*The Foreign Policy of Russia* Robert H. Donaldson, Denying History: The United States' Policies Toward Russia in the Caspian Sea Region, 1991-2001. Bradley Axmith, 2013-08-09 The historical record seen through Offensive Realism presents evidence illustrating that the United States approach toward the Caspian Sea region between 1991 and 2001 was governed by idealistic principles rather than balance of power considerations That was led by the false notion that democratic Russia would act in accordance with US goals The United States denied the competitive nature of international politics refusing to criticise abuses by Moscow in the region and failing to intervene when US interests were marginalised The US failed to prevent Russia from refashioning conditions conducive to the re absorption of the Caucasus and Central Asia as a sphere of influence nor did it account for China s expanded role and trajectory as a challenge to US power This analysis shows for example that Russia s proximity and willingness to use force exceeded the capabilities of the US use of its global

predominance to shape regional events **Conflict and Security in the Former Soviet Union** Maria Raquel Freire, 2018-01-17 Title first published in 2003 Conflict and Security in the Former Soviet Union examines the Organization for Security and Co operation in Europe OSCE s approach to post Cold War tensions and conflicts in the former Soviet area the extent to which the new procedures mechanisms and instruments developed by the organization are useful and how the OSCE s activities may reveal innovative contributions to conflict studies *Russian Politics* Joseph L. Noguee, R. Judson

Mitchell, 1997 This book offers an up to date treatment of Russian politics in the post Cold War era drawn from English language and Russian sources The authors see great potential in recent political developments in the former Soviet Union and in this book convey the sense of drama embodied in those changes and their impact upon the Russian people This book focuses on presenting and analyzing long term factors rather than simply recounting transitory events to make this book as useful tomorrow as it is today *Russia's Chechen War* Tracey C. German, 2003-12-08 Widespread media interest into the

Chechen conflict reflects an ongoing concern about the evolution of federal Russia Why did the Russian leadership initiate military action against Chechnya in December 1994 but against no other constituent part of the Federation This study demonstrates that the Russian invasion represented the culmination of a crisis that was perceived to have become an increasing threat not only to the stability of the North Caucasus region but also to the very foundations of Russian security It looks closely at the Russian Federation in transition following the collapse of the communist Soviet Union and the implications of the 1991 Chechen Declaration of Independence in the context of Russia s democratisation project

*Nation-Building and Minority Politics in Post-Socialist States* David Galbreath, 2005-03-05 Despite socialism s best efforts ethnic identity remained a salient feature in Central and Eastern Europe Not only did ethno nationalism help to bring about the fall of the socialist regimes in this region but it also characterized much of the post socialist politics Nation Building and Minority Politics examines the issue of minority politics in post socialist states within this dual structure In particular it offers

an in depth analysis of post restoration politics in Estonia and Latvia covering four issues First it looks at the historical context of the current group relations Second the study explores the domestic nature of minority politics in Estonia and Latvia by looking at domestic politics and policies Third it examines the role of the Russian Federation as an external national homeland through illustrating developments within Russian foreign policy Finally the book analyses the role of three significant European organizations namely the OSCE EU and the Council of Europe as agents of conditionality Overall this study combines old and new theoretical approaches to nation building and minority politics to exhibit the changing nature of the relationship between majority minority external national homeland and international organizations in today s Europe
