning with the 1960s S

Neo-Panfricanism Foreign Powers and Non-State Actors Francisco Kofi Nyaxo Olympio, 2013 Apart from decolonization and the liquidation of apartheid the Organization of African Unity OAU has had three goals unity security and development In none of these three areas did the OAU live up to its expectation The transformation of the OAU was designed to inject institutional vim mainstream its social forces and keep abreast with challenges of the 21st century This book explores Pan Africanism from a perspective of a rapidly changing international system Key obstacles remain to the leadership conundrum and endemic capacity gaps Series African Politics Politiques Africaines Vol 6 *Corporate governance practices promoting the sustainability of small, medium and microenterprises in South Africa* Medicine Magocha, Martha Matashu, 2025-02-21 Corporate governance practices promoting the sustainability of small medium and microenterprises in South Africa critically examines the intersection of corporate governance and the sustainability of small enterprises Addressing a significant gap in the literature this scholarly work explores whether and how corporate governance frameworks enhance the long term viability of small medium and microenterprises SMMEs Through rigorous analysis each chapter contributes unique insights to the ongoing discourse offering scholars a comprehensive understanding of governance mechanisms that foster resilience and growth in the SMME sector

Socio-ecological-economic reflections on the impacts of COVID-19 in Africa Willie Chinyamurindi, Philani Moyo, 2025-02-28 This scholarly book magnifies reflections from young scientists in South Africa Africa and beyond around the COVID 19 pandemic With contributions by upcoming scientists this scholarly book provides a synopsis of socio ecological economic views on the impact of COVID 19 Through its chapters the book takes a multi disciplinary approach to reflecting on what it was like to be a scientist during the COVID 19 pandemic By doing so each chapter re imagines science from the viewpoint of its discipline offering insights from the perspective of young scientists that could benefit other scholars academics and policymakers *Developmental Regionalism and Economic Transformation in Southern Africa* Said Adejumo, Cyril Obi, 2020-09-01 Interrogating the notion of developmental regionalism as applies to Southern Africa this volume explores the policy options and interventions necessary to ensure a peaceful and stable regional development process

With a focus on the Southern African Development Community SADC the contributions explore how regional institutions such as this can be drivers of developmental regionalism Institutional architecture along with key policy priorities and implementation strategies in areas such as trade industry agriculture private sector development and conflict management are analysed and the ramifications of regional interventions for peace building and regional security in post conflict Southern African countries are explored Drawing on this analysis the book proffers key policy options and strategies for how developmental regionalism can be both consummated and sustained ultimately driving economic transformation Illustrating to policymakers scholars and development practitioners how regional institutions can be engines or facilitators of regional development the book will be of interest to researchers in a broad range of areas including development studies public policy and African studies

The Power of Apartheid Jennifer Robinson, 1996 Although there have been momentous changes in South Africa's recent political history the spatial remnants of apartheid and the planning ideas which underpinned it remain to confound post apartheid city planners This book draws on detailed case study material from one South African town Port Elizabeth to illustrate the relationship between the state power economy and spatial practices The racialised character of the urban order which emerged under apartheid meant that together with the routine capacities of the state to govern the domination of African people and their exclusion from political power were also effectively secured by means of the spatial organisation of the city Aspects of the strong relationship between modernity and racism are teased out in this study of the South African city as are the general links between spatial form and state power This book demands attention from everyone concerned with the spatial politics of urban development

White, Poor and Angry Lis Lange, 2018-02-06 This title was first published in 2003 A fascinating insight into the economic social and political processes that shaped the lives of white workers in Johannesburg between the beginning of deep level mining c 1890 and the 1922 Rand Revolt miners strike The book examines four related topics the formation of working class families working class accommodation the constitution of social networks in the working class neighbourhoods and the political and ideological aspects of white workers unemployment The main argument presented here is that the class experience of white workers in Johannesburg had a very important role in fostering a sense of community between English and Afrikaner workers and their families It is this sense of community that plays an important part in understanding the solidarity that emerged between English and Afrikaner workers during the 1922 Rand Revolt

Raimo Väyrynen: A Pioneer in International Relations, Scholarship and Policy-Making Raimo Väyrynen, 2023-01-03 This book provides a broad overview of Professor Raimo Väyrynen's academic work his role in international research organizations and his contributions to policy debates It offers an interesting review of important political issues during the time span of half a century from disarmament in Europe to the changing relationship between state sovereignty and transnational forces Väyrynen has dealt with the changing agenda of peace and international relations security and the arms race and the world economy This book provides comprehensive analyses of the regional and

systemic structure of international relations with the emphasis on conflicts and warfare between nations It argues that while states even smaller ones still matter transnational issues are increasingly important Taking a historical perspective the articles suggest that large scale violence and arms races have been recurrent and cyclical phenomena in international relations These events reflect the deep seated inequalities in the political and economic systems which moreover vary considerably between regions The publication is important reading for any researcher as well as students policy makers and the science oriented public at large Traces the changing agenda of international relations from disarmament and the world economy to the changing relationship between state sovereignty and transnational forces Provides analyses of the regional and systemic structure in international relations with the emphasis on conflicts and warfare Argues that large scale violence and the arms race have been recurrent and cyclical phenomena in international relations Reviews important political issues from peace and conflict in Europe to the changing power relationship in the world

West African Studies Women and Trade Networks in West Africa OECD,Sahel and West Africa Club,2019-04-04 The report proposes the development of innovative public policies based on the reinforcement of the social capital of women and policy approaches that promote better integration of the initiatives undertaken by governments international and non governmental organisations to empower women and strengthen their resilience

Improving International Capacity Development J. Armstrong,2013-05-07 Nothing is more important to a new fragile or developing nation than developing the capacity of its government to support national well being Every society is complex every government is complex Yet well intentioned international development aid born in an era of infrastructure projects continues to apply simplistic technical solutions to these wickedly complex development problems It s an outside in approach that rarely succeeds even by the development industry s own admission But out there amongst the billions of dollars of failed interventions there are bright spots of success places where capacity is harnessed not just for today but for tomorrow too What is working so well Drawing on research practical experience and stories of success Jim Armstrong explores these emerging approaches

The Peace Business Markus Bouillon,2004-02-26 Markus Bouillon s book makes an important and original contribution to the literature on the Middle East peace process It is based on extensive and imaginative research and it is packed with new and fascinating material Bouillon places the behaviour of the elites under an uncompromising lens His work serves as a useful corrective to the conventional wisdom by highlighting the negative effects of the peace process for all but the elites in Israel Jordan and the Palestinian territories Avi Shlaim Oxford University The first full length authoritative account of the various dimensions of business in the context of Arab Israeli peace an empirically dense and nuanced analysis James Piscatori Oxford University

South Africa in Crisis Jesmond Blumenfeld,2022-10-05 Originally published in 1987 South Africa in Crisis documents the perceptions and policies of all the major interest groups in South Africa during the 1980s when the long running struggle for ultimate political power in South Africa entered a new phase It analyses their responses to the state of ferment and vicious circle of political and

economic decline which ensued in the anti apartheid struggle and examines the developing pressures both from within and outside the country Of particular importance for the process was the relationship between internal reactions to the crisis and the diverse and unprecedented set of political military and economic pressures which were interjected from abroad
