

RUSSIA UNDER THE BOLSHEVIK REGIME

*"Bound to become a classic... [a] great work of political, moral and historical elucidation."
—Philadelphia Inquirer*

RICHARD PIPES

Russia Under The Bolshevik Regime

Michael Rajnik

Russia Under The Bolshevik Regime:

Russia Under the Bolshevik Regime Richard Pipes, 2011-05-04 From the acclaimed authority on Russia and the Russian Revolution the final volume in his magisterial history of the Russian Revolution covering the period from the outbreak of the Civil War in 1918 to Lenin's death in 1924 Offers a penetrating analysis of the making of the Soviet system It is a passionate book whose outstanding scholarship is rooted in universal values like truth honor responsibility and the sacredness of human life Philadelphia Inquirer Timely The work is enriched in intriguing ways by the author's access to the once secret archives of the Soviet Union Los Angeles Times [Russia Under the Bolshevik Regime, 1919-1924](#) Richard Pipes, 1995

The Russian Revolution Richard Pipes, 1991-11-05 A groundbreaking inclusive history of the Russian Revolution for those who want to discover what really happened to Russia The New York Times Book Review A monumental study Wall Street Journal enthralling in its narrative of a movement whose purpose in the words of Leon Trotsky was to overthrow the world The Russian Revolution draws conclusions that have aroused great controversy Richard Pipes argues convincingly that the Russian Revolution was an intellectual rather than a class uprising that it was steeped in terror from its very outset and that it was not a revolution at all but a coup d'état the capture of governmental power by a small minority

The Cossack Struggle Against Communism, 1917-1945 Brent Mueggeberg, 2020-01-17 The downfall of tsarism in 1917 left the peoples of Russia facing an uncertain future Nowhere were those anxieties felt more than among the Cossacks The steppe horsemen had famously guarded the empire's frontiers stampeded demonstrators in its cities suppressed peasant revolts in the countryside and served as bodyguards to its rulers Their way of life intricately bound to the old order seemed imperiled by the revolution and especially by the Bolshevik seizure of power Many Cossacks took up arms against the Soviet regime providing the anticommunist cause with some of its best warriors as well as its most notorious bandits This book chronicles their decades long campaign against the Bolsheviks from the tumultuous days of the Russian Civil War through the doldrums of foreign exile and finally to their fateful collaboration with the Third Reich [Blissful Blindness](#) Dariusz Tolczyk, 2023-09-05 The most heinous Soviet crimes the Red Terror brutal collectivization the Great Famine the Gulag Stalin's Great Terror mass deportations and other atrocities were treated in the West as a controversial topic With the Cold War dichotomy of Western democracy versus Soviet communism deeply imprinted in our minds we are not always aware that these crimes were very often questioned dismissed denied sometimes rationalized and even outright glorified in the Western world Facing a choice of whom to believe the survivors or Soviet propaganda many Western opinion leaders chose in favor of Soviet propaganda Even those who did not believe it behaved sometimes as if they did Blissful Blindness explores Western reactions and lack thereof to Soviet crimes from the Bolshevik revolution to the collapse of Soviet communism in order to understand ideological political economic cultural personal and other motivations behind this puzzling phenomenon of willful ignorance But the significance of Dariusz Tolczyk's book reaches beyond its direct historical focus Written for audiences not

limited to scholars and specialists this book not only opens one's eyes to rarely examined aspects of the twentieth century but also helps one see how astonishingly relevant this topic is in our contemporary world *Debates on Stalinism* Mark Edele,2020-06-11 *Debates on Stalinism* introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled *Debates on Stalinism* allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine **The Titans of the Twentieth Century** Michael Mandelbaum,2024-08-06 An engaging and original historical portrait of eight of the most influential political figures of the twentieth century Woodrow Wilson Lenin Hitler Churchill FDR Gandhi David Ben Gurion and Mao *The Titans of the Twentieth Century* addresses an age old question what is the impact of individuals on history The first half of the twentieth century offered political leaders enormous scope for changing the world This book consists of essays about eight who for better and for worse did just that Woodrow Wilson had a vision for a cooperative world order that failed after the First World War but gained in influence after the Second Vladimir Ilich Lenin founded the totalitarian communist political system that controlled a large part of the planet for much of the twentieth century Adolf Hitler started history's worst war and presided over history's worst atrocity the Holocaust Winston Churchill provided inspiring leadership to Great Britain which made it possible to defeat Nazi Germany in World War II Franklin D Roosevelt steered the United States through the Great Depression and the Second World War Mohandas Gandhi led the movement and developed the philosophy of non violence that ended British rule in South Asia paving the way for the end of empires throughout Asia and Africa David Ben Gurion led the miraculous restoration of Jewish sovereignty in the Holy Land Mao Zedong imposed totalitarian communist rule on China and became history's most egregious mass murderer Individually each chapter offers fresh and often surprising portraits of the twentieth century's titans Collectively the essays present a vivid and revealing portrait of a turbulent half century that shaped the world of today Karl W. Ryavec,2005 This unique study provides an original nitty gritty view of the true nature and operation of Russia's state bureaucracy from the imperial period to the present including the Putin presidency The only book length exploration of the problems and deficiencies of Russian bureaucracy since tsarist times this detailed work sheds important new light on Russian public administration an often overlooked but key barrier to Russian normalization and democratization *The Age of the Dictators* D.G. Williamson,2013-11-05 *The Age of the Dictators* presents a comprehensive survey of the origins and interrelationship of the European dictatorships All the regimes are addressed with ample coverage of the period 1939-45 and analysis of the Soviet

government up to Stalin's death in 1953 Exploring their ideological and political roots and the role of the First World War in their rise to power David Williams identifies the dictatorships as products of their time He examines the Soviet Italian Fascist and Nazi dictatorships as well as the authoritarian regimes in Spain Portugal Eastern Europe and the Balkans providing an analysis of each as an entity of how they evolved and related to one another and to what extent they were a common response to life after the First World War Mindful of historiographical issues the textbook attends to the arguments of key historians and includes a list of relevant sources to assist students in their study of the period Combining an accessible succinct writing style with a broad historical scope *The Age of the Dictators* is an illuminating and thorough account of a fascinating period in world history

Russia under Western Eyes Martin E Malia, 2009-06-30 A dazzling work of intellectual history by a world renowned scholar spanning the years from Peter the Great to the fall of the Soviet Union this book gives us a clear and sweeping view of Russia not as an eternal barbarian menace but as an outermost if laggard member in the continuum of European nations

Revolutionary Europe Gavin Murray-Miller, 2020-02-06 CHOICE Outstanding Academic Title 2021 Revolutionary Europe is an original examination of radical political movements during Europe's long 19th century It employs both national and transnational contexts incorporating new debates in Atlantic history empire studies and cultural history to give a comprehensive narrative of the period from 1775 to 1922 Rather than assessing revolution as a purely theoretical socially driven force or a structural phenomenon the book presents revolution as a process of community building and cultural identification born from instances of acute social and political crisis Taking into account various moments of political upheaval during the 19th century including the French Russian and 1848 revolutions it explores the ways in which political actors attempted to construct new definitions of sovereignty and social unity in a period characterized by vast social economic and governmental change In a wide ranging text that covers Britain and much of continental Europe in detail as well as reaching out to the Americas and Atlantic and Mediterranean Worlds Gavin Murray Miller provides an authoritative transnational study of revolution in the 19th century age of high nationalism

To Overthrow the World Sean McMeekin, 2024-09-10 From an award winning historian a new global history of Communism When the USSR collapsed in 1991 the world was certain that Communism was dead Today three decades later it is clear that it was not While Russia may no longer be Communist Communism and sympathy for Communist ideas have proliferated across the globe In *To Overthrow the World* Sean McMeekin investigates the evolution of Communism from a seductive ideal of a classless society into the ruling doctrine of tyrannical regimes Tracing Communism's ascent from theory to practice McMeekin ranges from Karl Marx's writings to the rise and fall of the USSR under Stalin to Mao's rise to power in China to the acceleration of Communist or Communist inspired policies around the world in the twenty first century McMeekin argues however that despite the endurance of Communism it remains deeply unpopular as a political form Where it has arisen it has always arisen by force Blending historical narrative with cutting edge scholarship *To Overthrow the World* revolutionizes our understanding of the

evolution of Communism an idea that seemingly cannot die **The Gates of Hell** Matthew Heise, 2022-05-11 The gates of hell shall not prevail Decimated by war revolution and famine the Evangelical Lutheran Church of Russia was in critical condition in 1921 In *The Gates of Hell* Matthew Heise recounts the bravery and suffering of German Russian Lutherans during the period between the two great world wars These stories tell of ordinary Christians who remained faithful to death in the face of state persecution Christians in Russia had dark days characterized by defeat but God preserved his church Against all human odds the church would outlast the man made sandcastles of communist utopianism *The Gates of Hell* is a wonderful testimony to the enduring power of God's word Christ's church and the Spirit's faithfulness *A Short History Of Soviet Socialism* Mark Sandle, 2003-09-16 Mark Sandle is Lecturer in Russian and East European History at De Montfort University This book is intended for undergraduate courses on 20th century Soviet history the Cold War European history Soviet studies History of political thought Marxism Leninism The Left Three "Whys" of the Russian Revolution Richard Pipes, 1997-05-27 America's foremost authority on Russian communism the author of the definitive studies *The Russian Revolution* and *Russia Under the Bolshevik Regime* now addresses the enigmas of that country's 70 year enthrallment with communism Succinct lucidly argued and lively in its detail this book offers a brilliant summation of the life's work of one of America's great historians Washington Post Book World The author has distilled his arguments concerning several key questions Why did tsarism fall Why did the Bolsheviks triumph Why did Stalin succeed Lenin The book based on lectures given at the Institute for Human Sciences in Vienna has a nicely colloquial feel clarity and vigor At the heart of the answers to the first two questions is Pipes's assertion that far from being the product of large impersonal forces of history the fall of the tsar and the rise to power of the Bolsheviks in he reminds us a coup d'etat largely unsupported by the Russian people were the result of the old regime's clear failings and Lenin's genius for manipulation and appetite for total power Stalin succeeded Lenin Pipes asserts because Lenin had so successfully suppressed all elements of democracy that no alternatives were possible A concise and eminently straightforward summary of current research on the rise and nature of Communism in Russia Kirkus The Secret History of Soviet Russia's Police State Martyn Whittock, 2020-07-23 Readable and thoughtful does an excellent job of exploring how the murderous political police in all its incarnations defined the Soviet Union and left a poisonous legacy still with us today Professor Mark Galeotti author of *The Vory* and *A Short History of Russia* Repression control manipulation and elimination of enemies assisted in the establishment of the Soviet state and helped maintain it in power but could not in the end prevent its collapse Citizens of the West have for the most part been told a very simplified story of the repressive totalitarian state that was the USSR In fact it was sustained by more than just policing and force No amount of revisionist history can erase the reality of millions controlled imprisoned and killed but there was much more to the USSR's one party state than this Whittock tells a more complex story of the combination of cruelty co operation and compromise required to build and run a one party state Much of this is the story of the role played by the secret police in

creating and sustaining such a form of government but it is much more than simply a history of the secret police This is because the police state which emerged in which dissent both real and imaginary was undoubtedly policed threatened and ruthlessly eliminated was more than just the product of the arrests interrogations executions and imprisonments carried out by the secret police The USSR was also made possible by a battle for hearts and minds which led millions of people to feel that they really had benefited from the system and had a stake in the new society *Broken Altars* Thomas Albert Howard,2025-03-25 A sweeping history of the violence perpetrated by governments committed to extreme forms of secularism in the twentieth century A popular truism derived from the Enlightenment holds that violence is somehow inherent to religion to which political secularism offers a liberating solution But this assumption ignores a glaring modern reality that putatively progressive regimes committed to secularism have possessed just as much and often a vastly greater capacity for violence as those tied to a religious identity In *Broken Altars* Thomas Albert Howard presents a powerful account of the misery deaths and destruction visited on religious communities by secularist regimes in the twentieth century Presenting three principal forms of modern secularism that have arisen since the Enlightenment passive secularism combative secularism and eliminationist secularism Howard argues that the latter two have been especially violence prone Westerners do not fully grasp this however because they often mistake the first form passive secularism for secularism as a whole But a disconcertingly more complicated picture emerges with the adoption of a broader global vision Admitting different species of secularism greater historical perspective and case studies drawn from the former Soviet Union Turkey Mexico Spain Czechoslovakia Albania Mongolia and China among other countries Howard calls into question the conventional tale of modernity as the pacifying triumph of secularism over a benighted religious past **The Bolsheviks in Russian Society** Vladimir Brovkin,1997-01-01 [Russia Under the Old Regime](#) Richard Pipes,1992 The author traces with compelling detail the evolution of the Russian state where the Tsar claimed to own the land and its inhabitants as if they were his own personal property Professor Pipes analyzes the political behavior of Russia s peasantry nobility and bourgeoisie as well as its clergy showing why none of them could limit the absolute power of the state He discusses how the intelligentsia challenged the Tsars power leading to increased repression and Russia s development as a bureaucratic police state This sweeping epic brings Russia s turbulent history to life and helps us better understand the roots of modern Russia **Daily Lives of Civilians in Wartime Twentieth-Century Europe** Nicholas Atkin,2008-08-30 Expert contributors write on the experiences of civilians who lived through occupation and bloodshed in the First World War the Russians who lived or died during the the devastating civil war in 1917 1922 leading eventually to the terrors of Stalinism the Spaniards of many factions who fought against each other in bloody civil wars the ordinary people of France Germany Britain Italy and other countries who faced the hardship and horrors of the Second World War and the ethnic and religious based fighting and atrocities often targeted at civilians in the former Yugoslavia from 1991 into the twenty first century Carefully selected

sources for further research help users find additional information on civilian life during these events Expert contributors write on the experiences of civilians in the many wars of twentieth century Europe Among the events discussed are the Europeans who lived through occupation and bloodshed in the First World War the Russians who lived and died in the devastating civil war in 1917 1922 leading eventually to the terrors of Stalinism the Spaniards of many factions who fought against each other in bloody civil wars the ordinary people of France Germany Britain Italy and other countries who faced the hardship and horrors of the Second World War and the ethnic and religious based fighting and atrocities often targeted at civilians in the former Yugoslavia from 1991 into the twenty first century Carefully selected sources for further research help users find additional information on civilian life during these events Chapters including vivid accounts of civilians roles and experiences through wars in twentieth century Europe are supplemented by recommended print and online resources for further study a glossary defining important terms and concepts and a timeline putting events into a chronological context

Yeah, reviewing a book **Russia Under The Bolshevik Regime** could ensue your near associates listings. This is just one of the solutions for you to be successful. As understood, finishing does not recommend that you have extraordinary points.

Comprehending as with ease as deal even more than supplementary will have the funds for each success. adjacent to, the broadcast as capably as perspicacity of this Russia Under The Bolshevik Regime can be taken as competently as picked to act.
