Russian And Soviet Policy In Manchuria And Outer Mongolia 1911 1931:

Russian and Soviet Policy in Manchuria and Outer Mongolia, 1911-1931 Peter Shêng Hao Tang, 1959 **Russian and Soviet policy in Manchuria and Outer Mongolia. 1911-1931. Introd. by P.E. Mosely ,1959** **Russian and Soviet Policy in Manchuria and Outer Mongolia, 1911-1931** Shêng-hao Tang, 1952 Russian and Soviet Policy in Manchuria and Outer Mongolia, 1911-1931, Etc Peter Shêng-hao TANG, 1959 The Russian General Staff and Asia, 1860-1917 Alex Marshall, 2006-11-22 This new book examines the role of the Tsarist General Staff in studying and administering Russia's Asian borderlands. It considers the nature of the Imperial Russian state, the institutional characteristics of the General Staff and Russia's relationship with Asia. During the nineteenth century, Russia was an important player in the so-called Great Game in central Asia. Between 1800 and 1917, officers of the Russian General Staff travelled extensively through Turkey, central Asia and the Far East, gathering intelligence that assisted in the formation of future war plans. It goes on to consider tactics of imperial expansion and the role of military intelligence and war planning with respect to important regions including the Caucasus, central Asia and the Far East. In the light of detailed archival research, it investigates objectively questions such as the possibility of Russia seizing the Bosphorus Straits and the probability of an expedition to India. Overall, this book provides a comprehensive account of the Russian General Staff, its role in Asia and of Russian military planning with respect to a region that remains highly strategically significant today.

Russian Politics in Exile F. Patrikeeff, 2002-08-06 This work explores Russian life in Northern Manchuria during the period of political, economic and social upheaval leading to its eventual de facto control by Japan and disruption of the balance of power in the Northeast Asian Region. Presenting a fresh interpretation of the combined impact of the 1929 Sino-Soviet Conflict and the onset of the Great Depression, the book examines the interplay of Soviet and emigrant Russian interests in Manchuria and their role in generating the instability that led to Japanese intervention and Russian decline. *Russian and Soviet Policy in Manchuria and Outer Mongolia, 1911-1931*, by Peter Sheng-hao Tang, Peter S. H. Tang, 1958

Anglo-Soviet Relations, 1917-1921, Volume 1 Richard H. Ullman, 2019-01-29 In an intriguing work based largely on new sources, Richard H. Ullman shows how the British government, the politicians, civil servants, military and naval officers dealt with the problem of Russia during the critical period between the Bolshevik Revolution in November 1917 and Britain's de facto recognition of the Soviet government in March 1921. Volume 1 describes the tragic misunderstandings and desperate hopes of the British in the troubled year before the Armistice, which stands as a watershed in the history of Anglo-Soviet policy. As diplomacy failed, British forces found themselves fighting not only in North Russia but in the Caucasus and on the frontiers of India. The second volume, to be published later, will cover the story to 1921. Dr. Ullman's exciting portrayal of these events is a companion work to George Kennan's several-volume study of the same period, *Soviet American Relations 1917-1920*. Originally published in 1961, The Princeton Legacy Library uses the latest print-on-demand technology to again make

available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The History of Mongolia (3 Vols.) David Sneath, Christopher Kaplonski, 2010-05-01 A significant aspect of this work is the emphasis on source materials including some translated from Mongolian and other languages for the first time The source materials and other articles are all fully contextualized and situated by introductory material by the volume's editors This is the first work in English to bring together significant articles in Mongolian studies in one place which will be widely welcomed by scholars and researchers in this field This essential reference in two volumes includes works by noted scholars including Charles Bawden Igor de Rachewiltz David Morgan Owen Lattimore and Caroline Humphrey It also includes excerpts from translations of source documents such as the works of Rashid al Din The Secret History of the Mongols and the Yuan Shih In addition more recent historical periods are covered with material such as Batmonh's speech that heralded Mongolia's versions of glasnost and perestroika as well as Baabar's Buu Mart a key work associated with the Democratic Revolution of 1990

International Competition in China, 1899-1991 Bruce A. Elleman, 2015-04-10 China's recent economic reforms have opened its economy to the world This policy however is not new in the late nineteenth century the United States put forward the Open Door Policy as a counter to European exclusive spheres of influence in China This book based on extensive original archival research examines and re-evaluates China's Open Door Policy It considers the policy from its inception in 1899 right through to the post 1978 reforms It relates these changes to the various shifts in China's international relations discusses how decades of foreign invasion civil war and revolution followed the destruction of the policy in the 1920s and considers how the policy when applied in Taiwan after 1949 and by Deng Xiaoping in mainland China after 1978 was instrumental in bringing about respectively Taiwan's economic miracle and mainland China's recent economic boom The book argues that although the policy was characterised as United States economic imperialism during the Cold War in reality it helped China retain its sovereignty and territorial integrity

Diplomacy and Deception Bruce Elleman, 2016-09-16 During the Soviet period the USSR conducted diplomatic relations with incumbent regimes while simultaneously cultivating and manipulating communist movements in those same countries The Chinese case offers a particularly interesting example of this dual policy for when the Chinese Communists came to power in 1949 their discovery of the nature of Moscow's imperial designs on Chinese territory sowed distrust between the two revolutionary powers and paved the way to the Sino-Soviet split Drawing on newly available documents from archives in China Taiwan Russia and Japan this study examines secret agreements signed by Moscow and the Peking government in 1924 and confirmed by a Soviet-Japanese convention in 1925 These agreements essentially allowed the Bolsheviks to reclaim most of tsarist Russia's concessions and privileges in China including not only

Imperial properties but also Outer Mongolia the Chinese Eastern Railway the Boxer Indemnity and the right of extraterritoriality Each of these topics is analyzed in this volume and translations of the secret protocols themselves are included in a documentary appendix Additional chapters discuss Sino Soviet diplomacy and the parallel history of Soviet relations with the Chinese Communist Party as well as the origins and purpose of the United Front policy

Mongolia in the Twentieth Century Stephen Kotkin, Bruce Allen Elleman, 2015-02-12 The remote vastness of Mongolia has remained somewhat of a mystery to most Westerners no less so in the 20th century Homeland of the legendary conqueror Chingiz Khan in modern times Mongolia itself has been the object of imperial rivalry For most of the 20th century it was under Soviet domination Mikhail Gorbachev began the withdrawal of Soviet troops from Mongolia in 1989 a process completed in 1992 By 1996 a coalition of opposition parties triumphed in national elections and Mongolia launched itself on a new course It is perhaps the most intriguing of the post community transition societies This volume examines Mongol history over the past century embracing not only Mongolia proper but also Mongol communities in Russia and China Contributions based on new archival research and the latest fieldwork are from the world s top experts in the field including four authors from Mongolia and others from Japan Russia Taiwan Great Britain and the United States Stephen Kotkin s introductory chapter is an overview of Mongol studies The essays in part 1 examine Sino Russian competition over Outer Mongolia Part 2 looks at international diplomacy in Mongolia including the role of Japan Part 3
